POST OFFICE DEPARTMENT, ASSISTANT POSTMASTER GENERAL  
WASHINGTON 25, D. C., February 9, 1955

Hon. J. A. Beek  
Secretary of the Senate  
Sacramento, California

DEAR MR. BEEK: Your letter of January 26 to the President transmitting Senate Joint Resolution No. 6 relating to a special stamp to commemorate the California redwoods has been referred to this office for reply.

We regret that no encouragement can be offered for the issuance of such a special stamp at this time. We are engaged in issuing a new series of regular stamps which it is hoped will be completed this year. Because of this and production limitations, it will be necessary to restrict the special issues that can be approved for 1955.

We are sorry that our reply cannot be more favorable and send you our best wishes.

Sincerely yours,

ALBERT J. ROBERTSON  
Assistant Postmaster General

STATE OF CALIFORNIA  
SACRAMENTO 14, February 15, 1955

To: Hon. J. A. Beek  
Secretary of the Senate  
Senate Chamber  
Sacramento, California

From: State Board of Equalization  
J. H. Quinn, Chairman

Subject: Senate Concurrent Resolution No. 11

This will acknowledge receipt of your letter of February 8, together with its enclosure of a copy of the above resolution adopted at the current legislative session, relative to cooperation between the legislative and executive branches of the State Government on pending legislation.

You are assured that this resolution has been called to the attention of our staff and that anyone who may represent our office in connection with legislation has been instructed that, before opposing a bill in committee, he shall discuss the reasons for such opposition with the author of the bill prior to the time of hearing. You are also assured that we shall arrange to furnish each of our representatives written authorization to act as such, specifying the scope of his authority, and that we shall instruct any such representative to file this authorization with the chairman of the committee before whom he may make an appearance.

As a constitutional state agency, directly accountable to the people, this board is keenly aware of its duty to cooperate with the Legislature so that the best possible thought may be brought to bear on legislation that relates to the duties that have been assigned to us. It will always be in that spirit of cooperation that we shall send anyone as our representative before a legislative committee and we are

confident that through scrupulous observance of the policy established by Senate Concurrent Resolution No. 11, we shall be able to maintain a most satisfactory relationship with the Legislature to the advantage of all concerned.

CIVIL AERONAUTICS BOARD  
WASHINGTON 25, February 3, 1955

*Hon. J. A. Beek, Secretary of the Senate  
California Legislature, Senate Chamber  
Sacramento, California*

DEAR MR. BEEK: This will acknowledge your letter of January 11, 1955, in which you transmitted a copy of California Senate Joint Resolution No. 1, concerning a proposed restriction of civil aircraft flights in southeastern California.

The problem of facilitating flight of civil aircraft in the area with which you have concern was considered by the Los Angeles Regional Airspace Subcommittee of the Air Coordinating Committee on January 6, 1955. At that time agreement was reached among the interested parties which apparently meets the objectives of the joint resolution. I can also report to you that the Washington Airspace Subcommittee has now approved the solution agreed to in the Regional Airspace Subcommittee. Accordingly, there appears to be no further action required at this time of the Civil Aeronautics Board.

The interest of the California Senate in this matter is appreciated and I trust that matters such as this will continue to be settled in the Regional Airspace Subcommittee to the mutual satisfaction of all.

Sincerely yours,

CHAN GURNEY, Acting Chairman

UNITED STATES DEPARTMENT OF THE INTERIOR  
OFFICE OF THE SECRETARY  
WASHINGTON 25, D. C., FEBRUARY 18, 1955

*J. A. Beek, Secretary  
California Senate*

MY DEAR MR. BEEK: This will acknowledge with thanks your letter of January 26, 1955, transmitting copies of Senate Joint Resolutions Nos. 3 and 5 of the California Legislature, pertaining respectively to the Yosemite National Park and the Joshua Tree National Monument. The White House has referred to this department the copies of these resolutions which were sent to the President.

Resolution No. 3 memorializes the Secretary of the Interior to act in certain respects with regard to fishing regulations in the Yosemite National Park. Recent regulations published in the January 28, 1955, issue of the *Federal Register* provide that the open season for fishing in Yosemite National Park shall conform with the laws of the State of California.

Resolution No. 5 memorializes the President and Congress of the United States and the Secretary of the Interior to take appropriate action to permit prospecting and mining in the Joshua Tree National Monument. There is no authority to do this since when the monument was established the lands were withdrawn from all forms of appropriation. The Atomic Energy Commission, however, has requested and received permission to investigate the area for the possible occurrence of fissionable source material. It is reasonable to expect that upon completion of this investigation there will be reliable information available as to whether any important radioactive materials occur within the monument.

Sincerely yours,

ORME LEWIS  
Assistant Secretary of the Interior

RESOLUTIONS CHAPTER 31  
1954 SPECIAL SESSION

*Assembly Concurrent Resolution No. 22—Relative to an independent study of water resource development.*

WHEREAS, The Legislature must consider and act on legislation to provide for the full development of the water resources; and

WHEREAS, Many plans have been submitted to the Legislature calling for the expenditure of billions of dollars to construct projects which would dwarf any similar project heretofore constructed by man; and

WHEREAS, The Members of the Legislature are without means of evaluating reports on the proposed projects as to their relative economic or engineering feasibility or the effect of this on the over-all coordination of water resource development; and

WHEREAS, It is possible that an independent study and investigation of the water resources development and state-wide plan for the coordination and integration of water resources would furnish a basis of comparison by means of which the Legislature could evaluate other plans submitted to it; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the Joint Committee on Water Problems is requested to study the feasibility of securing, by a private agency supervised and directed by an advisory body composed of leading engineers and economists, an independent survey and investigation of the water resources of the State and a state-wide plan for the coordination and integration of all water development projects to the extent feasible, and to report thereon to the Legislature not later than the tenth calendar day of the 1955 Regular Session; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Joint Committee on Water Problems.

## PARTIAL REPORT

### JOINT COMMITTEE ON WATER PROBLEMS

In compliance with the requests set forth in the above resolution, your committee, at its meeting held on August 27, 1954, regularly passed and adopted a motion to the effect that private engineering organizations of nationally recognized standing, staffed for such purposes, be broached upon the proposal of making an independent study and investigation of all of the water resources of the State of California, together with the formulation of a comprehensive plan for the integration and ultimate development of all economically feasible projects therein. Five such firms were approached in this matter.

In general, it may be stated that representatives of each of these organizations expressed great interest in the proposition, but also were extremely cautious in making any definite statements which might reflect a commitment on estimated probable costs of such a survey and time required for completion. This apparent reluctance is understandable, since it was based upon the grounds that no funds as yet have been appropriated for this purpose by the Legislature, nor has the full amount of money necessary been assured to carry out what was considered to be the largest undertaking of this nature ever contemplated in the United States. All agreed that such a large-scale investigation, to be done properly, would entail the assembly of a very large staff of high-class and specially trained personnel at great expense. For these reasons, it appears that the representatives of the engineering firms were of the opinion that they would require more specific information on the exact scope of the undertaking and a better understanding of the data available before they would be in a position to present any factual and positive estimates.

Under the circumstances, the rough and strictly tentative estimates for the type of study and investigation obviously contemplated in the resolution ran from two to five years in time, and in estimated probable cost ran into several million dollars, the full cost, of course, depending upon the amount of detail demanded.

It, furthermore, was the consensus of the representatives of these firms that, in view of the fact that the State Water Resources Board, through the State Engineer, contemplates the early completion of its report on the new California Water Plan, a considerable over-all saving of funds necessary for an independent survey could be realized by waiting until this report is made available.

In light of these circumstances, it appears that there are far too many elements of uncertainty to provide a background for any reliable cost estimates at this time other than that the investigation will involve an outlay running into many millions of dollars to obtain a report of the scope and dependability necessary to be of any value for the purposes intended.

It is equally clear also that in the event it is considered desirable to postpone the proposed independent survey of the State's water resources and project developments, until such time, at least, as the preliminary and tentative preview of the new California Water Plan is presented to the Legislature, the ultimate costs of an independent study would be reduced very substantially.

#### RESOLUTIONS

The following resolutions were offered :

By Senator Byrne :

##### Senate Resolution No. 70

Relative to commending the Golden Empire Broadcasting Company

##### Senate Resolution No. 71

Relative to opposing enactment of H. R. No. 1 by U. S. Congress

WHEREAS, There has been introduced and is now pending in the Congress of the United States a bill for a public law, H. R. No. 1, which, if enacted, would dangerously weaken the only safeguards in existing legislation under which industries injured by low-price foreign competition may seek recourse, namely, the "escape clause" and "peril point" provisions; and

WHEREAS, This proposed bill, H. R. No. 1, if enacted, would give the executive branch of the Federal Government extended and broad new authority to reduce United States import duties and regulations without further congressional action

and even contrary to express findings and recommendations of the United States Tariff Commission; and

WHEREAS, The Senate of the State of California is seriously concerned by the adverse effects which substantial tariff reductions already made are having upon important industries of the State, such as the almond, dairy, fig, citrus, livestock, olive, vineyard, walnut, fish and wool industries and by the failure of the trade agreements program to obtain effective reciprocal concessions for United States products, including the products of essential agricultural crops; now, therefore, be it

*Resolved by the Senate*, That the State of California does hereby memorialize the Congress of the United States not to pass H. R. No. 1, or comparable legislation, unless it is amended to greatly strengthen the "peril point" and "escape clause" provisions and thus provide legal means by which American workers and industries suffering injury as a result of excessive tariff reductions may seek relief; and, be it further

*Resolved*, That copies of this resolution be forwarded to the President of the United States, the Vice President of the United States, to United States Senators William F. Knowland and Thomas H. Kuchel, and California Members of the House of Representatives.

Whenever the State has acquired or constructed a toll bridge or bridges over any of the waters specified in Section 30100 (a), regardless of whether any of such bridges have become toll-free, and whenever the department determines that an additional toll bridge or other highway crossing over such waters is required and that it is for the best interests of the public highways in the State that such additional toll bridge or other highway crossing be constructed and operated by the State, the director of the department shall submit its recommendations to that effect to the authority, together with preliminary estimates of the cost of construction of such additional toll bridge or other highway crossing and an estimate of the amount required to be raised for the purpose and for the purpose of retiring any outstanding bonds secured by a pledge of the tolls and revenues from such existing toll bridge or bridges by the issuance of revenue bonds, and a statement of the probable amount of money, property, materials or labor to be contributed from other sources in aid of such construction. If a majority of the members of the authority concur in the recommendation of the department, the authority shall adopt a resolution declaring that public interest and necessity require the construction of the additional toll bridge or other highway crossing and authorizing the issuance of revenue bonds for the purpose of obtaining funds in the amount estimated to be required for such construction and for the retiring of any and all outstanding bonds secured by a pledge of the tolls and revenues of the existing bridge or bridges, including, without limiting the generality of the foregoing, all expenses incident to the calling, retirement, or payment of any outstanding bonds, together with, among other things, the difference in amount between the par value of the outstanding

bonds and any amount less than par for which the additional revenue bonds may be sold, and also any amount necessary to be made available for the payment of interest upon the additional revenue bonds from the date of sale to the date of maturity or payment of the outstanding bonds, to be redeemed out of the proceeds of the sale or the date upon which the outstanding bonds to be redeemed will be paid pursuant to call or by agreement with the holders, and also the premium, if any, necessary to be paid in order to call or retire any such outstanding bonds including all amounts necessary to be deposited with the fiscal agent for the outstanding bonds to enable the fiscal agent to hold in trust an amount fully sufficient for the payment and retirement of all the outstanding bonds, including the interest thereon to the earliest date upon which the fiscal agent may legally call and redeem all such outstanding bonds pursuant to the provisions of any resolution under which the outstanding bonds are issued. Out of the proceeds of the sale of such additional revenue bonds, the authority may deposit with the fiscal agent for any issue of outstanding bonds in advance of the earliest practicable call date of the outstanding bonds, amounts fully sufficient for the payment, retirement and redemption of the outstanding bonds to be held by the fiscal agent in trust for such redemption at the earliest practicable call date upon which the outstanding bonds may be redeemed.

SEC. 5. Section 30204.2 of said code is amended to read:

30204.2. The resolution may provide for a single authorization of bonds and for the surrender and cancellation of all outstanding bonds theretofore issued for the acquisition or construction of the existing bridge or bridges either by call or the consent of the holders thereof.

The tolls and other revenues to be received from the use and operation of both the existing bridge or bridges and the additional toll bridge or other crossing shall be directly, concurrently and exclusively pledged for the redemption of the single authorization of bonds and the payment of the interest thereon, subject only to the rights of the holders of any outstanding revenue bonds payable from the revenues of any existing toll bridge or bridges prior to their redemption or surrender for cancellation, and shall remain so pledged until all of the bonds are fully redeemed and paid or sufficient funds have been accumulated and are legally available for such purpose and [neither] none of the bridges shall become free public bridges until the bonds are redeemed and paid or provision made therefor. *In the event any existing bridge or bridges have become toll-free, the authority may reimpose tolls and other charges for the use of such bridge or bridges for the purpose of this section.*

SEC. 7. Section 30204.4 of said code is amended to read:

30204.4. All such bonds so authorized shall be issued in the name of the authority and shall constitute obligations only of the authority and shall be identified as toll bridge bonds and shall contain a recital on the face thereof that the payment or redemption of the bonds and the payment of the interest thereon is secured by a direct, concurrent, and exclusive charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the existing bridge or bridges and from the operation of the particular additional toll bridge or other highway crossing for the acquisition or construction of which the bonds are issued and that neither the payment of the principal or any part thereof or any interest thereon constitutes a debt, liability, or obligation of the State.

SEC. 8. Section 30204.5 of said code is amended to read:

30204.5. If the existing bridge [is a] or bridges are state highways, the additional bridge shall likewise be a state highway of the same class.

SEC. 9. Section 30357 of said code is amended to read:

Bill read second time.

**Motion to Amend**

Senator Brown moved the adoption of the following amendments:

**Amendment No. 1**

On page 1, line 21, of the printed bill, after the word "held" insert "in the county seat of the county in which the area to be affected by the order lies or, if such area lies in more than one county, the county seat of the county in which the greater portion of such area lies,".

**Amendment No. 2**

On page 2 after line 7, insert  
"SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Because of an over-population of elk in the Owens Valley area in Inyo and Mono Counties, serious agricultural crop depredation is occurring. Past history of this elk herd indicates that periodically it builds up to numbers beyond the carrying capacity of its range and it competes with livestock, deer, and agricultural crops. The commission has held two special hunts in the past years to bring the herd down to the carrying capacity of its range, and this type of management is desirable if this herd is to be maintained in the Owens Valley in the future. At present, indications are that this elk herd is seriously in need of reduction during the fall of 1955. It is desirable for the commission to act at an early date and it would be preferable to act under the new law to avoid loss of income to the department."

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

That there are very few of the wild or undomesticated burros left in this State and they are being captured and removed by the truckload for slaughtering in places other than that of their capture. This amendment will prevent the capture of burros

for subsequent killing and since it is imperative to stop this slaughter at the earliest possible time it is necessary that this act take effect immediately."

Relative to opposing enactment of H. R. No. 1 by the United States Congress

WHEREAS, There has been introduced and is now pending in the Congress of the United States a bill for a public law, H. R. No. 1, which, if enacted, would dangerously weaken the only safeguards in existing legislation under which industries injured by low-price foreign competition may seek recourse, namely, the "escape clause" and "peril point" provisions; and

WHEREAS, This proposed bill, H. R. No. 1, if enacted, would give the executive branch of the Federal Government extended and broad new authority to reduce United States import duties and regulations without further congressional action and even contrary to express findings and recommendations of the United States Tariff Commission; and

WHEREAS, The Senate of the State of California is seriously concerned by the adverse effects which substantial tariff reductions already made are having upon important industries of the State, such as the almond, dairy, fig, citrus, livestock, olive, vineyard, walnut, fish and wool industries and by the failure of the trade agreements program to obtain effective reciprocal concessions for United States products, including the products of essential agricultural crops; now, therefore, be it

*Resolved by the Senate, That the Senate of the State of California does hereby memorialize the Congress of the United States not to pass H. R. No. 1, or comparable legislation, unless it is amended to greatly strengthen the "peril point" and "escape clause" provisions and thus provide legal means by which American workers and industries suffering injury as a result of excessive tariff reductions may seek relief; and, be it further*

*Resolved, That copies of this resolution be forwarded to the President of the United States, the Vice President of the United States, to United States Senators William F. Knowland and Thomas H. Kuchel, and California Members of the House of Representatives.*

WHEREAS, This report is a most informative and enlightening study of this subject and one for which there is a great public demand; and

WHEREAS, The Director of Public Works has offered to have printed for the information of the public 5,000 copies of this report; now, therefore, be it

#### Senate Resolution No. 75

Relative to water resources legislation and the calling of a special session thereon

WHEREAS, Almost 6,000 bills have been presented to this Legislature for consideration at the current 1955 Regular Session; and

WHEREAS, Numerous bills and measures involve problems of extraordinary complexity and importance whose legislative solution will affect materially the economic and general welfare of the State of California for generations to come; and

WHEREAS, Among them are many bills relating to projects for the use of our water resources, including some pertaining to the Feather River Project and the San Luis Reservoir; and

WHEREAS, The period permitted for the consideration of all bills and measures introduced is so limited by the State Constitution as to make it virtually impossible for the Legislature at this session to give fair and adequate consideration to the bills before it relative to the use of our water resources, if it also is to give like consideration to bills on other matters before it; now, therefore, be it

*Resolved by the Senate of the State of California*, That the Governor of the State of California is hereby requested to issue his proclamation convening the California Legislature in extraordinary session following the final adjournment of the current regular session and not later than the 1956 Budget Session for the purpose of considering bills relating to projects for the use of our water resources similar to those now before the Legislature; and be it further.

*Resolved*, That it is in the best interests of the people of the State of California that pending the issuance of such proclamation no action be taken by this Legislature on any bill now before it relating to the use of the State's water resources; and be it further

**Senate Resolution No. 77**

Relative to congratulating the University of San Francisco basketball team on their outstanding season

WHEREAS, By its sparkling play the University of San Francisco basketball team has brought glory to its members and to the university which it represents; and

WHEREAS, Ranked by all of the major polls as the No. 1 team in the Nation, the Dons have swept through their last 21 games without defeat, completing regular season play with 23 victories and only one loss; and

WHEREAS, In winning the championship of their own conference, the California Basketball Association, the Dons became the first team to do so without defeat; and

WHEREAS, Earlier this season they demonstrated their superiority in the East, as well as the West, by winning handily the All-College Tournament held in Oklahoma City; and

WHEREAS, Outstanding teamwork and aggressiveness enabled the Dons to lead all other teams in the Nation on defense, their opponents averaging only 50 points per game; and

WHEREAS, Unbelievable as it may seem, this fine team accomplished all of these things without a gymnasium of their own, a tribute not only to their ability but also to their courage in overcoming almost insurmountable obstacles; now, therefore, be it

*Resolved by the Senate of the State of California*, That the Members of the Senate take this means to extend to the University of San Francisco basketball team and its fine coach, Phil Woolpert, heartiest congratulations on an outstanding season and to wish them the utmost success in the N. C. A. A. Tournament in which they are soon to participate; and, be it further

*Resolved*, That the Secretary of the Senate is hereby directed to transmit suitably prepared copies of this resolution to each member of the University of San Francisco basketball team and to its coach, Phil Woolpert.

Relative to the home and gardens of Luther Burbank

WHEREAS, Today, March 7th, is Arbor Day, so named in honor of the birth of Luther Burbank on March 7, 1849; and

WHEREAS, The California Legislature has on many occasions called attention to the achievements of this famous plant wizard and made note of his generous gifts to society; and

WHEREAS, The lives of all humankind have been enriched and made happier by the devoted efforts which this great citizen of California consecrated to his chosen profession; and

WHEREAS, The specific accomplishments of Luther Burbank, including the perfection of the seedless grapefruit, seedless raisin, the Shasta daisy and thousands of other benefits to our daily living, have been so often mentioned as to make it unnecessary to attempt to record them here; and

WHEREAS, So universal was the admiration and respect of this distinguished scientist that he attracted to himself the friendship and affection of such noted producers and inventors as Henry Ford, Harvey Firestone, and Thomas Edison, and secured for himself the lifelong affection of such local patriots as the beloved Herbert Slater who held the all-time record for tenure in the California Legislature; and

WHEREAS, The home and the gardens of Luther Burbank, which are now in custody of the Santa Rosa Junior College, present an opportunity for the preservation of a shrine for the use and inspiration of the historian, the farmer, the fruit grower, and the florist; and

WHEREAS, Neither the institution now in custody of this property, nor Mrs. Elizabeth Burbank, widow of Luther Burbank, are in position to maintain it in perpetuity, and would be glad to convey it to the State; now, therefore, be it

*Resolved by the Senate of the State of California*, That it is the seasoned opinion of this body that some appropriate state agency should take over the ownership, care and preservation of this rare heritage so that its historical, sentimental and scientific value shall not be lost to society; and be it further

*Resolved*, That the Secretary of the Senate be requested to transmit copies of this resolution to Mrs. Elizabeth Burbank, the Santa Rosa City Council, the Santa Rosa Chamber of Commerce, the State Division of Beaches and Parks, and the Burbank Gardens Committee.

This provision does not prevent the commission from granting to carriers by water such differentials in rates as are permitted under other provisions of law.

SEC. 6. Section 727 of said code is amended to read:

727. It is the policy of the State that the use of all waterways, ports, and harbors of this State shall be encouraged, and to that end the commission is directed in the establishment of rates for water carriers applying to business moving between points within this State to fix those rates at such a differential under the rates of competing land carriers that the water carriers shall be able fairly to compete for such business. In fixing the rates there shall be taken into consideration quality and regularity of service and class and speed of vessels. "Competing land carriers" includes all land carriers as defined in this part, [and] includes a highway contract carrier [and a radial highway common carrier] as defined in the Highway *Contract Carriers' Act*, and a household goods carrier as defined in the *Household Goods Carriers' Act*.

## COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

SENATE, CALIFORNIA LEGISLATURE  
SENATE CHAMBER, March 8, 1955

## SECRETARY'S REPORT ON CONDITION OF FILE

*Hon. Harold J. Powers*  
*President of the Senate*  
*Sacramento, California*

DEAR MR. PRESIDENT: This is the twenty-eighth calendar day. There have been 5,971 measures presented this session of which 75 have been enacted, leaving 5,896 before us, in addition to which other measures will be added.

The constitution limits us to 120 calendar days. Thus, we have 92 days in which to dispose of 5,896 measures.

Comparing the condition of the file upon the conclusion of business yesterday, the twenty-seventh calendar day with that of the twenty-seventh calendar day of 1953, we find that at conclusion of yesterday's business, we had received from committee 207 bills, whereas on the twenty-seventh calendar day of 1953 we had received 369 bills; also on the twenty-seventh calendar day of this session, we have given second reading to 83 bills, whereas in 1953, we had given second reading to 223 bills. On the twenty-seventh calendar day of this session, we had passed and sent to the Assembly 160 Senate bills, whereas in 1953 we had passed and sent to the Assembly 253 bills.

In 1953, we passed 2,331 bills. If we are to pass the same number in 1955 that we did in 1953, which is a reasonable assumption, and if we do not meet on Saturdays and Sundays, we will have to make final disposition of an average of 24 bills per day in order to complete the work undertaken by June 8th, the 120th calendar day of this session.

Respectfully submitted,

J. A. BEEK  
Secretary of the Senate

## RESOLUTIONS

The following resolution was offered:

By Senator Richards:

### Senate Resolution No. 80

Relative to congratulating the City of Lakewood on the occurrence of its first birthday

WHEREAS, One year ago the citizens of Lakewood went to the polls and voted to make the area in which they resided a full fledged city; and

WHEREAS, While most cities start small and grow gradually, Lakewood came into being with a population of 71,316 as the 15th largest of California's 316 cities, a population larger than that of such established cities as Santa Barbara, Riverside or Santa Ana; and

WHEREAS, No other city in the history of the United States had, at the time of its incorporation, a population as large as the population of Lakewood on the occasion of its incorporation; and

WHEREAS, Since the Lakewood area established a national record for percentage of population increase in the past five years it is confidently anticipated that the city will rapidly grow bigger and better in all respects; and

WHEREAS, The citizens of Lakewood, through their conscientious and able Mayor Angelo M. Iacoboni and other officials, have developed a system of operation so unusual as to make it unique among American cities, in that all city services are secured through contract with the county or with private contractors, and such system has enabled the city to reduce taxes, increase municipal services, purchase four parks, install traffic signals and make numerous other improvements and at the same time maintain a pay roll of less than 10 persons and accumulate an unappropriated reserve of nearly a quarter of a million dollars; and

WHEREAS, It is fitting and proper that the Senate on this day take note of such outstanding achievements of the City of Lakewood and its mayor, officials and citizens; now, therefore, be it

*Resolved by the Senate of the State of California, That the City of Lakewood, its Mayor Angelo M. Iacoboni, and its enterprising citizens be, and they hereby are, congratulated upon this first anniversary of the formation of the city and complimented upon their notable achievements; and be it further*

**Assembly Joint Resolution No. 22**

Memorializing the Legislature of the State of California to take immediate action to forestall a collapse of existing reciprocity arrangements on the registration of commercial motor vehicles with the State of Nevada, and to create machinery for adjusting the problem

WHEREAS, The legislature of the State of Nevada has been advised that the State of California will soon require the registration of all Nevada domiciled commercial motor vehicles entering the State of California; and

WHEREAS, Reciprocity on commercial motor vehicle registration has existed for many years between the two states; and

WHEREAS, The economy of the two states is so integrated that a breakdown of this friendly arrangement would cause great hardship to business and industry in both states; and

WHEREAS, The bulk of the commercial motor vehicles engaged in interstate commerce between Nevada and California are domiciled in California; and

WHEREAS, A similar requirement in Nevada would result in great hardship on the California carrier industry; and

WHEREAS, Efforts to resolve this problem should be made at the legislative level in the two states; now, therefore, be it

*Resolved by the Assembly and Senate of the State of Nevada, jointly,* That the legislature of the State of California be memorialized to take immediate action to forestall a collapse of existing reciprocity arrangements with the State of Nevada; and be it further

**MOTION TO PRINT OPINION OF THE LEGISLATIVE COUNSEL**

Senator John F. McCarthy moved that the following opinion of the Legislative Counsel regarding Senate Bill No. 722 be printed in the Journal.

Motion carried.

**OPINION OF LEGISLATIVE COUNSEL**

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL  
SACRAMENTO, CALIFORNIA, March 10, 1955

*Hon. Frank B. Durkee*

*Director of Public Works*

*1120 N Street, Sacramento 14, California*

*Investment of State Funds—No. 7906*

DEAR MR. DURKEE:

*Question*

You have asked whether Senate Bill No. 722, as proposed to be amended by amendments submitted by you, would be constitutional with respect to a loan of money from the State School Land Fund.

*Opinion*

In our opinion the bill, as amended, would be constitutional in this respect.

*Analysis*

Senate Bill No. 722, as proposed to be amended by amendments submitted by you, would authorize the Director of Finance and the California Toll Bridge Authority to enter into an agreement whereby the Director of Finance may invest not to exceed \$6,000,000 from the State

School Land Fund, or from any other special fund or funds in the State Treasury from which the Director of Finance is authorized to make investments, for the construction and improvement of the lower level of the Richmond-San Rafael Bridge and approaches thereto. Provision is made in the bill, as amended, for the repayment of the money invested with interest from the first bonds issued secured by the revenues of said bridge, or if no bonds are issued, from the tolls and revenues of said bridge.

The State School Land Fund, which is provided for by Section 4 of Article IX of the California Constitution, consisting of proceeds of specified lands and estates, is required by said constitutional provision to be and remain a perpetual fund the interest of which, together with all the rents of the unsold lands (which are paid into said fund), and such other means as the Legislature may provide, is inviolably appropriated to the support of common schools throughout the State.

Sections 13471 and 13472 of the Government Code authorize the Director of Finance, when there is \$10,000 or more in the State School Land Fund, to invest such sums in bonds of this State, of the United States, or of any county, permanent road district, city, school district, metropolitan water district, municipal utility district, or irrigation district of this State. We can see no constitutional objection to a further legislative extension of the type of investments which may be made of money in the State School Land Fund and therefore believe that Senate Bill No. 722, as proposed to be amended, would be held constitutional with respect to the authorization of investment of money in the State School Land Fund for the purpose described in said bill.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel  
By RAY H. WHITAKER, Deputy

Two copies to Hon. John F. McCarthy pursuant to Joint Rule 34.

217. Exemptions in effect January 1, 1955. Any vehicle described in Section 215 or 216 which on January 1, 1955, was considered exempt from registration and the payment of fees imposed by this Vehicle Code or by the Vehicle License Fee Law in this State, shall be considered to be so exempted until January 1, 1956, irrespective of any determination made after January 1, 1955, that any such vehicle was not so exempted under the provisions of Section 215 or 216.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

To avoid disruption in the interstate movement of vehicles and of trade, and to prevent needless confusion as to the registration and fee requirements both in this State and in other states, it is therefore necessary that this act take effect immediately."

SENATE, CALIFORNIA LEGISLATURE  
March 14, 1955

#### *Secretary's Report on Condition of the File*

Hon. Harold J. Powers  
President of the Senate

DEAR MR. PRESIDENT: This is the thirty-fourth calendar day. Upon the conclusion of business on the thirty-third calendar day of the 1953 Session, we had received from committee 466 bills, had given second reading to 323, and had passed and sent to the Governor or Secretary of State 77. This year, we have received from committee 323 bills and given second reading to 165. We have passed and sent to the Governor or Secretary of State 100 measures, so in that respect we are 23 ahead of our position two years ago.

There remain before us 5,871 measures. Assuming that we will pass the same number this session as we did last session, we will have to dispose of an average of 27 measures per calendar day, if we omit Saturdays and Sundays, in order to complete our business on the eighth of June, the 120th day of the session.

Respectfully submitted,

J. A. BEEK, Secretary of the Senate

God bless you all.

CHAPTER 16. AGREEMENTS FOR SOCIAL SECURITY COVERAGE OF CERTIFICATED

14820. As used in this chapter:

(a) "District" means school district of very kind or class.

(b) "Governing Board" means board of school trustees, and city, and city and county board of education.

(c) "Retirement System" includes the State Teachers' Retirement System and all local and district retirement systems.

(d) "Employee" includes both certificated and noncertificated employees.

(f) Each district and coverage group defined herein shall be deemed to be under a separate retirement system with respect to all other districts and coverage groups having positions covered by the same or any retirement system.

14821. The Director of Finance shall, upon application by any district, in accordance with the provisions of this chapter, execute on behalf of the State an agreement or modifications of such agreement, with the Secretary of Health, Education and Welfare, or successor in function, for the coverage of employees of such district, under the insurance system established by Title 2 of the Social Security Act in conformity with the provisions of Section 218 thereof as amended, and applicable federal regulations adopted pursuant thereto; provided, however, that before the director shall execute on behalf of the State an agreement or modifications of such agreement with the Secretary of Health, Education and Welfare, or successor in function, the district and the director shall enter into a written agreement, which shall include such provisions, not inconsistent with this part, which the director deems necessary in the administration of the said insurance system as it affects the State and the district and its employees.

14823. The agreement between the director and the Secretary of Health, Education and Welfare or successor in function shall include each coverage group as to which formal request for such inclusion is made by the governing board of the employing district pursuant to this section, prior to the effective date of the agreement, or any modification thereof.

14824. The governing board of any district having employees under no retirement system may make formal application to the director for inclusion of such employees of such district in the said agreement or any modification thereof.

14825. With respect to the employees of any district or coverage group as defined in this chapter, the Governor shall authorize a referendum upon request of the governing board of such district; and the referendum shall be conducted, and the Governor shall designate an agency or individual to supervise its conduct, in accordance with the requirements of Section 218 (d) (3) of the Social Security Act, on the question of whether service in positions covered by a retirement system should be excluded from, or included under, an agreement under this chapter and the Social Security Act. The notice of referendum required by Section 218 (d) (3) (C) of the Social Security Act to be given to employees shall contain or shall be accompanied by a statement, in such form and such detail as the agency or individual designated to supervise the referendum shall deem necessary and sufficient to inform the employees of the rights which will accrue to them and their dependents and survivors, and the liabilities to which they will be subject, if their services are included under an agreement under the Social Security Act.

14826. Upon receiving evidence satisfactory to him that with respect to any referendum conducted as specified in Section 14825, the conditions specified in Section 218 (d) (3) of the Social Security Act have been met, the Governor shall so certify to the Secretary of Health, Education and Welfare or successor in function.

14827. The director in concluding said agreement, as provided in Section 14821 hereof, or any modification of said agreement, may, if said agreement or modification thereof is executed prior to January 1, 1958, provide therein that it shall be effective with respect to services and employment performed after December 31, 1954, or after a later date specified in such agreement or modification thereof.

Such regulations shall include procedures to determine the extent of coverage within

14833. Notwithstanding any other provision of law, the director may authorize the payment of all costs incurred by the State in administering the provisions of this chapter from any appropriation available for the support of any state agency, state office, county or district which may be designated by the director to assist in the administration of the provisions of this chapter. 14836. The said School District Old Age and Survivors Insurance Revolving Fund shall be used by the director, or by any state, county or district agency the director may designate, for the following purposes and for any other purposes necessary to carry out the provisions of this chapter:

(1) To reimburse any appropriation available for the support of any state office or other agency, state or local, designated by the director to assist in the administration of the provisions of this chapter for any payments made in accordance with Section 14833 of this code.

(2) To advance on behalf of any district or districts any part or all of the contributions required to be paid by them pursuant to Sections 14828, 14829 and 14832 of this code.

(3) To advance on behalf of any district or districts any sums of money the State may be obligated to pay or forfeit to the Federal Government from and after the effective date of this chapter, by reason of any default or delinquency of any such district or districts in paying the contributions, penalties or interest required by the Internal Revenue Code and Federal regulations adopted pursuant thereto, as well as pursuant to the said agreement between the director and the Secretary of Health, Education and Welfare, or successor in function.

(4) To make refunds to any district or districts of contributions, penalties, interest, reimbursements, or other amounts received from any such district or districts as overpayments or paid by them in error.

14837. Any district on whose behalf the director has made any advance of moneys as provided in Section 14833 of this code shall, upon receipt of written demand from the director, reimburse the State in the amount of any advances.

14838. All contributions, penalties, interest and reimbursements received by the State from any district or districts pursuant to this chapter shall be deposited in said School District Old Age and Survivors Insurance Revolving Fund.

14839. All employer and employee contributions, penalties, interest, and the districts' proportionate share of the cost to the State for administering said insurance system, as required of the districts to be paid by this chapter, shall be deposited in the said revolving fund, and the director, or any state, county or district agency authorized by him, may make all payments from the said revolving fund which the State may be required to pay to the Federal Government pursuant to the said agreement between the director and the Secretary of Health, Education and Welfare.

14840. Every district and coverage group, upon receipt of a written request from the director, or from such other state, county or district agency which he has designated to assist in the administration of the provisions of this chapter, shall submit all wage, contribution, and other reports required to fulfill the obligations of the State under the insurance system established by Title 2 of the Social Security Act. In the event of a failure or refusal to submit such report requested, the director and such designated agency, or either of them, may audit the books and records of such district or coverage group; and the cost of such audit shall be assessed against such district or group.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Sweeping changes have been made in the Social Security Act during 1954, providing, among other matters, that school districts and their employees, although already under retirement systems, may now be covered by the Old Age and Survivors Insurance program of the Federal Government, as well. Such districts cannot be so covered unless and until the Education Code of this State is changed as herein provided, to conform with such changes in federal law. These enactments are necessary to allow such districts to come under such federal program without making their participation retroactive, with all of the attending confusion which would ensue therefrom. Great hardship will result to individuals employed by districts under retirement systems if their contributions to the insurance program herein created are deducted retroactively over a period of several months, instead of currently, which immediate enactment and effect would provide."

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Governmental Efficiency.

SEC. 5. Nothing herein contained shall terminate, diminish or impair any existing right in or pertaining to land, title to which had been registered under said act, or any existing right to resort to any fund created thereunder, but any such right may be asserted and enforced in the same manner, to the same extent, and subject to the same limitations provided in said act.

SEC. 6. This repeal of said act is made under authority of law, including the act to amend said act by adding thereto Section 116, adopted by the First Extraordinary Session of 1954, Chapter 58, and approved by the electors on November 2, 1954.

SEC. 7. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety, within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

To save the taxpayers of this State hundreds of thousands of dollars by making the repeal of said act effective on or before July 1, 1955, at which time budget and personnel requirements are fixed by the various county offices for the fiscal year.

The Land Title Law provides for a system of registration of land titles which has proved to be unsatisfactory, cumbersome and a costly expense to the general taxpayer. The "Assurance Fund" established by the act has been insolvent for years and serves only as a trap to the unwary. The matter of land titles is of extreme importance to the people of this State and particularly when the State is experiencing a great influx of population, the security in dealing with title to land is of paramount concern. The existence of a dual system of evidencing title to land is confusing and the Land Title Law needs to be correlated into the recording system to insure efficient and economical operation of our recording laws."

An application filed pursuant to this section with respect to fees due and payable on or before the next following fourth day of February may be filed with the department on or after November 1st. (c) Mileage proportions for such interstate fleets not operated in this State during the preceding year shall be determined by the department upon verified application on forms to be supplied by the department, upon request, which will show the operations of the preceding year in other jurisdictions and the estimated operation in this State. If no operations were conducted the previous year a full statement of the proposed method of operation shall accompany said application.

(d) Any penalties for delinquency in payment of fees under Section 378 of this code and Section 10854 of the Revenue and Taxation Code shall be computed with respect to the fees required to be paid pursuant to this section if the fleet operator elects to pay fees pursuant to this section.

#### INTRODUCTION, FIRST READING, AND REFERENCE OF SENATE BILLS

The following resolution was introduced, and read:

**Senate Concurrent Resolution No. 44:** By Senator Grunsky—Relative to the creation of the Joint Interim Committee on Laws Relating to Employment of Women.

Referred to Committee on Rules.

#### LETTER OF TRANSMITTAL

THE SENATE, SACRAMENTO, March 14, 1955

*Hon. Harold J. Powers, President  
and Members of the Senate*

GENTLEMEN: Pursuant to Senate Resolution No. 178 of the 1953 General Session, your Interim Committee on Subdivision Development and Planning transmits herewith its report on its activities and conclusions.

Your committee was instructed to ascertain, study, and analyze all facts relating to subdivision development and planning, the regulation thereof and the enforcement of all laws relating thereto. In the past 10 years California has experienced

the greatest subdivision activity in history. This year it is estimated that more than 200,000 new homes will be built in California, the vast majority of which will be on newly divided lots. The value of new subdivisions processed by the Division of Real Estate approximates forty million dollars each week, or almost two billion dollars a year.

This unparalleled subdivision development in our State is a vital force in our tremendous era of growth and expansion. In 1900 California had a population of less than 1,500,000; today it has over 12,000,000. More than 19 percent of the Nation's recent growth in population has occurred in California. Our subdivision industry has had to meet this challenge: to provide homes for the greatest voluntary mass migration in our history. To take care of this influx, California has been building approximately 20 percent of all the new homes in the United States in recent years.

The postwar years have brought a great change in the nature of subdivision development. Prior to this time subdivision meant land subdivision and had reference to the sale of vacant lots. But now for some time tracts have been and are being developed by large scale builders with homes ready for sale. The land developers of the past to a large extent have emerged as the home builders of the present with their mass-produced homes.

Subdivision activity with its attendant home building has a tremendous effect on our economy. It is one of the vital and fundamental indices of business activity. Its impact on the business conditions of our State is felt far beyond the yearly two billion dollar value of such development because of the countless number of products required from industry in general for each new home and the resultant nourishment of employment in fields other than building.

This tremendous expansion in subdivision development has naturally created many problems. Your committee felt that no one would be better able to solve these problems than the people who have to face them every day in their business or public activity; that if any changes were to be made in the laws relating to subdivisions, people who had to live under these laws in their daily operations should have a part in such changes. Therefore, your committee called upon all organizations having any interest whatsoever in subdivision development to nominate representatives to an advisory committee which was thereafter created. The advisory committee was not exclusive, but welcomed the nominees of all organizations who were at all concerned with subdivision development and planning.

This advisory committee has at present 84 members representing every segment and interest in the subdivision field. This committee is a working committee, not merely advisory. It divided itself into nine subcommittees and immediately went to work in order to analyze the nature and extent of the problems and then consider possible solutions. Never before in the history of land development and building in our State have so many outstanding leaders from every segment of the industry gathered together to study and solve the problems relating to subdivision. The entire advisory committee held meetings totaling seven full days, while in addition the various subcommittees held numerous meetings in the North and South. The high percentage of attendance of the advisory committee members at our meetings was amazing in light of the voluntary nature of their service and the personal expenditures incurred. For example: at our meeting in Sacramento on February 9th and 10th, 1954, nearly 90 percent of the entire advisory committee attended this two-day working session.

Your committee invites your special attention to the outstanding work of these public-spirited citizens from every part of California. Taking time from their own private businesses or their activities in other public bodies, these advisory committee members gave freely of their effort, talent and vast experience to study, analyze and suggest possible solutions to the many subdivision problems. The committee wishes to pay tribute to these men and to express its appreciation for their service and devotion to the public good.

Your careful consideration is respectfully directed to the excellent and noteworthy report submitted to your committee by the chairman of the advisory committee, Harrison R. Baker, and to the excellent reports submitted by the nine subcommittees.

As a result of the intense study, discussion and deliberations of the nine subcommittees and the entire advisory committee, your committee has formulated its conclusions and recommendations and has classified them into three categories: legislative, administrative, and educational.

The recommended legislative changes relating to subdivision laws have been drafted into bills and are at present before the Legislature for its consideration.

The recommendations as to improvements, standardization, and coordination in administrative procedure in the handling, processing and control of subdivisions at the various levels of government should be encouraged and put into effect, thereby eliminating costly delays, confusion and overlapping jurisdictions.

In the pursuance of an educational program, the preparation of a manual of subdivision procedure designed to improve practices and aid all concerned with the processing and control of subdivisions in our State should be undertaken.

Respectfully submitted,

ARTHUR H. BREED, Chairman  
LUTHER E. GIBSON

Letter of transmittal ordered printed in the Journal, and report ordered printed in the Appendix to the Journal.

**PARTIAL REPORT OF THE SENATE FACT-FINDING  
COMMITTEE ON UN-AMERICAN ACTIVITIES**

**WESTMINSTER SCHOOL IMPROVEMENT ASSOCIATION**

**INTRODUCTION**

The committee's attention was first directed to alleged subversive elements in the City of Westminster, California, when certain school officials contacted representatives of the committee in Sacramento, expressing suspicion that subversive influences were interfering with the educational system. This was during the latter part of 1953. Thereafter, the committee addressed a letter to some of the complainants informing them that " \* \* \* If investigation discloses that the activity is of a local political character, we would be without jurisdiction. If, on the other hand, some subversive elements are discovered, we will take such action as the facts may warrant."

Accordingly, the committee was sent various newspaper clippings and other documentary material indicating that there was some basis for the suspicion and that further investigation should be made.

On April 24, 1954, additional detailed data was received—followed by documents which indicated that the charges and countercharges in Westminster and the adjacent vicinity had grown to such proportions that there was a real necessity to settle the matter, if possible. Aside from the matter of running the suspicions and rumors to the ground and determining whether or not they were based on fact, there now appeared to be such an atmosphere of confusion, suspicion and community tension in the City of Westminster that the committee was urged by several of its citizens to provide a forum whereby the matter could be thoroughly aired and settled once and for all. Certainly, by mid-April, 1954, the situation in Westminster was such that the school system was unquestionably affected.

Prime mover in the effort to uncover these alleged subversive influences in the schools was Mr. Lloyd W. Thomas, editor of a weekly paper, *The Westminster Herald*. His interest as a newspaper man was first aroused when the local school board fired one of its principals for indecent conduct. A petition by citizens prompted the board to investigate the conduct of its employee in the first instance, and in March, 1953, it held a hearing, received evidence and made the order which terminated his services. The individual thus discharged was supported and defended by persons suspected by Mr. Thomas of being subversive. After the case had terminated, this little group attacked the school board and sought to have them defeated at the election held in May, 1953. Unsuccessful in this attempt, they then formed an organization known as *The Tri-City Advisory Committee* (comprising the cities of Westminster, Midwest City and Barber City) with a membership of eleven persons.

In January, 1954, Mr. Thomas got word that another organization, known as *The School Improvement Association*, had been launched. When he discovered that a meeting was to be held at the home of a Mr. Lyle Richards, he decided to attend and find out for himself what

the movement was about and what the organization intended to accomplish. Not being accorded a very warm reception and feeling that he was being sidetracked, Thomas realized that apparently the new organization was not anxious to get any publicity in his paper. This served only to whet his curiosity and convince him that the organization had something it wished to conceal from public scrutiny. Persistence is a characteristic with which Mr. Thomas is abundantly endowed. Furthermore, it is almost an axiom that if one wants to arouse the zeal and curiosity of a newspaper man, the surest means is to convince him that he is being sidetracked from a newsworthy target.

As he delved deeper into the new organization, Thomas became interested in its dominant members. One of them had taken some part in the matter involving the discharged school principal, had played a part in the school board election, and appeared to be one of the principal figures in the newly-formed School Improvement Association. This was Mr. Albin Czerniawski.

Thomas looked up Czerniawski's background and discovered that he had been a member of the *Independent Progressive Party* in California. This prompted him to make inquiries of Czerniawski's friends, neighbors, business associates, and his colleagues in the *School Improvement Association*. Czerniawski, when he first learned that Thomas was engaged in probing into his past, became resentful and soon the affair had developed to a point where the supporters of Thomas, on the one hand, and the supporters of Czerniawski, on the other, gave rise to an almost unbelievable atmosphere of suspicion and hostility.

This was not abated when Mr. Thomas, in the issue of his paper for May 21, 1954, printed a photostatic reproduction of Czerniawski's registration in the *Independent Progressive Party*, together with a quotation from the fourth report of this committee to the effect that the *Independent Progressive Party* in this State was Communist dominated. In that connection it should be noted that Mr. Hugh Bryson, former state head of the *Independent Progressive Party*, was recently charged with having lied when he stated under oath that he was not a Communist, and ordered to stand trial for perjury.

The article from the *Westminster Herald* is as follows:

#### "BARE AFFILIATION OF IMPROVEMENT MAN

##### "Threats, Dares and Punch to Editor Leads to Disclosure

"A slip backwards towards violence and secrecy took place last week at Paysen's Sundries where Albin Czerniawski came into the business place and caused a public disturbance, threatening the *Herald* editor with murder if the *Westminster Herald* continued to look into past possible activities of Czerniawski.

"With the death threat, Czerniawski without warning landed a blow to the jaw of the *Herald* editor. Printed alongside this article is a voter's affidavit of registration by Czerniawski into the *Independent Progressive Party*.

"The *Herald* takes the dare this week to print some inside information about this improvement association official who for some reason will provoke violence if an inquiry is made about him. Mr. Czerniawski opened himself to inquiry when he took an active part

in the school affairs of this community; when he told the improvement association that 'we have got to meet secretly or the opposition will disrupt our meeting'; when he warned a free American newspaper of the results if there was any further investigating. Does that warning apply also to any other citizens of the community who dare question this man in the improvement association? Czerniawski holds position of assistant membership chairman of the improvement association.

"We are printing this above editor's note and the following data on the Independent Progressive Party, of which Czerniawski was a member as we would if we found strange affiliations with any public official.

"We believe that the schoolroom is a sensitive area wherein the minds are shaped toward the society in which we live. There is vital concern here, for we must preserve the integrity of the schools.

"The teachers and the officials maintain this integrity and the fact that they are entrusted with this duty gives a very proper right of inquiry into the organizations and persons with whom they associate.

"Likewise, citizenry who organize to 'advise' our schools, no doubt existing pressure here and there, should also submit to inquiry as to associations of its members. From time immemorial, one's reputation has been determined in part by the company he keeps.

"Many good Americans have lost sight of vitally important questions in today's election. This has been brought about in agitations that have in all too many cases greatly confused persons unwary of deceit, either knowingly or unknowingly.

"We do not know what the present political affiliations of this person are. We are not making any insinuations that he is of any particular belief but only presenting evidence and presenting comments of the State Committee on Un-American Activities in reference to the *Independent Progressive Party*. A. Czerniawski registered in 1948 into the Independent Progressive Party and following is the report of that committee on the IPP.

"The Un-American Activities Committee made the following statement of fact concerning un-American organizations including the *Independent Progressive Party*. This data is taken from the Fourth Report of the Un-American Activities in California, page 62.

" 'Communists have no more use for parliamentary government than they have for capitalism. They seek to destroy both. The one basic goal of Communism is to eliminate capitalism and its parliamentary government, and replace them with a brutal, totalitarian police state under the dictatorship of the proletariat.

" 'Wherever Red Fascism has snuffed out liberty and freedom, the first things to go were civil rights, capitalism and parliamentary government. Just as the Communists in America sneeringly and cynically take advantage of our freedoms and liberties, so do they pervert and corrupt our political and legislative process wherever possible.

“ ‘The committee (on Un-American Activities in California) has discovered and reported repeatedly, that the Communists work incessantly to pervert and destroy every institution that does not fit into their pattern of revolutionary conspiracy. Nowhere has this Communist strategy been pursued more consistently and relentlessly than in the fields of politics and legislation.

“ ‘The most recent consolidation of this Communist program of legislative and political activity through front organizations, has been the recent coalition of a series of Communist front organizations under the banner of the Third Party Movement to elect Henry Wallace President of the United States.

“ ‘In California, the basic Communist front organizations in this coalition are the Progressive Citizens of America, Independent Progressive Party, California Legislative Conference, Communist-controlled Trade Unions in the C. I. O., the “Wallace Democrats” Caucus in the Democratic Party, Progressive A. F. of L. and a student movement for Wallace, sponsored by American Youth for Democracy.

“ ‘Behind a facade of specious promises of “peace, progress and prosperity,” the Third Party movement has proceeded with mechanical precision, following every twist and turn of the Communist Party line on foreign affairs and domestic issues.

“ ‘It has conducted its activities in such a manner as to stamp itself as an American tool of the international Communist conspiracy. Its policies, tactics and appeals fit the specifications for every type of Communist front organization described and classified in the entire report of this committee, and it follows the party “line” meticulously.

“ ‘The Third Party movement to elect Henry Wallace is the creature of the Communist Party. Its policies, programs, organization, structure, public relations, personnel and directing leadership have all followed and now follow the Communist Party pattern with unbroken monotony. Its key personnel are known Communists, fellow-travelers and veteran apologists for Soviet Russia and American Communism.

“ ‘Hugh Bryson, state chairman of the Independent Progressive Party in California, is a Communist and a veteran of Communist conspiratorial activity in the Marine Cooks and Stewards Union, C. I. O.’ ”

Elsewhere in the same issue of the newspaper, this item appeared:

“ ‘An altercation last week between Albin Czerniawski and L. W. Thomas, *Herald* editor, has called for a clarification of the affair.

“ ‘Czerniawski came upon the *Herald* editor in Paysan’s Sundries, voiced his objections of the *Herald* investigating his past. Czerniawski, who is proprietor of the A-C Hardware, told the newsman that he felt mad enough to kill him and without warning landed a blow to the publisher’s jaw. Czerniawski then stepped back and threatened to kill the editor if the investigation was continued.

“ ‘The *Herald*, this week, is printing on page 3 a certain amount of information relative to subversive organizations. Also a photostatic copy of a document signed by Czerniawski.

"Even though there are some papers which consider it bad taste to mention the word Communist Party, we are carrying on page 3 of this issue comments of a state senatorial committee.

"Mr. Czerniawski's murder threat to the *Herald* editor is added reason to shed a little light on the subject in order to prove the integrity of the paper which Czerniawski may have placed in question.

"This paper has its choice of either knuckling down under this influential Improvement Association member, or take the challenge. The *Westminster Herald* does not compromise with threats.

"This paper has before been under attack for its freedom of the press by Czerniawski and his improvement association, who have attempted to stifle the press in such manner as to try to bring suit, force arrest of reporters for so-called covering 'public' meetings and has tried to confiscate film and records, without success.

"Czerniawski is assistant membership chairman of the School Improvement Association according to the West Orange County News and his membership headquarters is in his store."

Photostatic document reprinted in the *Westminster Herald*, which also carried the articles above quoted, was executed in Orange County on September 13, 1948, signed by Albin Czerniawski, 14151 Locust Street, Westminster, and was numbered 278328. He switched his political affiliation to the Democratic Party on September 7, 1950. As will be seen, there was some confusion concerning the exact language exchanged between the two men in the Westminster pharmacy immediately preceding the event described by Mr. Thomas. There is no question about his being struck in the face by Czerniawski, but here, too, the record becomes somewhat cloudy; Thomas describes the blow as "a punch in the jaw," and Czerniawski as "a slap in the face."

These matters are mentioned and the articles are cited to indicate the feeling that existed between the two principals. As local partisans took sides, the feeling naturally increased and since the population of Westminster is only about 1500, the newspaper publicity and the close personal contact between the inhabitants in this community resulted in a situation whereby almost everyone had become interested in the matter in one way or another by the time our public hearing opened on July 28, 1954.

The committee had been requested to hold an open hearing in April or May, but discovered that a local school board election had been set for May 21st. and, therefore, refused to hold any hearing or issue any statement until after the election had been held. We quote liberally from the transcript of the public hearing, together with documents submitted by the respective parties, in the hope that the situation will thereby be settled and the local tensions relaxed.

### **PUBLIC HEARING, LOS ANGELES, CALIFORNIA JULY 28, 1954**

Several days prior to the beginning of the committee's inquiry into the Westminster matter, it had been listening to witnesses in a public hearing held in Room 115, California State Building, Los Angeles, California. At the conclusion of the other matters on the committee's

program, it concluded by taking testimony from the witnesses from Westminster, and in that connection the following introductory statement was made.

"Mr. Combs: The next matter on the agenda, Mr. Chairman, is the Westminster matter, which is in an entirely separate category from the evidence which has been adduced before the committee up to this point. There were two or three witnesses that we expected to be here yesterday, but who were unable to attend, one by reason of illness and two by reason of the fact that they were not in the city. This last phase of the hearing will deal solely with the Westminster situation. As the chairman is aware, the committee began three or four or five months ago to receive letters and telephone calls from people residing in the Westminster area, charging that there were subversive influences that were having an adverse effect on the educational system and on the general community atmosphere in the Westminster area and immediate vicinity. The committee intended to go into the matter at an earlier date, but discovered that there was some kind of a local election in the city of Westminster, or in the school district, I am not clear which, and followed its consistent policy of staying out of any community political matters and therefore deferred the hearing until this time so that we would not intrude in the local political matters. An election was held in May, and while this subject is a little out of context of the hearing that has been conducted up to this point—I have talked to the people that I consider to be the principal witnesses on either side and told them if they preferred to have this hearing in executive session the committee would be happy to accommodate them. They both expressed a desire to have the committee hear the entire matter in open session. I wish to make it very clear to everyone here that the committee regards this as an exploratory hearing. It has sent no investigators into the Westminster area. The committee believed it would be most helpful if the leading actors on both sides came before the committee and testified under oath, and perhaps no further action will have to be taken. The committee's only jurisdiction is in connection with the alleged subversive matters. It has no jurisdiction to go into local political matters, or in the way the schools are conducted or with regard to the personalities on the school board, unless some subversive element is involved.

"With that, Mr. Chairman, I would like to call to the stand Mr. Albin Czerniawski."

Mr. Czerniawski testified that he resided at 7181 Westminster Avenue, in Westminster, California, and had resided in that city continuously since 1947. He stated that he was born in Canada and came to the United States by way of Detroit, Michigan, in 1924, and became a naturalized American citizen in February, 1930. He had resided in Long Beach during part of 1947 at 2316 Caspian Avenue, and in 1950 had resided at 1451 Locust Street in the city of Westminster.

Regarding his affiliation in a Communist front organization known as *The International Workers Order*, Mr. Czerniawski testified as follows:

"Q. Question by Mr. Combs: Mr. Czerniawski, did you ever hear of an organization known as *The International Workers Order*?

"A. Answer: Yes, sir.

"Q. Were you ever affiliated with that organization?

"A. Yes, sir.

"Q. Or any of its branches?

"A. Yes, sir.

"Q. At what period of time?

"A. From 1936, right after the depression. I was out of work for a long time. As soon as I got back to work—during the depression I had lost all of my insurance. I didn't carry any insurance for myself or the family. Our insurance agent came to the door and solicited insurance. He told me what the rates were. It sounded very reasonable so I signed up. It was the *International Workers Order*. It was the Polish branch of the *International Workers Order*.

"Q. As a matter of fact, the *International Workers Order* is composed of what they call lodges, isn't it?

"A. That is right. It is a fraternal order.

"Q. It is composed of a group of various racial lodges?

"A. That is right.

"Q. Including of course Americans?

"A. That is right.

"Q. They have units of their organization all over the United States?

"A. That is right.

"Q. Go ahead.

"A. After I became a member I attended meetings maybe two or three times a year.

"Q. Where were the meetings held?

"A. At individual homes of the members.

"Q. At residences?

"A. At residences, that is right.

"Q. These meetings that were held at the residences were in the immediate vicinity of the area where you lived?

"A. That is right.

"Q. So that it was convenient to attend?

"A. That is right.

"Q. These people were friends of yours?

"A. No, not particularly. They were no friends of mine.

"Q. Did they become friends of yours as a result of attending the meetings?

"A. Acquaintances.

"Q. All right.

"A. I can truthfully say that at no time during any of those meetings was anything said against our Country, anything derogatory against our Country. After the second World War, our main purpose was to raise funds to help the orphans and widows in

Poland because Poland was destroyed. The biggest percent of Poland was destroyed.

“Q. Do you have any relatives presently residing in Poland?

“A. I don't know of any, but I probably have because my folks came from there. In fact, they raised funds to buy farm machinery, farm tools, horses, and so forth. In fact I donated a hundred dollars toward the purchase of a horse in this Country, to ship a work horse to Poland.

“Q. When was that?

“A. That was four or five years ago.

“Q. Four or five years ago?

“A. Right after this World War, right after the war, about 1948.

“Q. About 1948?

“A. Something like that.

“Q. All right.

“A. Now I understand that organization is nonexistent.

“Q. That is, the *International Workers Order*?

“A. That is right. It is nonexistent. The New York State Insurance Board has taken it over.

“Q. The New York State Insurance Board has taken it over?

“A. That is right. It has disbanded.

“Q. How did you gain that information, Mr. Czerniawski?

“A. Well, I was sent that information from New York. Now I pay my insurance to the State of New York.

“Q. You pay your I. W. O. insurance premiums to the State of New York?

“A. That is right.

“Q. To the Insurance Commissioner in New York?

“A. Something like that.

“Q. He is the custodian of the I. W. O. in New York?

“A. I guess that is it. I don't know too much about it.

“Q. The head office of the International Workers Order was in New York, wasn't it?

“A. Yes.

“Q. So it would have jurisdiction over all of the subordinate units of the organizations throughout the Country?

“A. I suppose it would.

“Q. You don't know that?

“A. No.

“Q. You affiliated with that organization how long ago?

“A. 1936.

“Q. Your membership actually continues until the present time?

“A. That is right, sir.

“Q. With the exception that you just pay your premiums to the New York Insurance Commissioner?

“A. That is right. He sent me a bill and I sent a check.

“Q. But you never resigned from it or anything like that?

“A. No, I haven't.

“Q. You have never been expelled?

“A. No.

“Q. Do you still attend any meetings of the organization?

“A. Never.

"Q. Do you still maintain social contacts with the persons who were members and at whose homes you attended meetings?

"A. No, sir. For that matter I haven't seen any of the members for years, several years.

"Q. So you don't know whether they still belong or whether they are in the same category as you are or not?

"A. That is right. However I could name several other organizations I belonged to also.

"Q. Let me ask a few more questions and after I have finished you can give us any organizational data you wish.

"A. Fine.

"Q. Were you affiliated from 1947 until 1952 or thereabouts with an organization known as the *American Polish Society*?

"A. No. I never heard of that organization.

"Q. You don't know anything about that at all?

"A. Not that society.

"Q. Do you know of a publication called *The Daily People's World*?

"A. I have heard of it, yes.

"Q. Did you ever subscribe to it?

"A. *The Daily People's World*—I think I did for a six-month period in 1946, I believe.

"Q. In 1946?

"A. Yes, sir.

"Q. For six months?

"A. Yes. It was a dollar. They asked for a dollar and they sent the publication for six months.

"Q. Did you subscribe to that through your contacts with the *International Workers Order*?

"A. No. Someone in the particular neighborhood came up to my place of business and asked me.

"Q. That was when you were residing where?

"A. One of my customers in Long Beach.

"Q. Did you yourself ever sell any subscriptions to the paper or persuade anyone to subscribe to it?

"A. Never.

"Q. You never did?

"A. Never.

"Q. You took it you say for six months?

"A. Yes.

"Q. Why did you cease taking it?

"A. I wasn't interested. There was nothing in it to interest me.

"Q. Did you know anything about its political character?

"A. What is that?

"Q. The political nature of the *Daily People's World*?

"A. Yes. I don't know that I can define it properly. It—

"Q. Was it an anti-Communist paper?

"A. No, I wouldn't say that.

"Q. Was it opposed to Communism?

"A. No, I wouldn't say it was opposed to Communism.

"Q. In other words, it seemed like there was nothing derogatory against our country there?

"A. No.

"Q. It was just a run-of-the-mill paper?

"A. That's the way I took it.

"Q. Did it seem to you to be fair and objective in its reporting?

"A. Well, I didn't study it enough.

"Q. You did not read it very closely?

"A. No, sir. I was busy many times it came in and it wound up in the wastebasket.

"Q. You threw it in the wastebasket?

"A. That's right.

"Q. But you did read it enough to form an opinion that it apparently was a run-of-the-mill newspaper?

"A. Well, I read the headlines in it, but that is about as far as it went.

"Q. You just read the headlines?

"A. Yes.

"Q. I think you could probably form a pretty good opinion from reading the headlines.

"A. Yes, I could.

"Q. And you did?

"A. Well, like I told you, there was nothing there that would interest me.

"Q. But you also testified I think that you found nothing derogatory in it.

"A. That's right, as much as I read.

"Q. Did you ever notice any mention in the paper of the Soviet Union or the countries behind the Iron Curtain, including Poland?

"A. I don't believe I did.

"Q. You don't believe you ever saw any mention of them?

"A. No.

"Q. Did you ever hear of a publication called *In Fact*, a magazine?

"A. Yes.

"Q. And did you ever subscribe to that?

"A. I did, sir.

"Q. Where were you living then?

"A. I lived in Westminster.

"Q. So that would be after 1947?

"A. That's right.

"Q. How did you happen to subscribe to that, Mr. Czerniawski?

"A. Some party asked me to donate a dollar to subscribe to the publication.

"Q. Do you remember who that person was?

"A. I don't believe I do.

"Q. Was it a neighbor of yours?

"A. No, it was not a neighbor. It was a party who lived, I believe, in Huntington Beach somewhere.

"Q. Someone who lived in Huntington Beach?

"A. That's right, when I joined the Progressive Party.

"Q. The *Independent Progressive Party*?

"A. The *Independent Progressive Party*. That was when they contacted me.

"Q. When did you join the Independent Progressive Party?

"A. Well, when Henry Wallace was running for President, I guess.

"Q. You were living where then?

"A. Westminster.

"Q. After you joined did somebody come to see you who was a member of the *Independent Progressive Party*?

"A. I suppose so.

"Q. And asked you to subscribe to *In Fact*?

"A. Yes, sir.

"Q. Which you did for a dollar?

"A. Yes, sir.

"Q. Who was the editor of that publication, if you know?

"A. I don't remember.

"Q. Was it a man named Seldes?

"A. That sounds familiar.

"Q. George Seldes?

"A. It sounds familiar, but I am not quite sure.

"Q. Did you read that magazine at all?

"A. Very seldom. I threw it in the wastebasket.

"Q. You threw it in the wastebasket, too?

"A. That is right. The reason I subscribed to these different ones, since I am in business I thought it would be advantageous as far as advertising is concerned, you know.

"Q. Advertising in the magazine do you mean?

"A. No. It would be good business when a customer asked me to donate or subscribe to something I generally did.

"Q. Was the person who asked you to subscribe to the *People's World* one of your customers?

"A. Yes.

"Q. The person who asked you to subscribe to *In Fact* was one of your customers?

"A. That is right.

"Q. Had you known either of them in the *International Workers Order*?

"A. No.

"Q. But the second one you believed you had some contact with through the *Independent Progressive Party*?

"A. It must have been because they got my name from the list somehow, from the registration list.

"Q. I show you a photostatic copy of a document which purports to be an affidavit of registration and ask you if that is a correct facsimile of your signature, Mr. Czerniawski?

"A. It is, sir. I have seen it before.

"Q. Of course, you signed the original, did you not?

"A. That is right.

"Q. Mr. Czerniawski, did anybody ever solicit you to become a member of the Communist Party, ask you to join at any time?

"A. No, sir. I never would join.

"Q. You never joined the Communist Party?

"A. No, and I would never have joined if they asked me.

"Q. You never did join?

"A. I never did join.

"Q. Have you ever been a member of the Communist Political Association?

"A. I should say not.

"Q. Which was another name for the Communist Party. Have you ever been a member of any Communist front organization?

"A. Not that I know of.

"Q. Not that you know of?

"A. No, sir.

"Q. Did you know that the *International Workers Order* was designated by the United States Department of Justice as a Communist front?

"A. No, sir, I didn't.

"Q. Did you know that the Insurance Commissioner in the State of New York brought a lawsuit to prevent the organization from doing business on the ground that it was a Communist front and that the courts held that it was a Communist front?

"A. That I didn't know. I was not posted on it and I was not interested. I was busy working.

"Q. Did you know that the publication *In Fact* had been characterized as a pro-Communist publication and is now no longer published?

"A. That I didn't know either.

"Q. Did you know that the *Daily People's World* is the propaganda organ for the Communist Party of California?

"A. It probably is, but I am not too well informed on that, either.

"Q. When you say 'probably,' what do you mean?

"A. Well, as you have mentioned, that it is—it probably is. I don't know.

"Q. How long did your affiliation with the *Independent Progressive Party* continue?

"A. Just for that one election.

"Q. It ceased thereafter?

"A. That's right. I am a Democrat. I always have been, and I went back to the Democratic Party, but I felt at that particular time that Wallace would have been a better man.

"Q. The only reason we asked about the *Independent Progressive Party* is that it has been characterized not as being a Communist organization, but as being dominated by Communists at the top.

"A. I see.

"Q. There is some evidence, some of it before this committee, that the head of it in California, Hugh Bryson, chairman of the Marine Cooks and Stewards Union in San Francisco, is a Communist Party member. Obviously the committee is interested in that, while it is not interested in the other political parties toward which no such accusation has been mentioned to my knowledge.

"A. That is the reason I joined the Independent Progressive Party.

"Q. Mr. Czerniawski, will you please describe the organization in Westminster if you know anything about it? By the way, do you still reside there?

"A. Yes, I do.

"Q. You are in the paint business there?

"A. I am in the hardware business.

"Q. Do you know of an organization known as the *Tri-City Advisory Committee*, are you familiar with that at all?

"A. No, sir, I am not.

"Q. You know nothing about it whatsoever?

"A. No, sir, not a thing.

"Q. Do you know anything about an organization known as the *School Improvement Association*?

"A. Yes, I do.

"Q. Would you mind describing in your own way to the committee what that is and how it started?

"A. I will give you what I know about it. I will tell you what I know about it. When the organization was formed I was asked to join. They told me what it was for. The school board at that time was going to float a big State loan.

"Q. It was interested in school matters?

"A. It was interested in school matters, that is right. They were going to float a big bond issue for new schools. We didn't need them at the present time. It would have affected our tax rates. I am a taxpayer, therefore I joined.

"Q. The organization was already in operation when you were asked to join it?

"A. That is right.

"Q. Do you know who was instrumental in starting it, or how long it had been in existence?

"A. I am not quite sure. Mr. Leonard Fry was the chairman of the organization. He asked me to join.

"Q. Is he here today?

"A. No. He had to work.

"Q. That was the *School Improvement Association*, was it?

"A. That is right.

"Q. Do you know a man by the name of Lyle Richards?

"A. Yes, sir.

"Q. Is he here today?

"A. No, sir.

"Q. Does the *School Improvement Association* still exist?

"A. Yes, sir, as far as I know it does.

"Q. Of what does its membership consist? Is it limited to the City of Westminster or is it spread over a larger area?

"A. It is limited to the Westminster School District.

"Q. Westminster is in Orange County?

"A. Yes, sir.

"Q. Where is it located with reference to the county seat?

"A. Santa Ana I understand is the county seat.

"Q. Yes.

"A. It is west of Santa Ana.

"Q. How far?

"A. About seven or eight miles.

"Q. You say the membership comprises people extending how far?

"A. The Westminster School District.

"Q. Does that include other cities in addition to Westminster?

"A. I don't believe so.

"Q. You don't believe so?

"A. No.

"Q. Did you attend meetings of this organization?

"A. You said other cities?

"Q. Yes.

"A. I don't know how you would define it. I said Westminster School District. It comprises Westminster, Barber City, Midway City and Sun Gardens, which are little county communities, but they are in the Westminster School District.

"Q. That explains it. In connection with your membership and participation in this organization, the School Improvement Association, have you been accused of being a Communist or belonging to a subversive organization?

"A. I have, sir.

"Q. When did that sort of activity originate?

"A. Well, it originated four or five years ago, but I tried to run it down. I have tried every possible way to run it down. However, I could not. It was one of these whispering campaigns.

"Q. Had you had similar experience before that time?

"A. No, sir.

"Q. While you were a member of the International Workers Order?

"A. No, sir.

"Q. Did anyone accuse you of belonging to a Communist dominated organization?

"A. No, sir. Then I went to the FBI in Santa Ana and told them that I was in business in Westminster, that I was businessman there, that there was a rumor going around, a whispering campaign, that I was a Communist.

"Q. About when did you do this?

"A. About four years ago.

"Q. All right.

"A. I told them that if I was a Communist they would know about it, and I knew I wasn't, therefore I would like to have them give me a clearance of some kind that would show I was not a Communist.

"They said, 'Mr. Czerniawski, we are not authorized to give anyone clearance. If you were a Communist it would be none of our affair. If you were able to find out who started this rumor then they would be subject to civil suit; you could take them to a civil court.' I could not get any help there, and I started asking people about it.

"Q. You could not get any help for the reasons they explained to you?

"A. That is right.

"Q. They said they were not permitted by law to issue clearance?"

"A. I don't know what the law was. I just went there.

"Q. I understand, but it was the natural thing to do.

"A. I asked the people in town where did they get the information. They all just clammed up and wouldn't tell me the start of it or what. So it went on.

"Q. What is the population of Westminster, roughly?"

"A. I believe about 1,200, somewhere around there.

"Q. Proceed.

"A. It went on for years that way until this thing came up. I have a statement here from a party which I would like to show to you, saying that I was called a Communist by a certain party (handing document to counsel).

"Mr. Combs: Let the record show that the witness has handed to the committee a hand written document consisting of one page, written in ink, dated the 26th of July, 1954.

"The Witness: This incident happened on July 10th.

"Mr. Combs: Do you wish us to read this into the record?"

"The Witness: Yes, sir.

"Mr. Combs: You do?"

"The Witness: Yes, sir.

"Mr. Combs: It reads as follows: 'To Whom it May Concern: This is to certify that on May 10, 1954 I was in Paysan's Drug Store in Westminster and heard a man call Mr. Czerniawski a Communist. Mr. Czerniawski slapped him. This fellow left and Mr. Czerniawski apologized to Mrs. Paysan. F. A. Wood, 7/26/54, 12362 Stanton Avenue, Garden Grove.'

"The Witness: Here is another one.

"Mr. Combs: Let the record show the witness handed to the committee a hand written document consisting of a folded sheet of about a page and three-quarters which contains handwriting in ink and in pencil. It is signed by Mrs. Mary Cleo Hyans of 2533 Jackson Street, Dominguez, Long Beach 10, California. It is dated May 11, 1954. Do you wish us to read this into the record also?"

"The Witness: Yes, sir.

"Mr. Combs: It reads as follows: 'To whom it May Concern: On April 30, 1954, Mr. Lloyd Thomas and Mr. Edwards called on me and led me to believe that they were from some type of law enforcement and asked me about Mr. Albin Czerniawski's political standing. Also asked me if they ever had meetings in their home or ever had company and what they talked about. Also asked me about a locksmith who came to the store to see Mr. Czerniawski. I worked for Mr. Czerniawski from 1940 to 1941, about 18 months. I want to say I never worked for anyone as nice and thoughtful as Mr. and Mrs. Czerniawski, and never knew anyone more loyal to the U. S. A. than the Czerniawski family. I never heard them ever say anything against our government at any time. Mr. Thomas also asked me about their social life here in Dominguez.'

"It is signed by Mrs. Mary Cleo Hyans, 2533 Jackson Street, Dominguez, Long Beach 10, California.

"How many more do you have?"

"The Witness: There aren't very many more, sir.

"Mr. Combs: Let the record show the witness has handed to the committee a single paged handwritten document in pencil, dated May 11, 1954, signed H. Taylor, addressed To Whom it May Concern.

"Mr. Lloyd Thomas and his partner called at our place of business and questioned us about the background of one Albin Czerniawski, as to who his friends were etc. We could not give them very much information concerning Mr. Czerniawski as we knew nothing derogatory to his character, either political or otherwise. They went through all of the motions of taking a picture of our store.'

"It is signed by H. Taylor, 2652 Monroe Street, Dominguez.

"The Witness: Here is another one.

"Mr. Combs: The witness submits a typed document dated May 13, 1954. A single sheet of paper addressed to Mr. Albin Czerniawski, Westminster, California. It reads as follows:

"Dear Mr. Czerniawski: On April 30 inst. I was contacted by two gentlemen who tried to give the impression they were some type of law officials. On asking for identification I was handed a business card with the name of Lloyd Thomas of the *Westminster Herald*.

"At this time I told them that from 1939 to 1942 you and your family had been residents of this community; conducted a general merchandise business here, and to the best of my knowledge there had been no question as to your character and loyalty.

"Both my wife and I felt that you and Mrs. Czerniawski were hard working and energetic people who were community and civic minded.

"Sincerely, (signed) Walter K. Luck, 2672 Jackson, Long Beach 10, California.'

"The Witness: Now, here is one from a local man where I live in Westminster. It is more a letter of what my character is.

"Mr. Combs: The witness has handed the committee a document consisting of a single page which he says contains a statement as to his character certification. Is that right?

"The Witness: Yes, sir.

"Mr. Combs: Do you wish me to read it into the record?

"The Witness: Yes, sir.

"Mr. Combs: It reads as follows:

"1392 Cedar Street, Westminster, California, Tuesday, July 27, 1954.

"To Whom it May Concern:

"I welcome this opportunity to make a very definite statement regarding the character and behavior of my friend and close neighbor, Albin Czerniawski.

"During the past eight years there have been but few days in which I have not met, talked, associated and done business with him. I can truthfully say that on each and every occasion he has conducted himself and his business in a clean, public

spirited manner. The fact that he registered and voted the Independent Progressive ticket in a recent election now seems to denote a subversive character by a certain newspaper publisher.

"I learned today that my friend has been called to answer a charge that he is subversive. I am happy that we live in a country where such accusations may be made and where the accused is given the privilege of answering the charges. I trust his answers will fully exonerate him of the accusation.

"Free elections (the true basis of our democracy) very correctly air the character of the candidates for election. The will of the majority should be accepted by the minority. The very fact that we have elections whereby we elect national, state, county, city—yes, even school trustees, is an acknowledgment that our present laws and officials are not perfect. Otherwise we would write the word *finis* on the last page of our law books and the officials would be elected for life terms. If the minority in some of our school elections were able to carry their defeat to their desired ends I am afraid the county would soon become engaged in countless little civil wars and rebellions.

"Walter R. Pope."

"Q. Now, Mr. Czerniawski, is that the extent of the documents you wanted to read?

"A. Except for derogatory statements in the newspapers, but they are quite lengthy."

"Q. Obviously we cannot read all these things into the record. If you wish to submit them to us we will be happy to attach them to your testimony. If you want to submit them for the record, you may do so.

"A. Yes, I will do that, too.

"Mr. Combs: Let the record show the witness has handed to the committee a folder containing newspaper tear sheets and clippings, all of which will be received and will be attached to the record in connection with the testimony of the witness.

"Q. Mr. Czerniawski, do you belong to any other organization in Westminster similar in character to this School Improvement Association?

"A. No, sir.

"Q. That is the only one you have ever been affiliated with in Westminster?

"A. No, sir, I belong to the Odd Fellows.

"Q. No, I didn't mean that. I mean similar to this citizens organization.

"A. No, sir. I belong to the *Independent Order of Foresters*—the Independent Order of Foresters.

"Q. I don't believe anybody has ever called that a front organization.

"A. I belonged to the Moose Lodge, and for several years I belonged to the St. Nipomatz Church Society.

"Q. You appreciate, Mr. Czerniawski, that there is a great difference between the organizations you have mentioned and organizations like the International Workers Order which has been characterized as a Communist organization over and over again?

"A. At the time I joined it it was not characterized as that.

"Q. When was it so characterized?

"A. I have no idea when it was. At that time it was an organization I joined for the insurance benefit. It did not have any insurance at that time. I had three little children, my wife and three little children. I thought if something happened to me that would be the best thing to do, to take out insurance, which in my estimation was very reasonable at that time and I could afford to carry it.

"I would like to also state that I have a son who was in service in World War II and in the Korean war. He received honorable discharges from both services. Now he is employed as an accountant.

"Q. I neglected to ask you in connection with your membership in the International Workers Order whether or not you received a publication of any kind, such as a paper or circular or anything from that organization?

"A. No, sir.

"Q. They published nothing to your knowledge?

"A. No, sir, not to my knowledge.

"Q. Of course the fact that the *Daily People's World* is a propaganda medium for the Communist Party of California would indicate that it had been subject to scrutiny and suspicion by a great many official agencies. Is that right?

"A. I suppose it would, but I would never subscribe to anything like that. This was the first time I was interested and I wanted to know what it was about. That is not the only paper I subscribed to. I subscribed to the *Press-Telegram*, a Long Beach paper, and I have for many years, and then the *Los Angeles Examiner*.

"Q. What about the *Westminster Herald*?

"A. I am sorry. I have not subscribed to that paper. However, I gave the *Westminster Herald* plenty of my business as far as printing goes, and I have ads in their paper.

"Mr. Combs: Unless you have something else to add, that is all. If you can think of anything else you want to testify about, you may do so.

"The Witness: I don't believe so."

#### TESTIMONY OF LLOYD W. THOMAS

Mr. Thomas was the next witness called to the stand and testified as follows:

"Question by Mr. Combs: Will you state your full name please?

"A. Lloyd W. Thomas.

"Q. Where do you reside?

"A. 8701 20th Street, Westminster.

"Q. How long have you resided at that address?

"A. Six years.

"Q. Your business is what?

"A. Newspaper publishing and printing.

"Q. What is the name of the newspaper?

"A. *Westminster Herald*.

"Q. And how long have you been publisher of that newspaper?

"A. I have been publisher with my father about two years. The paper has been in the family about nine and a half years.

"Q. Are you acquainted with the witness who preceded you, Mr. Czerniawski?

"A. Yes, sir.

"Q. How long have you known him?

"A. Since about 1947.

"Q. As a newspaper man, as a citizen, or in any other capacity for that matter, did you conduct any inquiry into the origin and nature of the School Improvement Association in Westminster?

"A. Yes, sir.

"Q. Did you endeavor to ascertain anything about the political affiliations and beliefs of Mr. Czerniawski?

"A. Yes.

"Q. How did you happen to do that?

"A. Having knowledge of his party membership, the *Independent Progressive Party*, and his affiliation with the *School Improvement Association*, I thought I should make some inquiry.

"Q. Was he then active in the organization to which I have referred, the *School Improvement Association*?

"A. Yes, sir.

"Q. He was?

"A. Yes.

"Q. Before you started this investigation did you know anything about his affiliation with the *International Workers Order*?

"A. No, sir.

"Q. Did you know anything about the fact that he had been a subscriber for a period of six months to the *Daily People's World*?

"A. Not before the investigation.

"Q. Did you ever independently develop that information, I mean on your own? Did you discover those facts?

"A. The information on the *Daily People's World* came from a former resident who came into my office and notified me of that fact.

"Q. About when did this occur?

"A. About three months ago.

"Q. Did you ascertain that he had belonged to the *International Workers Order*?

"A. I have heard reference to that, but I had no proof.

"Q. Before, during or after the period of your investigation?

"A. During my inquiry.

"Q. Your inquiry commenced about when, how long ago was it?

"A. I became the most curious beginning January 11, 1954.

"Q. Would you tell as briefly as you can, without omitting anything pertinent, the circumstances that led to your interest in Mr. Czerniawski and this organization?

"A. I had learned of a supposedly open and civic meeting to take place the night of January 11th at the home of Lyle Richards. I called Mr. Richards at 7.30 and told him I would like to attend.

"Q. Is Mr. Richards a resident of Westminster?

"A. Yes, sir. Mr. Richards is treasurer of the *Tri-City Improvement Association*, I believe.

"A voice: Not the Tri-City.

"The Witness: Or the School Improvement Association, excuse me. Upon arrival at Mr. Richards' house at 7.50 p.m. he informed me that the meeting had been called off. However, later in the evening, about 9 o'clock, Mr. Edwards and I came across what we believed to be the same meeting in another person's house, in the home of Leonard Fry, later to be known as Chairman of the Improvement Association.

"Q. He is a resident of Westminster, and was at that time?

"A. Yes, Mr. Fry denied any knowledge of the meeting, of an organization, of any minutes or any officers or name of an organization when I inquired as to whether or not a meeting had transpired. Mr. Czerniawski was present at this meeting I mentioned.

"Q. Did you see him?

"A. Yes, sir. Later I inquired from Mr. Fry if the meetings were to continue and were they to be open to the public and the press. He said no. Having some knowledge of Mr. Czerniawski's past affiliation with the Independent Progressive Party, and that possibly he was now interested in the Improvement Association and in our local school affairs, and because the meeting was closed to the public and the press, Mr. Edwards and I took the liberty of listening in on the meeting from the attic of the Odd Fellows hall, inasmuch as we were barred from the meeting itself, although other reporters were allowed in.

"Q. Your effort to go to that meeting, the one you described as being held at the home of Mr. Fry, occurred when?

"A. The same night.

"Q. What was the date of the meeting at the other place?

"A. January 25th, I believe.

"Q. You say that that was open to other newspaper reporters?

"A. Yes, sir.

"Q. Was it open to the public?

"A. I had been told previously that it was closed to the public and to the press.

"Q. But members of the press were there?

"A. Yes, sir.

"Q. Did you see them?

"A. Yes, sir.

"Q. Who were they?

"A. The reporter of the *West County News*, a branch paper of the *Garden Grove News*.

"Q. Were there any other reporters present that you recognized?

"A. At later meetings Mr. Elmer Wells of the *Santa Ana Register* was present.

"Q. You saw those other newspaper representatives other than your own present at that meeting?

"A. Yes, sir.

"Q. Where were you all this time?

"A. I was in the attic, sir.

"Q. How did you manage to get into that location?

"A. Through the use of a key we entered the hall previous to the meeting.

"Q. How long previous to the meeting?

"A. At 6.30. The business took up about 8 o'clock.

"Q. You were there about an hour and a half before the meeting started?

"A. Yes, sir.

"Q. Who was with you, if anyone?

"A. Mr. Edwards and another chap named Merton Fugler.

"Q. He lives in Westminster, too?

"A. Yes, sir.

"Q. You went up to the attic for the purpose of ascertaining what went on at the meeting at which other reporters were present and at which you would not be admitted?

"A. That is right.

"Q. Were you there when the people began to come into the hall?

"A. Yes, sir.

"Q. Was there any physical facility in the ceiling of the building which enabled you to observe what transpired?

"A. I found a ventilating grill in the center of the ceiling.

"Q. Did you hear what went on?

"A. Very well.

"Q. Were you there during the entire time that the meeting lasted?

"A. Yes, sir.

"Q. Did you remain there until the last participant in the meeting had left the building?

"A. Yes, sir.

"Q. You then emerged from your place of concealment and left the premises, I take it?

"A. That is right.

"Q. Did you keep any written record or notes of what you saw and heard?

"A. Yes, we kept a running record of the meeting.

"Q. There were three of you there?

"A. Yes, sir.

"Q. It was a little uncomfortable, wasn't it?

"A. Yes.

"Q. How long did the meeting last?

"A. The meeting began at 8 o'clock and adjourned at 10, 11 and 11.30.

"Q. Mr. Thomas, did you attend subsequent meetings of this character?

"A. Yes, sir.

"Q. In the same way?

"A. In the same way.

"Q. With the same people?

"A. Yes, sir.

"Q. At the same place?

"A. Yes, sir.

"Q. In the same attic?

"A. Yes, sir.

"Q. Did you take notes on those subsequent occasions?

"A. That is right.

"Q. Are you able to tell us approximately when those subsequent meetings took place?

"A. February 8th, February 22d.

"Q. All of this year?

"A. Yes, sir; and I believe March 22d.

"Q. Four meetings in all?

"A. Yes, sir.

"Q. Were other meetings held there after that time, after you attended the last one?

"A. Yes, sir.

"Q. Why didn't you attend those?

"A. We went in, sir, on two or three occasions, myself or Mr. or Mrs. Edwards who occasionally writes for our paper. On entering, the meetings were immediately adjourned.

"Q. You say you attended four of these attic meetings. You also testified that other meetings were held thereafter in the same place?

"A. Yes, sir, in the same place.

"Q. But you did not go up to the attic any more?

"A. No, sir.

"Q. Why not?

"A. We had been discovered, I believe around the fourth time, as being in the attic.

"Q. How did that occur?

"A. Through the dropping of a camera cable through the ventilator grill.

"Q. Were you taking pictures?

"A. Yes, sir.

"Q. What kind of equipment did you have?

"A. We had infrared, sir.

"Q. Did you develop the negatives?

"A. Yes, sir.

"Q. Were they clear?

"A. Fairly much.

"Q. What did you do with the developed negatives?

"A. They haven't been put to any use, sir.

"Q. Do you have them in your possession?

"A. Not with me, sir.

"Q. If the committee should require you to do so, or request you to do so, would you make them available to the committee?

"A. Absolutely.

"Q. To go on with this incident. You were discovered. You emerged from the attic. Then what happened?

"A. We were discovered in the attic. Mr. Czerniawski, I believe followed by Mr. Lyle Richards—Mr. Richards I believe was the first one up the ladder and broke through.

"Q. Up the ladder?

"A. Yes, sir. There is a ladder from the second floor to the attic. Mr. Richards was the first one to come through, breaking open the drop door, I believe with his head or shoulders. Two men

were standing on the door. I believe he was followed by Mr. Czerniawski, who himself went through the attic with a large board in his hand. At that time I was endeavoring to put the cameras and film and such under the eaves, thinking they would be safer there. The police were summoned.

"Q. By whom.

"A. The Orange County Sheriff's office by a member of their organization.

"Q. By that you mean a member of the organization meeting there?

"A. Yes, sir, the Improvement Association.

"Q. All right.

"A. They requested the Orange County Sheriffs to come to the meeting and place Mr. Edwards and I under arrest. Mr. Czerniawski also requested that the films and notes be confiscated, the films and notes that we took of a supposedly public meeting.

"Q. Were other newspaper reporters present at all of these meetings?

"A. Yes, I think reporters were present at all meetings, although occasionally they came in late.

"Q. You observed this yourself?

"A. Yes, sir.

"Q. Were you arrested?

"A. No, sir.

"Q. By the Sheriff's office?

"A. No, sir.

"Q. Were the notes and photographic equipment and the negatives confiscated by anyone?

"A. The sheriff's officers offered to take our films into custody. They were released to me two days later.

"Q. Was any criminal charge filed against you by anyone to your knowledge?

"A. No criminal charge and no attempt was made.

"Q. Was any civil suit filed to your knowledge?

"A. No, sir.

"Q. Were you ever placed under arrest?

"A. No, sir.

"Q. Was your equipment all returned to you, and your notes returned to you?

"A. Yes, sir.

"Q. Did you make any further attempts to conceal yourself in the attic to observe what happened at their meetings which were held in the same locale?

"A. No, sir.

"Q. Were other meetings held there?

"A. Yes, sir.

"Q. Were you told on subsequent occasions by anyone connected with the Improvement Association that you would not be admitted to these meetings, or any of them?

"A. Yes, sir. It became general knowledge.

"Q. The other members of the press would be admitted, but you were not welcome?

"A. That is right.

"Q. Was it put to you that you were not welcome or that you would not be permitted to attend?

"A. It was put that I could attend, but would not be welcome.

"Q. Do you have your notes with you, Mr. Thomas, that you took on any of those occasions?

"A. I have typewritten copies of the notes.

"Q. Do you have them with you presently?

"A. Yes, sir.

"Q. Will you submit them at this time to the committee?

"A. Yes, sir.

"Mr. Combs: Let the record show that the witness has handed to the committee a series of typewritten sheets ten and a half typewritten sheets, which have been identified by the witness as typed copies of the notes that were taken on the occasions that he attended these meetings at the times and places and in the manner heretofore described.

"Q. Mr. Thomas, do you desire to have these returned to you or may we keep them?

"A. The committee may keep them.

"Q. Thank you. Did you continue to investigate the personnel and the activities of the Improvement Association?

"A. Yes, sir.

"Q. You did that for the reason you have heretofore described, that you suspected it was engaged in some sort of a subversive activity, or had been infiltrated or was led by people with subversive records?

"A. Yes. I became interested and pressed the inquiry because of Mr. Czerniawski. He was assistant membership chairman and I presume now a membership chairman with headquarters at his store.

"Q. For this association?

"A. Yes, sir, and he is influential in the association. I had some knowledge of his past affiliations and I pressed the inquiry to determine the extent of possible subversive character existing in the membership.

"Q. As a newspaper man you were interested not only in the *Improvement Association*, but having discovered the *Independent Progressive Party* affiliation, the *People's Daily World* subscription and the *International Workers Order* affiliation in the process of your work, it led you to suspect that the organization might have some kind of ulterior purpose, is that true?

"A. Either the organization or some of its membership who may have motives that would be beneficial to other organizations that they might be on too.

"Q. Did you investigate any other members or leaders of the organization except Mr. Czerniawski?

"A. To some extent, but not as fully.

"Q. What did you find in that connection?

"A. I believe a few minor details which cropped up, volunteered by people. We have not pressed them to the fullest extent though. What little we do have we have submitted to the committee.

"Q. You will make available this information on request, will you?"

"A. Yes, sir.

"Q. What was the net result of your investigation and work, Mr. Thomas, to what conclusion did you come, if any?"

"A. I believe that an organization representing itself to be a civic group attempting to work for the betterment of our schools and community should not have in it personnel or officers who are members or have had membership in organizations that are not akin to our American way of life. I believe that any trustees that have been sponsored by such an organization, that its membership should give this very serious consideration inasmuch as this group has membership in it that is affiliated with possible front organizations and has sought to gain control of the school board successfully.

"Q. Is there anything else you care to add, Mr. Thomas?"

"A. My reasons for bringing this to the committee were first to present evidence of material given to our office, to bring to light any possible subversive character that existed in the committee, if such existed.

"Q. Do you mean the *Improvement Association*?"

"A. That is right. Reference was made earlier today of our investigation in the Long Beach, Dominguez area. On one occasion Mr. Czerniawski said that we were claiming to have connections with the police force, or something.

"Q. Those statements were contained in the letters he submitted.

"A. On all occasions we submitted business cards, and on one or two occasions we were asked what would happen to the material if it came our way. We said it would be turned in to a government agency, but we were newspaper men.

"Q. You never identified yourselves or made an effort to represent yourselves, directly or indirectly, as having any official investigative capacity?"

"A. No, sir. We were only interested where it would benefit the community.

"Q. You always submitted your business card on each and every occasion, which gave your occupation as a newspaper man?"

"A. Yes, sir.

"Q. Do you have anything further to offer?"

"A. I believe that is all I have.

"Mr. Combs: Thank you."

Mr. Ralph R. Edwards was called to the stand and stated that he resided at 14242 South Golden West Street in Westminster, had accompanied Mr. Thomas on the expeditions into the Odd Fellows Hall attic, and corroborated his testimony concerning the meetings held there in every respect.

Mr. Czerniawski was then recalled to the stand, briefly described the encounter in the Westminster drug store and was then questioned further concerning the *School Improvement Association* as follows:

"Question by Mr. Combs: Senator Burns inquired of another witness whether or not the Improvement Association was still functioning and holding meetings. Is it, to your knowledge?"

"A. So far I think I did attend meetings.

"Q. I don't mean you, but does the organization still exist?

"A. As far as I know it does.

"Q. Are you still connected with it?

"A. Well, I haven't paid any dues for quite some time. I don't know whether I am or not.

"Q. Did you hold an office in the organization?

"A. I was elected at one of the meetings for membership chairman, but I told them I could not accept. I said I could not accept that position because I was busy in my store and could not devote the time. I said I would help in any way I could, but I would not take the office or job.

"Q. Were the meetings in the Odd Fellows Hall open or closed to the press?

"A. They were open to the public and the press.

"Q. They were open to the public and the press?

"A. That is right, sir, as far as I know.

"Q. Was it made clear to Mr. Thomas and Mr. Edwards that they were not welcome at the meeting?

"A. It was never mentioned to Mr. Thomas or Mr. Edwards as far as I know.

"Q. Could it have been mentioned to them without your knowledge?

"A. It probably could because we are not taking a very active part in the organization because I have my business to attend to. The only active part I took in the organization was to pay dues as a dues paying member.

"Q. The paper that was published by Mr. Thomas was not exactly friendly toward the improvement society, was it?

"A. No, it was not, sir. It was very biased.

"Q. So it would not be beyond the realm of logic or reason to say that the people representing that paper would be perhaps a little less welcome at your affairs than papers that were friendly toward your association?

"A. That is true enough. However, they were not excluded. They were welcome if they wanted to come, but they knew that we weren't very friendly toward them on this biased attitude.

"Q. They were not friendly toward you and you were not friendly toward them?

"A. That is right.

"Question by Chairman Burns: Mr. Czerniawski, in these notes I see a statement by member Fry in which he says, 'I agree and think that we should plan a constructive program keeping in mind our one aim, that of three men from our group elected to the board.'

"Was that the main reason why this organization was formed, this Improvement Association, to secure three members on the school board?

"A. As far as I know, our aim in organizing was to clean up the school district in that area. It wasn't run right.

"Q. According to your plan you intended to elect a majority of the members of the board?

"A. That is right.

"Q. Of the school board, is that right?

"A. That is right.

"Q. Your meeting was held January 25th. The election was held subsequently. What happened at the election. Did you secure three places on the board?

"A. Yes, by a great majority, a landslide you might say.

"Q. In other words, the main aim and objective of the organization was accomplished?

"A. That is right. We based our ideals on the truth. That is why the organization was successful in the election, because we based our aims on the truth only.

"Q. Did you promulgate your propaganda and information as you saw it?

"A. Yes.

"Q. What changes were made in the school administration since the election? Has any radical change been made? Have you changed principals or superintendents? What has happened?

"A. I think the school board could best answer that.

"Q. Is there a member of the school board here?

"A. Yes, sir.

"Q. Would he be willing to tell us something about it?

"A. I guess he would. We have Mr. LeRoy King and Mr. Schulzstad.

"Chairman Burns: That is all, Mr. Czerniawski."

Mr. LeRoy Carlin King was questioned and testified that he resided at 7742 Westminister Avenue in the city of Westminister, and testified as follows:

"Question by Chairman Burns: You are a member of the school board of the Westminister School District?

"A. That is right, sir.

"Q. You were elected at a special election, were you not?

"A. No. It was a regular election on the 21st of May.

"Q. You participated in the formation and activities of the *Tri-City Improvement Association*, did you not?

"A. I cannot say that I participated too much in the formation, but I did become a member of the organization, and I was sponsored by that organization.

"Q. In your judgment and in your opinion do you believe from what you know of the course of the organization and its works, that it was in any way subversive?

"A. I cannot by any stretch of the imagination picture any such thing.

"Q. You know of no Communist influence in its operation or in the conduct of its meetings?

"A. Not in any manner.

"Q. Will you briefly tell us what changes the school board has made since the new regime took over.

"A. As for changes I cannot think of any material ones. As a new member I was elected to the chairmanship of the board. One of my member candidates, Mrs. Genevieve Nashburn, was elected as clerk of the present board, the three of us being elected to complete it as a five-man board, according to past legislation, raising it from a three-man board to a five-man board.

"Q. It is a five-man board now?

"A. That is right.

"Q. Do you still have the same district superintendent?

"A. We still have the same district superintendent. We have the same assistant to the superintendent. We have the same principals in so far as I know. To the best of my knowledge we have about the same teaching staff with the possible exception of the usual, customary turnover. We have advocated no drastic changes or policies whatever as of the present time.

"Q. Has the district at the present time filed a request for state funds for any purposes?

"A. I cannot exactly tell you how that works. I know the program of the previous board in the election was an \$80,000 bond issue. There was a state loan of some \$625,000,000, I believe, which was on the ballot at the last election. Both issues were defeated.

"Q. At the present time probably there is no application for state funds for building purposes?

"A. Not to the best of my knowledge, no, sir.

"Chairman Burns: Do you have any questions, Mr. Combs?

"Mr. Combs: No, I have no questions.

"Chairman Burns: Thank you, Mr. King, unless you want to add something.

"The Witness: May I address a question to you, sir?

"Chairman Burns: Certainly.

"The Witness: On behalf of the school board, the present school board and the school district, it came to my attention some few days ago that an official or officials of the school district had requested this investigation also, and as chairman of the board am I entitled to know if some of my officials have questions?

"Chairman Burns: You want to know the individuals who requested that the committee investigate this matter?

"The Witness: Only insofar as it concerns the administration.

"Chairman Burns: For your information, Mr. King, the request came before you were a member of the board.

"The Witness: I see.

"Chairman Burns: I don't believe there would be any hesitancy on the part of the people who asked for the investigation to have their names disclosed, but I believe at this time for the benefit of all concerned I would withhold that information. I would advise you of this. There was no question about you or the other new members of the board from a personal standpoint, to the best of my recollection.

"Mr. Combs: There was none.

"Chairman Burns: It was a long time before the election, as Mr. Combs has said. The question why we delayed doing anything about it at all was not to interfere with a local election of any kind. That has been the policy of this committee, not only as far as school boards are concerned, but in all elections. We don't want to step into a local political situation.

"The Witness: Thank you, sir.

"Chairman Burns: You are entirely welcome, and thank you.

"Does anyone else desire to be heard in this matter relating to Westminster?

"Mr. Reid: I do, sir."

The committee, pursuant to his request, agreed to hear the testimony of W. L. Reid, who took the stand and stated that he resided at 7851 10th Street in Westminster, was a sales representative, had lived in Westminster for three years and prior to that time resided in Garden Grove for approximately the same period of time. Mr. Reid further stated that he was one of the founders of the *School Improvement Association* and that Mr. Czerniawski became a member of it some time later.

He said, in response to an inquiry concerning the founders of the association, that it was founded by Leonard Fry and himself. He then testified as follows:

"Q. Did you hold any official position in the organization?

"A. No, I have not, other than just errand boy.

"Q. Did Mr. Fry?

"A. Yes. Mr. Fry was chairman of our *School Improvement Association*.

"Q. Actually when was it formed?

"A. I am not too good on dates.

"Q. Approximately as near as you can fix it?

"A. I could attach it to other happenings there and arrive at a fair date. I would say roughly six or eight months ago.

"Q. At whose residence was the organization meeting held?

"A. The first meeting was held at Mr. Fry's residence.

"Q. That was on what date?

"A. The organizational date.

"Q. Was that the date Mr. Thomas and Mr. Edwards came and inquired about attending the meeting?

"A. Mr. Thomas and Mr. Edwards came into the meeting right at the end of the meeting. We were serving refreshments.

"Q. This was the organizational meeting?

"A. Yes, sir.

"Q. Did they come in and look at the minutes?

"A. No. They were served coffee and cake. The meeting was over.

"Q. This was held in Mr. Fry's home?

"A. Yes.

"Q. Had the meeting theretofore been scheduled at some other place?

"A. Not to my knowledge.

"Q. Could it have been without your knowledge?

"A. I doubt it very much because Mr. Fry and I originated the meeting.

"Q. Did Mr. Thomas on that occasion inquire about the nature and purpose of the organization?

"A. Yes.

"Q. Did he discuss these matters with you?

"A. No—with Mr. Fry in my hearing.

"Q. You were present and you heard the conversation?

"A. Yes, sir.

"Q. Did he get information as to the nature and purpose of the movement?

"A. Yes, sir.

"Q. Was he subsequently informed by you or anybody else that he would not be welcome at your meetings?

"A. Yes, sir. He was told by Mr. Fry that he would not be welcome. The reason was because he made his stories up out of whole cloth.

"Q. He was antagonistic toward the organization, according to your view?

"A. That is right, definitely.

"Q. He published articles in the paper that were antagonistic toward the organization, or critical of it?

"A. Yes. It was not an organization at that time. However, in view of the general school controversy we thought his stand was antagonistic to our views.

"Q. Did you hold any closed meetings that were not open to the public?

"A. No, sir. We invited the press at all times. Any of the meetings I attended were also attended by newspaper reporters, either or both of the *Garden Grove News* or the *Santa Ana Register*.

"Q. You felt it was made clear to Mr. Thomas he was not welcome?

"A. He was not excluded.

"Q. What do you mean by excluded?

"A. He was merely told in view of the fact his articles were made up generally through imagination that he would not need to attend.

"Q. Did somebody meet him at the door and tell him that he could not come in or that he would not be welcome if he did come in?

"A. No, sir. He was brought in and served coffee and cake.

"Q. That is one occasion, but what about subsequent occasions?

"A. I think he attended meetings of the general membership after that. In fact we were not aware of his presence.

"Q. I understand, but at any meeting you ever held was he told in your presence or in your hearing that he would not be welcome?

"A. Except for the first organizational meeting, I never saw him at one of our meetings, so I could not say he was ever told.

"Q. But at the organizational meeting he was told he would not be welcome?

"A. He was told in view of his stand he would not be welcome, but he was not excluded.

"Q. Mr. Fry told him that?

"A. That is correct.

"Q. In your presence and in your hearing?

"A. That is right.

"Q. Was anyone else present on that occasion?

"A. I can't recall. The membership was there.

"Q. Did you attend the meetings held in the Odd Fellows Hall?

"A. One or two of them. I don't remember the dates particularly, I did not attend all of them. My work keeps me out a great deal during the night.

"Q. Were you present at any of the attic meetings?

"A. Apparently so. I didn't know it on that day—I wasn't there at the one at which he was discovered.

"Q. Does the organization still exist and function?

"A. More or less. It exists in this respect: We still have some money to raise to offset our campaign expenses.

"Q. Were they considerable.

"A. No. I would say—

"Q. It is not material. Did you wish to add anything else, Mr. Reid?

"A. Just that I would like to definitely insist that the *School Improvement Association* is not in any sense of the word a Communist front organization, has no affiliation with the organization, and that our membership lists were turned over to Bill Callan, Secretary of the Orange County Farmers, which is the only place where we could have any sort of a check. We have gone to great lengths to see that the organization is free of any taint.

"Q. Who turned the list over to them?

"A. We did.

"Q. What group is that again?

"A. I believe it is the Associated Farmers of Orange County.

"Q. They would have a list of your members?

"A. Yes. My wife and I spent several afternoons with him.

"Q. Where is his office?

"A. On North Los Angeles Street, approximately the 600 block, in Anaheim.

"Q. Anything else, Mr. Reid?

"A. That is all, sir."

Mr. Combs: "I have no further questions."

"Chairman Burns: For the benefit of those who came from Westminster, all of you, we appreciate your presence here today. As far as the official position of the committee is concerned, after going through the transcript we will make that known to those interested."

## CONCLUSIONS

Within 30 days after the conclusion of the public hearing, the committee was receiving calls by reporters from newspapers in Orange County rather insistently demanding some expression of the committee concerning its official position regarding the hearing. These requests continued to such an extent that Senator Burns, in September, 1954, gave his own personal opinion to the effect that no evidence was produced at the hearing that would establish Communist Party membership on the part of Mr. Czerniawski nor prove that he was an active member in a subversive organization. Senator Burns made it clear that the opinion expressed was his own and not necessarily shared by other members of the committee.

Immediately after this expression, an article appeared in the *Santa Ana Register* dated September 16, 1954, which we deem it important to quote below for the purpose of indicating the attitude of this particular paper, or at least the reporter who wrote the article, toward the entire Westminster problem.

### "RED PROBE SUSPECTS GIVEN 'CLEAN BILL'"

"Red-hunting Sen. Hugh M. Burns, chairman of the State Senate Committee on Un-American Activities, indicated yesterday that the *Westminster School Improvement Association* and Westminster hardware dealer, Albin Czerniawski will be cleared of subversive charges.

"However, Burns emphasized that the opinion is his own and not necessarily that of the two other members of the State's Red-probing committee, Sen. Nathan Coombs of Napa County and Richard E. Combs, Chief Counsel.

"Burns added that he is basing his 'off-the-cuff' opinion on evidence heard at an 'exploratory hearing' held at Los Angeles last July to probe alleged infiltration into Westminster School District politics.

" 'I haven't had a chance to read the hearing transcript. But in my opinion, by the evidence presented, that group (The Westminster School Improvement Assn.) hasn't a thing to worry about being subversive.

" 'True, one of the fellows belonged to a Communist front organization, but that in itself doesn't make him a member of the Communist Party or active in any subversive group,' Burns declared.

"The Senator from Fresno explained that his work on the committee plus his senatorial duties along with having to earn a living, 'like anyone else,' is the reason for the delay of an opinion on the Westminster probe.

"However, he said, in view of the expressed interest in the Westminster situation he will do all he can to expedite an official opinion and get out a more detailed report soon as he can.

"Burns said that as far as he is concerned *Westminster School Improvement Assn.* had a right to organize in an effort to steer Westminster School District affairs if they were unhappy with the way things were going. 'And,' he added, 'there is no evidence to support in any way their being subversive.'

"Burns pointed out that the question raised at the hearing was the possibility of Czerniawski being either an official or functionary in the group and also a member of the Communist Party.

" 'About the only thing the hearing proved,' he declared, 'was that this man (Czerniawski) holds an insurance policy in the International Workers Order. But this is not evidence to support subversive charges.'

"Red infiltration into the school district's politics was alleged by Lloyd Thomas, 31, 'cloak and dagger' editor of the Westminster weekly Herald. Thomas presented evidence which he charged implicates Czerniawski with the Communist Party. He also implied that the 52-year-old hardware dealer was the 'Red' link of the *Westminster School Improvement Assn.*

"Under oath Czerniawski admitted membership in the I. W. O., a group which has been cited as Communist-front. But he denied knowledge of its Communist affiliations and being a member of the Communist Party.

"Czerniawski also admitted he had subscribed to the *People's Daily World* and *In Fact*, both later identified as publications sympathetic to the Communist cause. But, he testified, he subscribed to each for six months, 'to please customers.'

"The hardware dealer testified he became the victim of a whispering campaign four years ago and it climaxed last May 10th when he slapped Thomas in the face for calling him a Communist.

"He told the Senate committee that he had joined the I. W. O. to take advantage of its insurance benefits at a time of economic difficulty. The group, he said, collected a hundred dollars to buy a horse for an impoverished Czech farmer, while he was a member.

"The I. W. O. was branded subversive two years ago and disbanded. Czerniawski testified his insurance is still in force, but it is now paid to the New York State Insurance Commissioner who took over the insurance end of the disbanded group.

"Thomas told the three-man state probing committee that he first became suspicious of subversion in Westminster School District politics when he learned that Czerniawski was a member of the School Improvement Association.

"The association backed three candidates which Thomas opposed editorially in the May election. The candidates, LeRoy King, Marshall D. Schulzstad and Mrs. Genevieve Mashburn, were elected to office in the biggest turnout of voters in Westminster history.

"Thomas also described how he came by the labels of 'cloak and dagger editor' and 'peek-a-boo editor.' His description, accompanied by hearty but somewhat stifled laughs from the senators and guffaws from the audience, involved how he was caught late in March eavesdropping on a meeting of the members of the Improvement Association.

"Thomas was caught in the attic of the I. O. O. F. hall in Westminster. With him were Ralph Edwards, 30, Westminster bean rancher, and a juvenile. They were caught with infrared photo equipment for taking photos undetected at night, binoculars and exhaustive notes.

"At the conclusion of his testimony the publisher admitted that thus far his investigation has produced no evidence of possible subversion other than Czerniawski's record, but that his probe would continue."

An examination of the transcript of this hearing does not indicate any description by Mr. Thomas of how he became known as a "cloak and dagger editor" or the "peek-a-hoo editor." Neither were the members of the committee so discourteous as to laugh at his testimony concerning his experience in the attic when he endeavored to ascertain what was taking place at the meetings of the *School Improvement Association*. The transcript does not contain anything showing that Thomas presented any evidence which he charged would implicate Mr. Czerniawski with the Communist Party, nor did Senator Burns or anyone else connected with the committee give the individuals connected with the hearing a "clean bill." All of these things set forth in the article above, can be attributed neither to Senator Burns nor to anything that transpired at the hearing.

Mr. Thomas made it amply clear during his testimony, and the committee also wishes to emphasize that he conducted his investigation solely on his own initiative and at no time worked either for the committee or under its direction. He merely ascertained that he was not welcome at the organization of the *School Improvement Association* nor at any of its subsequent meetings, decided that something must be wrong, conducted an investigation entirely on his own, discovered Czerniawski's involvement with the *Independent Progressive Party*, the *International Workers Order*, and the *Daily People's World* and concluded that the matter should be brought to the attention of the committee. Ordinarily this matter would not have been made the subject of a separate hearing without a detailed investigation initiated by the committee itself. Because of the relatively small size of the City of Westminster and the intense feeling created by the entire matter, and in consideration of the letters and telephonic requests received by the committee from parties representing both sides and asking for a public hearing, the committee decided that the matter should be explored when it was having a hearing on other subjects in Los Angeles.

It is quite obvious that no evidence was produced which would either establish the membership of Mr. Czerniawski in the Communist Party or his active participation as a member of a Communist-controlled organization. The fact remains, however, that he did subscribe to the Communist newspaper and to a pro-Communist magazine, that he affiliated with a "political" party which was also under the domination of the Communist Party in California, and that he continued his membership in one of the most potent Communist front organizations in the United States for a period of 18 years.

The *International Workers Order* has been operating in the United States since 1930. It is an insurance, fraternal and propaganda agency

and during the first four years of Mr. Czerniawski's affiliation with it, was headed by Max Bedacht, ex-general secretary of the Communist Party of the United States, a former member of its National Executive Committee, a frequent visitor to the Soviet Union and an affiliate with innumerable Communist front organizations. As we pointed out in the 1951 report of this committee, Mr. Bedacht, himself, described the organization as follows:

"Our main concern is that our proletarian fraternal organization, the *International Workers Order*, can make the workers class-conscious \* \* \* this problem is of the greatest importance. It is one of the major problems of Communist leadership in all nonparty mass organizations.

"The development of its members into militant trade unionists or Communists thus becomes a natural result of the correct functioning of the *International Workers Order*. \* \* \* The Communists, rather, develop and lead struggles for immediate achievements because they are concerned with creating a revolution. \* \* \* The Communists organize mass economic strikes by the workers themselves, mass picketing by the workers themselves, mass demonstrations by the workers themselves, mass defense by political strikes by the workers themselves. \* \* \* The I. W. O. is an organization that allows Communist leadership to drive its roots into the uncharted depths of the American working masses. \* \* \* The building of the I. W. O. is therefore, one of the most important tasks of the Communist Party."

The I. W. O. has been used not only for the purpose of raising huge amounts of money for Communist purposes in this Country and for propagandizing, but it has also been used as a very important medium for the bringing together of racial minority groups and recruiting them into the Communist Party itself. It is extremely difficult to see, in view of the known fact that the organization was controlled by the Communist Party from top to bottom, was swarming with party members, that its meetings were held in an atmosphere of Marxism and Communist recruiting techniques, and that its very purpose was to indoctrinate its members with Communism, how any person could be a member of it for a period of years without having some sort of an idea of its real nature.

Several years ago this committee received evidence of how the *International Workers Order* was being utilized in connection with a Communist technique for protecting its agents. Every *International Workers Order Lodge* in the United States had its own staff of physicians, and members of the organization were referred to these doctors not only for medical service but frequently for advice concerning political matters. These *International Workers Order* physicians cared for the health of the top-level party functionaries throughout the United States, and in the event one of them toppled over and died suddenly from a heart attack the *International Workers Order* would provide the ambulance, the physician, the mortuary, the death certificate, and the report of a cremation. In many instances governmental agencies were extremely skeptical and pondered the question of whether or not the known Communist agent was really deceased, or whether his death and cremation were reported to spring him loose for important underground activities.

Several years ago the committee also had a conference with the Insurance Commissioner of the State of California, produced evidence of the subversive nature of the *International Workers Order*, and the organization was not thereafter permitted to carry on an insurance business in this State. Simultaneously there was a case pending in the courts of New York, brought by the Insurance Commissioner of that state for the purpose of proving his allegations that the I. W. O. was in fact subversive and Communist-dominated. The court found in favor of the commissioner, and since the head office of the I. W. O. was in the State of New York, all of the members who remained in the organization after its subversive character had been printed many times in official publications, were told to send their contributions to the New York Corporation Commissioner.

In connection with the testimony of Mr. Czerniawski to the effect that he regards the organization simply as an insurance concern, it may be well to quote the remarks of Mr. Louis F. Budenz, a former member of the Communist National Committee of the United States and former editor of its New York Publication, *The Daily Worker*. In the March, 1951, issue of the *American Legion Magazine* Mr. Budenz wrote:

"An I. W. O. lodge, indeed, cannot be distinguished in its political tone from a Communist Party branch. They look alike, talk alike and act alike. It was my function along with other Red leaders to visit I. W. O. lodges and give 'educational' talks there. These were nothing other than the straight-out Red incitations against the United States, always wrapped up in the current language laid down by Moscow. Many a night I was out talking to the I. W. O. members in exactly the same accents and the same intent as do the 'card-carrying' Red members.

"I went into these lodge meetings as the official representative of the National Committee of the Communist Party, was introduced as one having Red authority, and laid down the law just as I did in party branches. When J. Edgar Hoover of the F. B. I. recently told the Senate Committee on Appropriations of the five hundred thousand 'Red sympathizers' aiding the subversive acts of the Soviet fifth column, he undoubtedly had these I. W. O. first in mind.

"The indictment which could be drawn up against the I. W. O. as one of Stalin's leading agencies for subversion would be extensive and detailed. The continuance of 'language' groups and divisions in an 'insurance' set-up becomes increasingly artificial in the America of today. But in the I. W. O. it enabled a constant interweaving relationship with foreign agents from abroad, such as alleged seamen of Greek, Polish, Romanian and other nationalities. It is largely in order to facilitate the work of spying upon our defenses that fifteen nationality groups, societies and general lodges have been maintained by I. W. O. on a national level.

"Of course, there has been another reason for this preoccupation with 'language' groups, both in the I. W. O. and in the Communist Party itself. If the Reds could play upon the isolated feelings of many immigrants they would be able to use these people for alien purposes, just as they seek to turn the Negro against America and to make the Mexican-American feel that he is a member of a

'conquered' people. That is what caused the I. W. O. to advertise rather extensively in the Red-created Slav papers in this country. It was out of such financing, plus the recruiting from the I. W. O., that the Soviet fifth column was able to create so rapidly the *American-Slav Congress* when Moscow ordered such action.

"From my experience as a leading Communist, I can charge that every foreign language division within this 'fraternal' organization had an espionage apparatus of some sort operating within it. Perhaps the leader of all was the *Polonia Society*, the Polish section of the I. W. O., led by Boleslaw Gebert. This amazing Stalinist agent, who served as district leader of the Communist Party in the mid-west in the early thirties, and then became the underground director of Red infiltration into the steel and automobile unions, remained an alien in this country for fully 20 years. All efforts to deport him failed, and he stands out as one of the scores of Moscow espionage representatives who exercised extensive power in this country while disclaiming American citizenship. To my personal knowledge Gebert not only obtained vital secrets pertaining to our military aircraft, but ran an extensive espionage ring."

The committee pointed out in 1951 that the I. W. O. then had 81 lodges in California, was licensed to conduct an insurance business in this State, and as of 1950 had 8,495 insurance certificates in force, \$5,438,710 in insurance policies in force, and that it received \$123,762.80 from its members in California alone. As we have stated, the committee produced evidence before the Insurance Commissioner of this state which led him to take action which prevents the I. W. O. from pursuing its activities within the borders of California.

The *Daily People's World* is the propaganda organ for the Communist Party on the Pacific Coast. Its principal office is located in San Francisco, and it maintains an extremely active branch office in Los Angeles. Until late in 1937 this publication was known as the *Western Worker*, and its masthead proclaimed that it was the official organ for the Communist Party, a section of the Communist International. When it changed its name to the *Daily People's World* the control, the editorial policy, the propaganda content, the assiduous following of the International Communist Party line remained identical. Its former editor in chief, Harrison George, has declared that the editorial policy of the publication was actually determined by the organizer for the Communist Party of California—Mr. William Schneiderman, who stands convicted for violation of the Smith Act. The paper, being designed for the sole purpose of carrying the party line and spreading Marxian propaganda, would obviously be worthless to the Communist apparatus unless its objectives were expressed in the columns of the paper with such clarity, such vehemence, and in such context that the effect would not be lost upon even the most casual reader.

No one could possibly scan even the headlines of this publication without instantly becoming aware of its character. Even the advertisements are couched in the unmistakable language of the Marxian left. Naturally, the *International Workers Order*, as well as all of the other numerous

front organizations that are so important to the Communist organization are mentioned almost daily. The publication maintains a constant and vicious attack against the United States Department of Justice, the Federal Bureau of Investigation, the Immigration and Naturalization Service, all police agencies, all legislative committees investigating Communism, and sneering criticism of the foreign policy of the United States. At the same time the publication expresses profound sympathy for every Communist Party member, whether an espionage agent, a propagandist, a chronic joiner of front organizations, a fellow-traveler, or a rank and file member of the party, in case such an individual becomes the target for prosecution because of a violation of some established law. The Soviet Union and the satellite countries are constantly eulogized, and Red China occupies a place in the esteem of this publication only second to the Soviet Union. It is also a well established fact that all members of Communist front organizations, as well as all party members, are constantly urged to subscribe for the *Daily People's World* and to read it assiduously.

Until a few years ago the newspaper was openly delivered through the United States mail. In recent years, however, it is usually delivered in bundles by courier, and then picked up by its subscribers at a central location. This practice, of course, is in harmony with the party's decision to go underground and to take every means to protect the identity of its members with the exception of those Communists who are deliberately left on the surface and directed to handle the newspaper itself, the front organizations and the propaganda machinery. These individuals are considered expendable, and regard themselves as Communist martyrs. Thus the *Daily People's World* is not simply a liberal or progressive newspaper. Its contents are not couched in such language as would fool a grammar school student of ordinary common intelligence. The paper takes brazen pride in openly criticizing our government, extolling the Soviet Union and its satellite nations, and is so arrogantly pro-Communist in its content that the most cursory reading would reveal it for what it actually is: the propaganda medium for the Communist Party of the Pacific Coast.

The publication *In Fact* was known for years for its decidedly pro-Communist character. This committee has mentioned it in reports issued in 1943, 1948 and 1949. Its editor, George Seldes, wrote such insulting letters about and directly to J. Edgar Hoover that the latter was moved to reply in an exchange of personal correspondence that effectively put Mr. Seldes in his place. The magazine, defunct for several years, consistently carried the Communist Party line, gave every sort of aid and comfort to the Communist cause, and while not quite so obviously a propaganda medium as the *Daily People's World*, could not possibly be read with any degree of thoroughness without disclosing its sympathy toward Communism in this country.

The *Independent Progressive Party* in California was quickly captured by the Communists, and by the time the Wallace for President campaign had swung into high gear was being operated lock stock and barrel by the Communist Party of California. Time after time the committee in questioning witnesses throughout the State discovered that the leaders of the Communist Parties in various localities were identical with the leaders of the *Independent Progressive Party* in the

same area. It is true, of course, that in the *Independent Progressive Party* there were many sincere liberals who, because of dissatisfaction with the two major political organizations registered as Independent Progressives and continued their affiliation until the true control of the I. P. P. became obvious. These people invariably resigned, many of them having given the benefit of their experience to various official agencies interested in the exposure of subversive activities. As has already been pointed out, the head of the I. P. P. in California since its inception was Hugh Bryson, president of the Marine Cooks and Stewards Union, and now under indictment for having falsely sworn that he was not a member of the Communist Party.

The Communist control of the *Independent Progressive Party* soon became so pronounced and so arrogant that it drove the sincere liberals from its ranks, leaving only a handful of the most fanatic. This exodus from the organization grew to such an extent that at the last state-wide political election in which *Independent Progressive Party* candidates were eligible to participate, the voting strength of the organization fell so far below the state requirement that it could not qualify as a political party in California.

Mr. Czerniawski stated to the committee positively and clearly that he had never joined the Communist Party. Whether the *International Workers Order* meetings that he attended created a predilection for publications and politics of a pro-Communist flavor we cannot tell. It is quite plain, however, that he did subscribe to the Communist newspaper; that he did subscribe to the pro-Communist publication *In Fact*, and that he did affiliate with the Communist-controlled *Independent Progressive Party*.

We then have a situation wherein, because of local interest in school affairs, attention became focused upon the personnel of the newly-created *School Improvement Association* in Westminster. Mr. Thomas, obviously irked because he was not well received by the association and because he was told flatly that he would not be welcome at its meetings, stubbornly dug away at Czerniawski's record and found that he had, indeed, subscribed to Communist publications and joined two Communist-controlled organizations.

The committee prefers not to comment on the wisdom of Mr. Thomas' attic activities—any more than upon Mr. Czerniawski's motives in making his choice of reading material and affiliating with the *International Workers Order* and the *Independent Progressive Party*. The episode in the Westminster pharmacy seems to epitomize the personal characteristics of the two principals: Mr. Thomas' accusations against Mr. Czerniawski, and the latter's violent reaction thereto.

The committee can do no more than to recite the facts. We feel that the issues have been well clarified and, as Senator Burns stated in September, 1954, the *School Improvement Association* had a perfect right to organize and conduct any critical activity concerning the educational system in Westminster, or any school political activity it desired. There is no evidence that the organization engaged in any subversive activity whatever. As a public minded citizen and a newspaper editor, it was not unnatural for Mr. Thomas to interest himself both in the local educational problems, the *School Improvement Association*, and its

personnel. Further, it is not unnatural for such a person to become concerned over possible subversive influences in the educational system of the community. Whether Mr. Thomas exercised the proper wisdom in so zealously pursuing his investigation, or whether he should have turned the matter over to some official agency, is a matter for the determination of anyone who reads the facts in the case. The same reasoning may be applied to Mr. Czerniawski's wisdom in making the affiliations and subscribing to the publications concerning which he testified. There was no proof produced by anyone to show that Mr. Czerniawski was a member of the Communist Party, and he stated under oath that he had never made such an affiliation.

As Senator Burns stated in his comment to the *Santa Ana Register* last September, the hearing was purely exploratory. In the event that further substantial evidence is developed showing any subversive activity on the part of any member of the *School Improvement Association* or in connection with the educational system of Westminster, the committee will stand ready to make such investigation or hold such hearings as the facts may warrant.

*President of the Senate  
California Legislature

MR. PRESIDENT: Pursuant to Senate Resolution No. 146, read and adopted by the Senate of California at the Regular 1953 Session of the Legislature, the Senate Fact-finding Committee on Establishing a Port Development Agency for the San Francisco Bay Area herewith submits its First Partial Report.

PARTIAL REPORT OF THE  
SENATE FACT-FINDING COMMITTEE ON PORT  
DEVELOPMENT AGENCIES AND MARINE  
ACTIVITIES FOR SAN FRANCISCO  
BAY AND STATE WATERWAYS

March 15, 1955

Four years of study and action have gone into this Senate committee's program to resolve the problems of the San Francisco Bay region in terms of harbor commerce and trade with world markets. That these years have been substantially productive is evidenced by the present cooperative organization\* established and in operation as the result of the recommendations of this Senate committee and the San Francisco Bay Ports Commission, the state agency established to represent commerce and industry in the Northern California harbor region.

The port and terminals of San Francisco Bay and the Northern California navigable waterways represent an integral and vitally important segment of the State's economy. It is highly important that their facilities and services, their campaigns to attract cargo tonnage and world trade, and their administrative and financial structures have a substantial degree of unified efforts so that the end results benefit the entire State—industry, agriculture, labor, and government.

\* The Northern California Ports and Terminals Bureau, Inc.

The committee finds that the accomplishment of any degree of cooperation between highly competitive port organizations and communities requires a continuing program of collaboration on mutual problems. This is the premise upon which the Senate Fact-finding Committee on Port Development has established its study program and findings.

The prime factors to be considered in this brief review of the statewide port situation are as follows:

The State of California has recorded a phenomenal growth to more than 12 million population, with a present status of industrial, agricultural and related wealth to make it one of the Nation's first-ranking states, as well as the first in many other categories.

The factors of distance and time have always been vitally important to California world trade and economic growth. They have been largely overcome through the years: first, as the trancontinental railroads were built; second, with the completion of the Panama Canal; and third, with the advent of the trucking industry and the expansion of localized railroading and the new air-cargo industry.

The economic value of waterborne shipping as an everlasting source of revenue has been lessened by the competition of trucks and rail. Furthermore, the establishment of new plants and factories in the West brought about the replacement of products that once moved by water via the canal or in world trade routes.

The fact remains, however, that world commerce holds a fairly stable level for San Francisco Bay ports, despite the influences of wars, emergencies, economic depressions, dollar decline, communism and other influences. The greatest problem is to establish and maintain a highly competitive and effective cargo sales program, aimed at the key organizations and men who control shipments.

This problem should be met by a program based on (1) the continuing study of world markets and trends in world commerce, and (2) similar study and action upon competitive or discriminatory situations affecting rates, charges, tariffs, traffic practices and services.

The next step is to apply this information and data to practical purpose by establishing the competitive position of the harbor region to determine whether or not the California ports and terminals and their related services are in the running for the potential cargoes.

The establishment and operation of such a program is not a day-to-day or temporary type of operation. Other ports of the Nation have been engaged in such a program for from 5 to 20 years with most effective improvement of their competitive position.

It is the contention of the committee that the ports and terminals of San Francisco must continue to carry out such a cooperative program if they are to share in the over-all cargo prospects for this harbor region.

The protection and promotion of the over-all harbor region, covering San Francisco Bay and its inland navigable waterways, is one of the most important programs to be considered in the current growth of California.

A substantial share of the present and future wealth which this State must gain to hold its leadership and prosperity is expressed in terms of employment, revenues, and the marketing and distribution of California's products of factories and farms emanating from the State's

seaports—from Eureka to San Diego, and including San Francisco, Oakland, Stockton, Richmond, Alameda, Redwood City, Sacramento, Los Angeles, and Long Beach.

The Senate committee submits its partial report to the Legislature with the reservation that additional study must be carried out for the purpose of resolving the problems affecting world commerce and transportation moving through the San Francisco Bay Region which, in view of its highly competitive, intraport situation, calls for a firmly established, long-range program of unified traffic and trade protection and development.

The State of California as a whole, with special reference to the Northern California counties, share an important responsibility in this legislative approach to a permanent program of consolidated effort directed to world marketing of state products of industry and agriculture. The basic economy of the State is vested in these items of international commerce which contribute to the total volume of industrial and agricultural development, and to the revenues, employment and stabilized security of the State as a whole.

Four years of patient and consistent study, and a substantial amount of definite action have been the record of the Senate Fact-finding Committee on Ports Development, now preparing its preliminary recommendations to the 1955 Session of the California Legislature.

The past year has brought about the first concrete steps toward a unified harbor-wide program,\* in which the public ports and private terminals of the Northern California and San Francisco Bay region joined forces to sponsor a regional and national program aimed toward solution of traffic and transportation problems, and the expansion of trade development activities in world markets.

The following reports submitted by the San Francisco Bay Ports Commission and the Northern California Ports and Terminals Bureau, Inc., will indicate the progress being made toward permanent establishment of a program devoted to the regional harbor interests of California and the Bay Area.

These reports provide a brief summary of the steps being taken to advance the world trade and harbor traffic position of the ports and terminals of the region, including the navigable waters of San Francisco Bay and the San Joaquin River leading to the deep water port of Stockton.

It should be noted that the reports submitted by the bureau and the commission (established by the 1951 Legislature) partially fulfill some of the recommendations for action called for in the comprehensive report submitted to the 1951 Legislature by the Senate Port Committee. The current situation in the San Francisco harbor region shows certain progressive changes in the problems and trade status of the ports as developed in the conclusions and recommendations of the committee's 1951 report.

Recognition should be given to the steps taken by the State Harbor Board and by other ports and terminals in adopting the recommendations made by the Senate committee. The State Harbor Board joined

\* The Northern California Ports and Terminals Bureau, Inc.

with other public ports and private terminals of the harbor region to participate in the formation of the Northern California Ports and Terminals Bureau, as recommended by the San Francisco Bay Ports Commission.

This was a progressive action to merge the common interests of all Bay area and inland ports and terminals in a program that would establish a more competitive, and a better unified organization to meet the challenge of other United States harbor regions bidding for a greater share of world commerce.

The merger of public and private interests as established by the new bureau has already proved beneficial in the view of the Senate committee, despite the brief period of organization and operations covered since the organization was officially incorporated in February, 1954.

As a matter of official record, acting in accordance with Senate Resolution No. 146, 1953, establishing this committee of the Senate, this partial report will include certain other exhibits of an informative nature for the Legislature.

**OUTLINE REPORT ON ESTABLISHMENT AND ACTIVITIES  
OF THE SAN FRANCISCO BAY PORTS COMMISSION**

(February 14, 1952—February 11, 1954)

The establishment of the San Francisco Bay Ports Commission was based upon the recommendation of the Senate Fact-finding Committee on Establishing a Port Authority for San Francisco Bay which had conducted its study and issued two partial reports—later compiled into a single final report—to the 1951 Legislature. This Senate committee was established at the request of various San Francisco Bay regional organizations through a resolution (Senate Resolution No. 35, 1949) introduced by the late Senator Jesse M. Mayo of Calaveras, Mariposa and Tuolumne Counties.

Members of the Senate committee were:

Jesse M. Mayo, Chairman  
Arthur H. Breed, Jr., Vice Chairman, Alameda County  
Charles Brown, Mono, Inyo Counties  
George J. Hatfield, Merced, Madera Counties  
Ben Hulse, Imperial County  
Thomas F. Keating, Marin County (resigned November, 1950)  
Harold J. Powers, Lassen, Modoc, Plumas Counties  
Edwin J. Regan, Shasta, Trinity Counties

Present members of the Senate committee, including Senators Charles Brown, chairman, and Arthur H. Breed, vice chairman, are:

Gerald J. O'Gara, San Francisco County  
James J. McBride, Ventura County  
George Miller, Jr., Contra Costa County  
Robert I. Montgomery, Kings County  
Jess R. Dorsey, Kern County

Their surveys, hearings and inspection trips to major United States harbor regions resulted in one of the most comprehensive reports ever

issued on San Francisco Bay's ports, shipping and maritime industries. The report also recommended the establishment of a harbor regional organization and program to stimulate trade development, and urged establishment of a joint industry-wide nine-member body to cooperate with the Senate committee in achieving the regional program objective.

The Interim San Francisco Bay Ports Commission was established under the terms of Senate Bill No. 610—Chapter 737, 1951 Legislature, as recommended by the Senate committee.

The nine members of the commission were appointed by Governor Earl Warren on January 30, 1952, as follows:

John E. Cushing, President, Oceanic Steamship Company, San Francisco

Harry Johnson, Assistant Secretary, The Sailors Union of the Pacific, San Francisco

Warren H. Atherton, attorney, Stockton

W. P. Fuller Brawner, Board of State Harbor Commissioners, San Francisco

B. J. Feigenbaum, President, Board of State Harbor Commissioners, San Francisco

Dudley W. Frost, Manager and Secretary, Port of Oakland

Lester J. Holmes, Manager, American Crystal Sugar Company, Clarksburg

Charles P. Howard, Sr., President, Howard Terminal, Oakland

Fred D. Parr, Chairman of the Board, Parr-Richmond Terminal Company, Richmond

The organization meeting of the commission was held on February 14, 1952, at which time Mr. John E. Cushing was elected chairman, and Mr. Harry Johnson, vice chairman.

A mutual agreement was made between Mr. Cushing and Senator Mayo, then chairman of the Senate committee, to employ the services of Frank E. Feliz, executive secretary of the Senate committee, in a similar position with the commission on a cooperative basis. Joint offices were established at 785 Market Street, San Francisco.

A joint meeting of the Senate committee and the commission was held on June 6, 1952, at which time it was agreed that the commission should conduct studies and complete a report recommending the type of harbor-wide voluntary organization which would most effectively serve the over-all trade development interests of the public ports and private terminals of the Bay region and Northern California.

The commission and staff proceeded with an extensive series of meetings, interviews, research and other activities directed toward this assignment, utilizing the counsel and assistance of national, state and local organizations and individual authorities in the fields of port administration, shipping, traffic and related fields.

Preliminary drafts of the commission's initial report to the Legislature (Part I) were circulated for comment and approval, and the final draft was submitted to the 1953 Legislature on January 12th. The report contained the recommendations for establishment of a Northern California Ports and Terminals Bureau, and outlined the proposed organization program, suggested methods for financing, staffing and purposes of organization operations.

Upon advice of the Legislative Counsel and the Office of the Attorney General, it was considered advisable to introduce legislation authorizing establishment of the quasi-public type of nonprofit corporation embodied in the commission's report. This required two legislative acts; an amendment to the State Corporations Code—as submitted in Senate Bill No. 872, and an amendment to the State Harbors and Navigation Code—as submitted in Senate Bill No. 873.

These two authorizing bills were introduced at the January session, and after several amendments, were unanimously approved by the Legislature and signed by the Governor (July 1, 1953—Senate Bill No. 872; July 4, 1953—Senate Bill No. 873). With this legislation, the public ports were empowered to participate in and financially sponsor the type of nonprofit corporation specifically outlined in the permissive legislation, and to join with public or private organizations in sponsoring such a program.

This legislation became effective on September 10, 1953, and the commission then called a joint meeting of the major public ports and private terminals of the San Francisco Bay and inland river points to inaugurate plans for the establishment of the Northern California Ports and Terminals Bureau. Subsequent meetings were held to discuss, recommend and reach agreement on the content of the articles of incorporation and the by-laws, with the assistance of the attorneys for the member ports and terminals.

The bureau's certificate of incorporation was issued by Secretary of State Frank M. Jordan on Friday, January 29, 1954. The first meeting of the bureau as a corporate organization on February 2d signified the completion of steps proposed in the recommendation made by this commission in its first report to the Legislature (Part I) endorsing and outlining the bureau organization and program.

The four public ports and three private terminals sponsoring the bureau organization are:

California State Harbor  
Board  
Port of Oakland  
Sacramento-Yolo Port  
District

Port of Stockton  
Encinal Terminals, Alameda  
Howard Terminal, Oakland  
Parr-Richmond Terminal  
Company, Richmond

The board of directors of the bureau with their elected officers follows:

President—Charles P. Howard, President, Howard Terminal, Oakland; First Vice President—E. E. Ferrari, Director, Port of Stockton; Second Vice President—General Robt. H. Wylie, Director, Port of San Francisco; Treasurer—John Parr Cox, President, Parr-Richmond Terminal Company; D. L. Dullum, President, Encinal Terminals, Alameda; Dudley W. Frost, Manager, Port of Oakland; Wm. G. Stone, Director, Sacramento-Yolo Port District.

The board of directors appointed Frank E. Feliz as general manager and secretary. Plans are being made for appointment of a traffic manager and selection of specific projects to be undertaken by the bureau in

its activities to stimulate cargo movements through the Bay region's harbor facilities.

In addition to its report to the Legislature recommending establishment of the bureau, the commission also sponsored two factual studies of domestic waterborne shipping which has registered heavy declines in tonnage in recent years to the detriment of the ports, terminals and maritime industries of the State and region. These reports are as follows:

"A Report on Interoceanic Shipping Problems—With Special Reference to the San Francisco Bay Ports Area." Prepared by J. A. Stumpf, maritime industry consultant of New York City, this report outlines the causes, effects and possible remedies for the losses in cargo tonnage in this once thriving trade route linking the Pacific ports with the Gulf and Atlantic ports via the Panama Canal. Its recommendations for a program to restore the interoceanic trade have received nation-wide attention by key organizations in industry and government.

"A Report on Pacific Coastwise Shipping—With Special Reference to the San Francisco Bay Ports Area." Prepared by R. F. Burley, West Coast shipping official, this report provides a case-study giving the factual background of this once highly active and profitable trade between Pacific Coast ports, and the situations and reasons leading to its decline and virtual disappearance as a means of transporting goods between the three Western seaboard states. Its conclusions point to the regional shifts in industry; the technological gains in land transport via rail and highway; and the legislative and governmental agency decisions which have made a profitable coastwise trade untenable and unprofitable. The coastwise report provides evidence that this trade cannot seemingly be restored without shipper demand based upon a new type of lower cost shipping operation that could provide transport service at a profit.

The commission is also preparing a factual and graphic report on the facilities, services and resources of the over-all harbor region, including the diversified port and terminal operations located on San Francisco Bay and on the San Joaquin and Sacramento Rivers. Consideration of other studies in the foreign trade routes served from California ports has been deferred pending development of the program being sponsored by the new bureau.

Northern California Ports and Terminals Bureau, Inc.

#### FIRST YEAR PROGRESS REPORT

February 25, 1955

First year progress in harbor traffic and trade development was reported February 25, 1955, by the Northern California Ports and Terminals Bureau at a joint meeting of bureau board of directors with John E. Cushing, chairman, and members of the San Francisco Bay Ports Commission, at the Ferry Building, San Francisco.

The bureau was established in February, 1954, as the first cooperative harbor organization of its type in California. Its twofold aims are:

1—To foster an intensive program of research and action to increase tonnage through the harbor region, and;

2—To advance the protect the competitive trade and traffic advantages of the Bay Area ports.

The sponsors include the Ports of San Francisco, Oakland, Stockton, and the Parr-Richmond Terminal operating the Port of Richmond, Howard Terminal of Oakland, Encinal Terminals of Alameda and the Sacramento-Yolo Port District.

Charles P. Howard, bureau president, reported that, "the bureau has laid the foundation for bringing new cargo tonnage to the Bay region and Northern California through direct analysis of world trade commodity movements and positive action on rate and service adjustments needed to induce traffic through the Golden Gate."

John E. Cushing, chairman of the San Francisco Bay Ports Commission established by the 1953 Legislature to represent all Northern California port communities, stated, "commission members are impressed by the progress of the bureau to date, fully realizing that the common interests and problems of the over-all harbor region are not readily adapted to solution in a brief period."

Ward G. Walkup, president, and Dwight Merriman, member of the California State Board of Harbor Commissioners, participated in the joint meeting representing the interests of the Port of San Francisco, a bureau sponsor.

Highlights of the bureau's first progress report of activities covering initial operations were given by Frank E. Feliz, bureau general manager, and James H. Morrison, traffic manager.

"The scope of the bureau's activities now covers traffic and rate matters affecting the maritime industry on a regional and national scale where such problems affect the harbor's trade interests. On such questions the bureau presents the unified views of its sponsors and the interests of the Northern California port communities and trade area," Mr. Feliz said.

The first year accomplishments of the bureau included:

Appearances before the Public Utilities Commission, the Interstate Commerce Commission, and other regulatory bodies in support of traffic proposals which served to induce tonnage movements to the Bay region. Conversely, protests were entered against traffic and rate adjustments which would have reduced the present trade advantages of the harbor region.

In pursuance of this phase of its activities, the general manager appeared before the Congressional House Committee on Merchant Marine and Fisheries, and presented evidence showing the necessity of a continuing program of commercial shipbuilding and repair to support a healthy maritime trade in the Pacific area as related to the San Francisco Bay area.

The traffic manager testified in support of California ports in the important ICC class rate hearings held in the Midwest and Washington, D.C., scheduling meetings with major shippers in these trade centers.

Acting in cooperation with the American maritime industry, directors adopted a resolution endorsing congressional adoption of legislation calling for equitable adjustment of Panama Canal tolls which now adversely affect shipping and world trade.

Special surveys were submitted to the Transportation Committee of the Hoover Commission on the volume of cargo traffic handled by the military terminals located in Northern and Southern California. This was a documented protest by public ports and private terminals of California against the increasing volume of government cargoes handled over military terminals which, under normal operations should move over commercial facilities available for this purpose.

Preliminary legislation was introduced before the 1955 Session of the Legislature in the form of a "State Harbor Fund" providing for the allocation of 10 percent of the state tidelands fund for purposes of development of California harbors and commercial navigation. This legislative proposal is being analyzed for required amendments involving policies for allocation of funds.

A special report was submitted concerning recommendations for the "Revival of Interoceanic Shipping" to Secretary Sinclair Weeks of the Department of Commerce and Louis Rothschild, Chairman of the Federal Maritime Board.

The bureau is cosponsor of the Second Annual Foreign Trade and Transportation Institute which is expected to attract a large number of shippers, traffic and carrier officials from Midwest and Northern California regions.

The bureau staff report covered technical aspects of traffic services, including competitive factors of cargo rates, tariffs and other costs involved in moving cargoes in world trade.

Acting on a unified basis for Bay region and inland ports and terminals, the bureau has made headway in establishment of a cooperative program covering four major points: (1) traffic protection, (2) trade development, (3) research into commodity movements and competitive port practices, and (4) special projects in industrial and governmental maritime activities including legislation, which are approved by the bureau directors for study and action.

The bureau staff's work has been directed to securing and improving tonnage prospects for the harbor region. All factors, including rate and traffic protection, surveys of services and commodity volumes, and special projects in the maritime industry and governmental activities, are measured by their ultimate effect on the competitive position of the over-all harbor region.

Oceanborne cargo targets for the bureau's 1955 program not only include present leaders on the West Coast export-import list, such as cotton, coffee, canned and dried fruits, and iron and steel products, but is also expanding into vital U. S. export products such as farm and construction machinery, automobiles, dairy and meat packing items which are in demand in world markets.

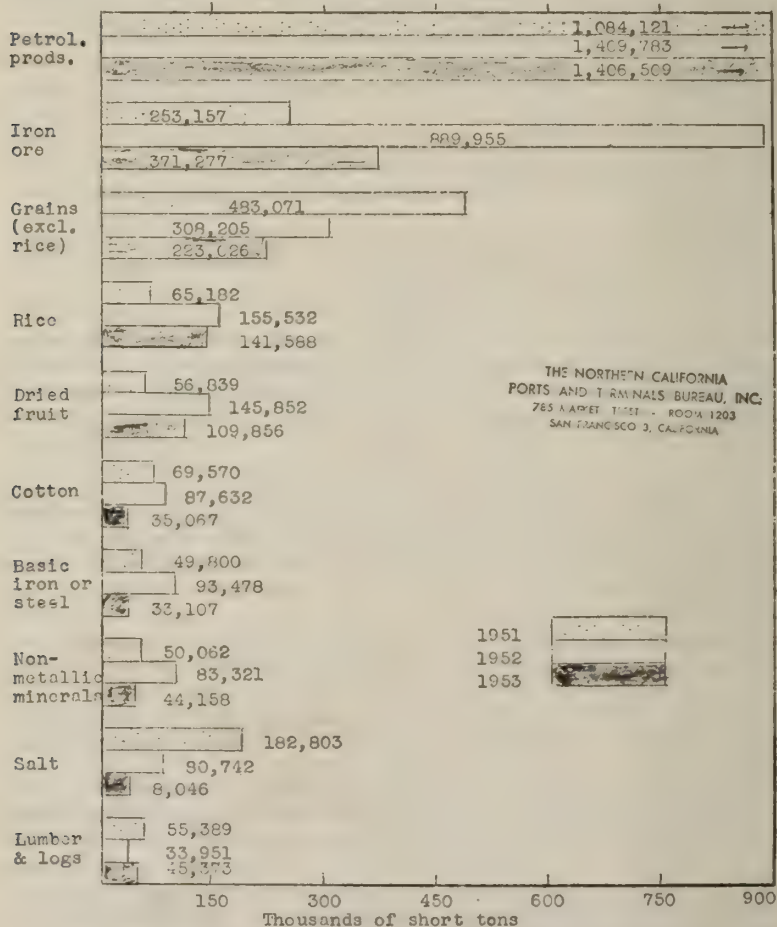

Shippers and traders and foreign and domestic transportation are invited to submit their problems in traffic movements via the Pacific Coast and Bay region, or to any overseas markets which could be served through the Western seaboard. A national survey of foreign shipper operations and problems is being conducted by the bureau, which has also held meetings with shippers and carriers in the Midwest and Washington, D. C.

The bureau's 1955 program policy calls for an intensive effort to determine "reasons why" cargoes are moving through certain port areas or via other methods of transportation. This plan calls for a fact-finding job of study and recommendations aimed toward:

(1) Increasing the volume of cargo tonnage moving to and from Bay region and inland ports and terminals by

(2) Taking action on traffic problems and trade development projects that will benefit the entire Northern California harbor region.

SENATE FACT-FINDING COMMITTEE ON PORT DEVELOPMENT  
AGENCIES AND MARINE ACTIVITIES FOR SAN FRANCISCO  
BAY AND STATE WATERWAYS

*Memo:* Proposals for 1955 Legislative Session  
*Subject:* Establishment of State Harbor Fund

The following amendments to existing State codes have been proposed for the purpose of assisting the public ports of California in their programs to develop maritime commerce, world trade and facilities of the State's major harbor regions which will assure increased revenues, employment and other benefits for the people of California:

Amendment to Section 6816 of the Public Resources Code, relating to the State Harbor Fund;

An act to add Section 6945 to the Harbors and Navigation Code, relating to the State Harbor Fund and making an appropriation.

*Purpose*—Under provisions of the Constitution, the primary use of state tidelands and their resources is reserved for the development of harbor commerce and navigation, thereby guaranteeing the proper utilization of such properties for long-range growth and improvement to serve the people of the State.

It seems reasonable and equitable, therefore, that the public harbors of California should participate in the revenues derived from tidelands development to be allocated through appropriate state agencies to assist the port communities.

In brief, these proposals would provide an equitable allocation of 10 percent of tideland funds to be held in the recommended State Harbor Fund, subject to release upon authorization by the appropriate state agency and/or the Legislature.

*Reasons for Support*—The State of California has given only limited assistance, and practically no financial support, to the development of the harbors which provide the commercial gateways for the marketing of state products and commodities from California's agricultural and industrial resources in world markets. California ports are also Western America's gateways for world exports and imports contributing to our national welfare.

With due regard for the present allocation of such funds under state law, there should be widespread support to establishment of a State Harbor Fund which would provide a limited reserve for development of public ports, and for development of commerce and trade protection measures that will maintain and preserve the competitive position of California ports among the Nation's harbor regions.

It should be pointed out that specific State Government assistance is given to many public ports in other states of the Nation. As an example, the State of Louisiana allocates nine-twentieths of a cent per gallon from all gasoline taxes collected to the support of the Port of New Orleans, which has progressed in recent years to a position as one of the Nation's leading seaports in world commerce.

The proposed amendments to existing codes have been given appropriate review by the Office of the Legislative Counsel and the Office of the Attorney General as being in accord with existing statutes. Their adoption would provide a limited reserve fund for the development of

California ports and commerce, including related interests in transportation, industrial and agricultural fields—a large percentage of whose revenues and employment are derived from domestic and foreign trade.

All California public ports and harbor communities have been included in this proposal in order to secure the state-wide support essential to approval by the Legislature. In all cases calling for appropriations from State Harbor Funds the interests of inland harbor regions, as well as coastal harbor regions, will be given full consideration by the appropriate agencies of State Government. Similar consideration will be given to the use of the State Harbor Fund in developing potentials for production and marketing of raw materials derived from California's natural resources, including lumber, mineral ores, cement, borax, etc., and the products of California's factories and farmlands which are in demand throughout the world.

The State of California has heretofore taken only a minor part in the research, planning and development required to find more effective national and international outlets for the State's productive wealth. These proposed amendments will reaffirm the State Government's interest and responsibility in working with harbor regions and communities and their rural production and trade areas, and with the local civic and trade groups, to provide a progressive, integrated program of stabilized employment and economy in domestic and world commerce.

The above proposals are submitted for your consideration, and are hereby recommended for approval and adoption at the 1955 General Session of the Legislature.

35402.1. As an alternate procedure to that prescribed in Sections 35400 and 35402, the legislative body may issue bonds as provided in this part when the city has contracted or obtained options for the purchase of, or has obtained condemnation judgments covering, that portion of the land, property and rights of way to be acquired having an assessed value as shown on the last equalized assessment roll of at least 80 percent of the assessed value of all land, property and rights of way to be acquired. Before issuing bonds under this section the legislative body shall give notice of its intention to do so by two insertions in the newspaper in which the resolution of intention was published. Said notice shall specify a time for hearing objections to proceedings under this section which shall not be less than ten (10) days after the completion of such publication. At said hearing the legislative body shall hear and pass upon all objections and shall not issue bonds under this section unless following such hearing it shall determine that all of the territory within the district will be benefited by the acquisition of that portion of the land, property and rights of way which the city so has under contract, option or condemnation judgment. The decisions of the legislative body shall be final and conclusive. The legislative body may then by ordinance, resolution or indenture provide for the issuance of bonds of the district in an amount estimated to be necessary to make all of the proposed acquisitions and improvements and to pay the additional items specified in Section 35402.

SEC. 11. Section 35402.2 is added to said code, to read:

35402.2. If at any time the legislative body finds that the proceeds of the bonds first issued will be insufficient to make all of the acquisitions and improvements described in the ordinance declaring the district formed and to pay the additional items specified in Section 35402, it may at one time or from time to time issue additional bonds to the extent permitted by the provisions, conditions and covenants contained in the ordinances, resolutions or indentures providing for the issuance of any bonds previously issued.

SEC. 12. Section 35402.3 is added to said code, to read:

35402.3. If at any time, either before or after issuing bonds, the legislative body finds that it will not be feasible to issue bonds in an amount necessary to make all of the acquisitions and improvements described in the ordinance declaring the district formed and to pay the additional items specified in Section 35402, it may at one time or from time to time eliminate, change or otherwise modify any of the proposed acquisitions and improvements after notice and hearing as provided in Sections 35270 to 35273 but no such elimination, change or modification shall be made unless following such hearing the legislative body shall determine that all of the territory within the district will be benefited by the acquisitions and improvements remaining after such elimination, change or modification. The decisions of the legislative body shall be final and conclusive.

SEC. 13. Section 35404 of said code is amended to read:

35404. The bonds shall all mature within [30] 35 years after the date thereof and shall be payable at the times and at [a] the place to be fixed by the legislative body and designated in the bonds.

35411. The bonds shall state in substance that:

(a) The bond and interest are payable solely from:

(1) The *gross or net (as the case may be)* revenues from the operation of the parking place or places acquired and improved [with] *by the proceeds, if such is the case.*

(2) The net revenues, or a portion thereof, from parking meters on certain public ways within the district, if such is the case.

(3) To the extent provided in this part, from a limited (stating the limits) ad valorem assessment to be levied upon taxable real property in the district, if such be the case.

(b) Neither the city nor any of its officers is to be held otherwise liable for its principal or interest.

SEC. 15. Section 35412 of said code is amended to read:

35412. The ordinance, resolution, or indenture providing for the issuance of the bonds may also provide for the maintenance and operation of the parking facilities, for the establishment of a special fund into which all revenues derived from the operation of the parking facilities shall be placed, *for the use of moneys in this fund* for payment [from this fund] of the expenses of operating and maintaining the parking places, [and for the allocation and pledge of the remaining revenues to] the payment of the bonds and the interest thereon, *or for the establishment and maintenance of any reserve funds, sinking funds or other funds designed for securing or paying the bonds and the interest thereon.*

SEC. 16. Section 35413 of said code is amended to read:

35413. The ordinance, resolution, or indenture providing for the issuance of the bonds may also provide for the installation of parking meters on the public ways within the district as provided in the resolution of intention, to the extent they have not already been installed, for the maintenance of meters on the public ways for the period of time specified in the resolution of intention, for the establishment of a special fund into which the net revenues (or portion thereof as specified in the resolution of intention) shall be paid, and for the allocation and pledge of the net revenues, or portion thereof, to the payment of the bonds and the interest thereon, *to the payment of operation and maintenance costs of the parking facilities, and to the establishment and maintenance of any reserve funds, sinking funds or other funds designed for securing or paying bonds and the interest thereon.*

SEC. 17. Section 35414.1 is added to said code, to read:

35414.1. If the petition for the formation of a district and the resolution of intention to form the district state that this section shall apply to proceedings taken pursuant thereto, the ordinance, resolution or indenture providing for the issuance of the bonds may, in lieu of the provision permitted by Section 35414, provide for the levy each year of an ad valorem assessment on all taxable real property in the district to provide moneys for all or any part of the principal and interest on the bonds, the costs and expenses of operating and maintaining the parking places, and the establishment or maintenance of any reserve funds, sinking funds or other funds designed for securing or paying the bonds and interest thereon. The rate of ad valorem assessment shall be fixed by the legislative body each year so as to produce the sums required under such provisions, provided that the assessment shall not exceed the limits stated in the resolution of intention. The assessment shall be levied, collected and enforced in the same manner, at the same times, and with the same penalties and interest, as in the case of taxes levied for the city.

SEC. 18. Section 35418 of said code is amended to read:

35418. Any provision of the ordinance, resolution, or indenture, except a provision as to the amount [of] or time of payment of principal or interest on the bonds, may be later eliminated or modified by the legislative body, if the holders of not less than sixty percent (60%) of the outstanding bonds have agreed in writing to the elimination or modification.

SEC. 19. Section 35423 of said code is amended to read:

35423. The proceeds of the sale of the bonds shall be placed in the city treasury to the credit of the proper district fund and applied exclusively to the objects and purposes [mentioned in the ordinance establishing the district, or to the objects and purposes as modified pursuant to Section 35401, and the payment of the incidental expenses in connection therewith] *for which the same were issued.*

SEC. 20. Section 35560 of said code is amended to read:

The commission [shall] *may* fix, regulate, and collect rentals, fees, or other charges for the [parking of vehicles in] *use of* parking places under its control, and may provide different rates for different classes of customers, or users, *provided that such rentals, fees or other charges shall be sufficient to produce funds to comply with the terms of the ordinance, resolution, or indenture providing for the issuance of bonds.* Such rentals, fees, or other charges shall be fixed after public hearing following such notice as the commission may prescribe.

SEC. 21. Section 35565 of said code is amended to read:

35565. The commission shall fix such rentals, fees, or charges *for the use of parking places under its control* as will produce [sufficient] revenue, when added to the expected revenues from *on-street* parking meters pledged to [the payment of

the bonds of the district] *any of the purposes specified in this part, sufficient to pay the principal and interest on the bonds as they fall due, and also to provide any additional sums which may be required under the provisions of the ordinance, resolution or indenture providing for the issuance of the bonds* [to call and retire prior to maturity any bonds which, under the provisions of the ordinance, resolution, or indenture providing for the issuance of the bonds, are to be called and retired prior to maturity if revenues are sufficient to make such call].

SEC. 22. Section 35566 is added to said code, to read:

35566. If the petition for the formation of a district and the resolution of intention to form the district states that this section and Section 35414.1 shall apply to proceedings taken pursuant thereto, Section 35563 shall not apply and the provisions of this section shall apply. The commission shall fix such rentals, fees or other charges for the use of parking places under its control as will produce revenue, when added to the expected revenues from on-street parking meters, assessments or other sources pledged to any of the purposes specified in this part, sufficient to pay the principal and interest on the bonds as they fall due, and also to provide any additional sums which may be required under the provisions of the ordinance, resolution or indenture providing for the issuance of the bonds.

The consideration to be paid by the operator for any lease or under any contract may be a fixed sum or a percentage of gross rentals, fees, or charges collected by the operator, or any other consideration. *As used in this part, "use of parking places", "operation of public parking facilities on parking places", "operation of public parking facilities", and "used as public parking places", or similar term, include the operation of facilities for sale of gasoline and oil and for automobile repair, servicing, greasing, washing, polishing and other similar purposes; provided, that the area used for such purposes is not then required for public parking purposes and; provided further, that the area so used shall not exceed in the aggregate, twenty percent (20%) of the surface area of any parking place.*

SEC. 24. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The constantly increasing traffic congestion in the State of California and particularly in its urban areas brings death or injury to many persons each day. Traffic congestion detrimental to the public safety is in some measure caused by the inability of the operators of motor vehicles to find quickly and easily a place to park. The provisions of this act are necessary to expedite the formation of parking districts to provide parking places in such congested areas and it is therefore necessary that this act take effect immediately."

##### Amendment No. 2

On page 1, strike out lines 1 to 12, inclusive, and insert

"SECTION 1. Section 4226 of the Agricultural Code is amended to read:

4226. Class 1 comprises any fluid milk, *fluid skim milk*, or [the] *fluid cream* [therefrom] that is supplied to consumers as market milk, *market skim milk*, or market cream or concentrated milk or any combination of market milk, *market skim milk*, and market cream, or any market milk which is not packaged in hermetically sealed containers, or any other dairy product in which the use of market milk or *fluid skim milk* is required by the provisions of this code, or any fluid milk, *fluid skim milk*, or [the] *fluid cream* [therefrom] which is used in standardizing market milk.

SEC. 2. Section 4230 of said code is amended to read:

4230. In designating and prescribing or providing methods for designating and prescribing minimum price to be paid by distributors to producers for Classes 1, 2 or 3 fluid milk, the director may take into consideration the market price of all milk which may be used for the same purposes set forth in such respective classes[.]; *but in no event shall any distributor pay producers or any association of producers less than the Class 1 price for all usages required by the provisions of this code to be comprised of market milk, market cream, or market non-fat or fluid skim milk, as such usages are defined in Section 4226; and no payment shall be made by distributors to producers or any association of producers of prices lower than those established in the applicable stabilization and marketing plan.*

SEC. 3. Section 4231 is added to said code, to read:

4231. In determining the prices to be paid by distributors to producers or associations of producers for Class 1 usage, the director may establish prices for the cream and skim milk components of such milk which prices, when added together, may be less but shall not be more than the price of fluid milk established for the marketing area where the components are sold. But in no event shall such prices be lower than the prices established for cream and skim milk which have been separated from fluid milk received as whole milk and separated in the area where sold, less the applicable plant charges and the transportation charges for such cream or skim milk in effect between the areas of separation and sale.

SEC. 4. Section 4247 of said code is amended to read:

4247. The director [may] *shall* prescribe minimum prices to be paid by distributors for fluid cream and *fluid skim milk* in accordance with a stabilization and marketing plan; provided, that the *director finds that such prices will tend to effectuate the purposes and policy of this chapter and will insure consumers a sufficient quantity of pure and wholesome cream.* The prices so prescribed shall be based upon the economic relationship of the price of fluid cream for the marketing area involved to the price of manufacturing milk, taking into consideration the additional costs incurred in producing and marketing fluid cream over and above such costs incurred in producing and marketing manufacturing milk.

SEC. 5. Sections 4272 and 4291 of said code are repealed.

SEC. 6. Section 4280 of said code is amended to read:

4280. Each stabilization and marketing plan shall contain provisions for prohibiting distributors and retail stores from engaging in the unfair practices herein-after set forth:

(a) The payment, allowance or acceptance of secret rebates, secret refunds, or unearned discounts by any person, whether in the form of money or otherwise.

(b) The giving of any milk, cream, dairy products, services or articles of any kind, except to bona fide charities, for the purpose of securing or retaining the fluid milk or fluid cream business of any customer.

(c) The extension to certain customers of special prices or services not made available to all customers who purchase fluid milk or fluid cream of like quantity under like terms and conditions.

(d) The false or misleading advertising of fluid milk or fluid cream as defined in Section 17500, 17501, and 17502 of the Business and Professions Code.

(e) The purchase of any fluid milk in excess of 200 gallons monthly from any producer or association of producers unless a written contract has been entered into with such producer or association of producers stating the amount of fluid milk to be purchased for any period. The quantity of such milk to be paid for as Class 1 in pounds of milk or pounds of milk fat or gallons of milk, and the price to be paid for all milk received, but in any marketing area where an equalization pool is a part of a stabilization and marketing plan, such contract need not specify the quantity of milk in any one class. The contract shall also state the date and method of payment for such fluid milk, which shall be that payment shall be made for approximately one-half of the milk delivered in any calendar month not later than the first day of the next following month and the remainder not later than the fifteenth day of said month, the charges for transportation if hauled by the distributor, and may contain such other provisions as are not in conflict with this chapter, and shall contain a proviso to the effect that the producer shall not be obligated to deliver in any calendar month fluid milk to be paid for at the minimum price for fluid milk that is used for Class 3, as said class is defined in Section 4228. A signed copy of such contract shall be filed by the distributor with the director within five days from the date of its execution. The provisions of this subdivision relating to dates of payment shall not apply to contracts for the purchase of fluid milk from nonprofit cooperative associations of producers.

(f) The purchasing, processing, bottling, transporting, delivering or otherwise handling in any marketing area of any fluid milk or fluid cream which is to be or is sold or otherwise disposed of by such distributor at any place in the geographical area within the outer, outside and external boundaries or limits of such marketing area, whether such place is a part of the marketing area or not, at less than the minimum wholesale and minimum retail prices effective in such marketing area.

(g) The payment by a distributor to any producer, including any association of producers, or the receipt by a producer, including any association of producers, from a distributor, of a lesser price [by a distributor to any producer] for any fluid milk or fluid cream which is distributed to any person, including agencies of the federal, state or local government, located upon property within the geographical limits of any marketing area for less than the minimum prices established by the director to be paid by distributors to producers for fluid milk, or the milk fat and skim milk contained therein, or fluid cream for said marketing area. The prohibitions of this section with respect to fluid milk shall apply whether or not such fluid milk is received by the distributor as whole milk, or as skim milk and fluid cream, or either, or as any other derivatives of such fluid milk, and whether or not a fluid cream plan has been established for the marketing area.

SEC. 7. Section 4292 of said code is amended and renumbered to read:

[4292.] 4283. Each such plan [may] shall contain provisions whereby the director [may] shall provide methods for the establishment of minimum prices for fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream received within a marketing area regardless of whether such fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream is subsequently sold or distributed within or without such marketing area or within or without the jurisdiction of the State of California. Such stabilization and marketing plans [may] shall provide for the establishment of prices for fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream whether or not such fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream is subsequently sold or distributed in another marketing area within the State of California where a stabilization and marketing plan is in effect. The stabilization and marketing plan [may] shall provide that producers shall be paid not less than the minimum prices established for the marketing area wherein such fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream is ultimately sold or distributed, and [may] shall further provide that in the event such fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream is subsequently sold or distributed in any place within the jurisdiction of the State of California where no stabilization and marketing plan is in effect, then such fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream [may] shall be paid by the distributor to the producer thereof at not less than the average [price] of prices paid by distributors to producers for fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream [of similar grade and quality] at the plants in the nearest marketing areas adjacent to the area where such fluid milk, fluid cream, fluid skim milk, or fluid milk for fluid cream is sold or distributed as established by the stabilization and marketing plans in effect in such adjacent marketing areas [in the vicinity where such fluid milk or fluid milk for fluid cream is sold or distributed, as such prices are determined by the director from contracts required to be filed with him pursuant to Section 4280].

SEC. 8. Section 4294.5 of said code is amended and renumbered to read:

[4294.5.] 4282. Each such stabilization and marketing plan [may] shall contain provisions whereby the director designates and prescribes or provides methods for designating or prescribing minimum prices to be paid by distributors to producers for fluid milk which is received by a distributor in one marketing area and separated in that area into fluid cream and fluid skim milk when such fluid cream or fluid skim milk or both are transported for utilization into another marketing area or into a locality in which no stabilization or marketing plans is in effect. [This section] Sections 4247, 4282, and 4292 shall not be construed to affect the provisions of this chapter relating to the establishment of minimum wholesale and minimum retail prices for fluid cream.

SEC. 9. Section 4355 of said code is amended to read:

4355. In determining minimum wholesale and minimum retail prices for any marketing area, the director shall take into consideration the following economic factors operative in such marketing area in addition to other matters required by this chapter to be taken into consideration by him:

(a) The quantities of fluid milk or fluid cream, or both, distributed in such marketing area.

(b) The quantities of fluid milk or fluid cream, or both, normally required by consumers in such marketing area.

(c) The cost of fluid milk, *fluid skim milk*, or fluid cream, [or both,] in such marketing area to distributors and retail stores, which in all cases shall be, respectively, the prices paid by distributors to producers and the minimum wholesale prices, as established pursuant to this chapter. *The prices paid by distributors to producers as established pursuant to this chapter shall also be considered as the cost of fluid milk, fluid skim milk, or fluid cream to any association of producers, or other cooperative association, incorporated or unincorporated, engaged in the distribution of fluid milk, fluid skim milk, or fluid cream.*

(d) The reasonable cost of handling fluid milk or fluid cream, or both, incurred by distributors and retail stores, respectively, including all costs of hauling, processing, selling and delivering by the several methods used in such marketing area in accomplishing such hauling, processing, selling and delivery, as such costs are determined by impartial audits of the books and records, or surveys, or both, of all, or such portion of the distributors and retail stores, respectively, of each type or class in such marketing area as are reasonably determined by the director to be sufficiently representative to indicate the costs of all distributors and retail stores, respectively, in such marketing area."

17750. This chapter shall be known as "The Trading Stamp Act of 1955."

17751. The Legislature hereby declares that the issuance, gift, use, sale or other disposition of trading stamps is affected with the public interest; that the purposes of this chapter are to regulate the issuance, gift, use, sale or other disposition of trading stamps, to protect the public against fraud and deception and against default in the redemption of trading stamps, to foster and encourage fair and open competition and to prevent the realization of excessive profits at the expense of the public by those who are engaged in or responsible for the original issue, gift, use, sale or other disposition of trading stamps which results from the fact that many trading stamps are never produced and surrendered for redemption. This chapter shall be liberally construed so that its beneficial purposes will be achieved.

17752. As used in this chapter:

- (a) "Person" includes firm or corporation.
- (b) The masculine gender includes the feminine and neuter genders.
- (c) "Goods" means and includes any form of tangible personal property.
- (d) "Trading stamps" means and includes any form of stamp, cash discount stamp, coupon, ticket, certificate, card, receipt or any similar device or devices, which is, either directly or indirectly, issued, sold, given or otherwise furnished or delivered by any person to any other person in connection with or as a part of the sale and purchase of any goods or services or which is designed or intended to be used for such purpose and which entitles the purchaser receiving the same with such sale and purchase of goods or services, or the holder thereof, to procure or otherwise receive from any person money, goods or any thing of value, free of or without charge, or for less than the face value of such money, or for less than the actual or stated retail market price or value of such goods or thing of value, as the case may be, upon the production or presentation of any number or a stated number of said stamps, cash discount stamps, coupons, tickets, certificates, cards, receipts or other similar devices; but an offer made or endorsed by a manufacturer upon, as a part of or within the original wrapper or container in which goods are sold, of a premium or a reward for the return to the manufacturer of such goods or any dealer in such goods of all or any part of that wrapper or container or any coupon placed in or attached to such wrapper or container is not a trading stamp.

**Article 2. Regulations**

17755. No person shall issue, give, use, sell or otherwise distribute or furnish, or offer to issue, give, use, sell or otherwise distribute or furnish trading stamps, unless said trading stamps shall have legibly printed or written upon the faces thereof the redeemable value thereof, expressed in cents or fractions of cents, as the case may be. The redeemable value so printed or written upon the face of each trading stamp shall not be less than the actual value of such stamp, as determined by the issuer, for premium redemption purposes. Such printed or written value shall be regarded as the stated value of such stamp for the purposes of this chapter.

17756. Any person who issues, gives, sells or otherwise distributes or furnishes any trading stamp to any merchant or dealer in goods or any supplier of services, shall, upon production thereof, redeem the same either in tangible personal property, or in cash in good and lawful money of the United States of America, at the option of the holder thereof, and any number of such trading stamps shall be so redeemed at the value in cents or fractions of cents printed upon the faces thereof, and it shall not be necessary for the holder thereof to have or present for redemption any stipulated number of such trading stamps before demand for redemption may be made, if the aggregate stated value of said stamps is not less than one cent.

17757. Any person engaged in any trade, business or calling who gives, distributes, delivers or furnishes to any person dealing with him, in consideration of or in connection with the sale of any tangible personal property, service or output of a service trade, any trading stamp shall, upon the refusal or failure of the person responsible for the original issuance or sale of the same to redeem the same as provided in Section 17756, be liable to the holder thereof for the stated value thereof, and shall, upon presentation, redeem the same either in tangible personal property, or in cash in good and lawful money of the United States of America, at the option of the holder thereof, and in such case any number of such trading stamps shall be so redeemed at the value in cents or fractions of cents printed upon the faces thereof, and it shall not be necessary for the holder thereof to have or present for redemption any stipulated number of such trading stamps before demand for redemption may be made, if the aggregate stated value of said stamps is not less than one cent.

17758. Each person operating a store, office or other place of business at or from which trading stamps are issued, given, used, sold or otherwise disposed of in connection with the sale of tangible personal property, services or the output of a service trade, shall place and maintain, in a conspicuous position in such store or place of business, a clear and legible sign bearing the words "Trading Stamps Not Good if Not Redeemed Within One Year From Printed Date of Issue." All books and other devices furnished for the collection of trading stamps by holders thereof shall also bear or contain a similar statement which shall appear in bold type in a conspicuous place on each such book or other device.

17759. From and after the effective date of this chapter, each trading stamp thereafter issued, given, used, sold or otherwise disposed of within this State which is not presented for redemption and redeemed within one year after its date of issue shall thereupon become unclaimed property and all rights of the holder of such stamp shall revert and belong to the State and the holder of such stamp shall no longer possess or have any rights under or by reason of any such stamp. In order to carry out and enforce the foregoing reversion and escheat provisions, each trading stamp issued, given, used, sold or otherwise disposed of after the effective date of this chapter shall have printed legibly on its face the date of issue (which date shall not be later than the date on which it is issued, given, used, sold or otherwise distributed in, with or for the sale of any goods or services) and the name of this State; and each person who makes or is responsible for the original issue, gift, sale, use or other disposition of trading stamps shall make and maintain records of (a) the trading stamps so issued, given, used, sold or otherwise distributed; (b) the date or dates of their issue; and (c) the trading stamps redeemed by or for them within one year after their date or dates of issue, so that such records will disclose accurately the total number of trading stamps so issued, given, used, sold or otherwise distributed within this State which are not presented for redemption and redeemed within one year after their date or dates of issue.

17760. Each person who makes or is responsible for the original issue, gift, sale, use or other disposition of trading stamps shall file with the State Treasurer, on or before March 15, 1957, a sworn report, in such form as shall be prescribed by the State Treasurer, stating (a) the total number of trading stamps so issued, given, used, sold or otherwise distributed by such person within this State between the effective date of this chapter and December 31, 1956; (b) the total number of trading stamps referred to in clause (a) above which were not presented for redemption and redeemed within one year after their date or dates of issue; (c) the stated value or values of said trading stamps, as imprinted on their faces; and (d) such other information as the State Treasurer may reasonably require for the purpose of determining the number and value of the stamps subject to the reversion and escheat provisions contained in this chapter. Sworn reports in similar form shall be filed by each such person with the State Treasurer annually on or before the fifteenth day of March of each succeeding year for each preceding calendar year; provided, that in those cases in which any person or his predecessor in interest, has filed one or more of the reports provided for in this section, each report after the initial report shall account for and include the total number of trading stamps originally issued, given, used, sold or otherwise distributed by such person or his predecessor in interest within the period covered by the last preceding report which were not presented for redemption and redeemed within one year after their date or dates of issue.

17761. At the time of filing the report provided for in Section 17760, the person making such report shall pay to the State Treasurer a sum of money equal to the aggregate stated values of all trading stamps originally issued, given, sold, used or otherwise distributed by such person or his predecessor in interest within or before (but not before the effective date of this chapter) the period for which such report is made, which were not presented for redemption and redeemed within one year after their date or dates of issue, to the extent that liability for the payment to the State Treasurer of the stated value of said unredeemed trading stamps has not already been satisfied. The State Treasurer shall enforce the collection and recovery of all amounts payable under the provisions of this section by instituting such legal

actions and using such process as are prescribed or available for the collection and recovery of any obligation owing or payable to this State. All payments received by the State Treasurer pursuant to this section shall be credited to the General Fund.

#### Article 3. Penalties and Enforcement

17770. Any person who, for himself or for another person, violates any of the provisions of this chapter is guilty of a misdemeanor for each single violation and upon conviction thereof shall be punished by a fine of not less than one hundred dollars (\$100) nor more than one thousand dollars (\$1,000) or by imprisonment not exceeding six months or by both said fine and imprisonment. Each separate violation shall be a separate offense and each day of the continuance of such violation shall be deemed a separate offense.

17771. The Attorney General may maintain an action to enjoin a continuance of any act or acts in violation of any provision of this chapter and shall be entitled to recover in such action from the defendant the cost of suit. Upon the third conviction for the violation of any of the provisions of this chapter by any corporation, it shall be the duty of the Attorney General to institute proper suits or quo warranto proceedings in any court of competent jurisdiction for the forfeiture of its charter, rights, franchises or privileges and powers exercised by such corporation and to permanently enjoin it from transacting business in this State. If, in such action, the court finds such corporation has been convicted of not less than three violations of any of the provisions of this chapter, it shall enjoin said corporation from doing business in this State permanently or for such time as the court shall order, or it shall annul the charter or revoke the franchise of such corporation.

#### Article 4. Constitutionality

17780. If any section, sentence, clause or phrase of this chapter is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this chapter. The Legislature hereby declares that it would have passed this chapter, and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, sentences, clauses or phrases thereof be declared unconstitutional."

#### MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, March 23, 1955

*To the Honorable Members of the Senate*  
*of the California Legislature*

GREETINGS: On January 1, 1955, pursuant to Chapter 20 of the Statutes of 1954, the Department of Alcoholic Beverage Control came into existence.

I have been extremely pleased with the accomplishments of the Department during the brief two and one-half months that it has been in operation. On the basis of what has occurred thus far, I can assure you California's alcoholic beverage control laws are now being effectively administered. The Legislature is to be commended on its fine work in submitting the proposal for the creation of this new department to the voters at the last general election; and the people of California are to be complimented upon their overwhelming endorsement of the plan.

I am particularly proud of the fact that every top-level appointee in the new department is a career employee selected from the State Civil Service System. These men have been chosen because of outstanding reputations for honesty and ability. Their years of civil service experience insure the highest type of professional administration.

The department has adopted a policy of conducting all its activities out in the open. Adequate publicity has been given to every action, and nothing has been decided in secrecy. This open, straightforward and honest approach has already gone far in restoring public confidence in this phase of our State's business.

The department has developed new investigative procedures to obtain thorough information on the nature of the business proposed, and the moral character and competency of every potential licensee. No longer are licenses issued "for the record only" or to vacant lots where the

applicant has no intention of proceeding to establish a bona fide business. The practice of obtaining a license for speculative purposes has become almost impossible under the close scrutiny which is now being given to each application. No longer can persons with serious criminal records procure licenses and use their premises as centers of illegal activity.

A bolder and more vigorous enforcement program has been inaugurated. Where once there appeared reluctance to proceed, the new department is acting promptly and consistently on all types of violations.

The department has undertaken investigations of alleged irregular practices by former employees. As a result, at least 12 persons have been suspended or dismissed from state service on charges ranging from the acceptance of gifts from licensees to outright bribery. All remaining employees have been instructed that the department's business will be conducted on the basis of strict honesty and integrity.

Departmental officers have met with representatives of various peace officer groups and with numerous organizations representing the alcoholic beverage industry; and in each instance it has clearly indicated its desire to cooperate with all law enforcement agencies, recognize the needs and desires of the industry, and protect the interests of the public at large.

I know the members of the Legislature share my desire to do everything possible to help the department solve the many perplexing problems which 21 years of licensed alcoholic beverage activity has created in California. To this end, I submit the following suggestions:

#### I. Personnel

Director Russell S. Munro advises me that in his opinion the great majority of the personnel of the new department are honest, capable public servants. However, the position of liquor control officer is one of the lowest paid law enforcement classes of comparable responsibility in California.

The salary range for liquor control officer is \$341 to \$415 per month. The majority of these officers work in large cities and have or should have responsibilities at least equal to those of city patrolmen. Yet, patrolmen's salaries in several large cities are much more attractive. For example, the following cities pay their patrolmen the amounts indicated:

Oakland	\$395-\$425
Los Angeles	\$375-\$440
Berkeley	\$369-\$400
San Francisco	\$390-\$440

In addition, several law enforcement classes in the state service have higher pay ranges. For example:

State highway traffic officer	\$358-\$436
Special investigator	\$376-\$458
Narcotic inspector I	\$376-\$415

Because of these conditions the recruitment of promising young officers is difficult, and even after having been employed, quite a few experienced officers have transferred to other governmental agencies when afforded the opportunities for better pay.

In Section 23001, Business and Professions Code, the legislation has defined the purposes of the Alcoholic Beverage Control Act as follows:

“\* \* \* an exercise of the police powers of the State for the protection of the safety, welfare, health, peace, and morals of the people of the State, to eliminate the evils of unlicensed and unlawful manufacture, selling and disposing of alcoholic beverages, and to promote temperance in the use and consumption of alcoholic beverages. It is hereby declared that *the subject matter of this division involves in the highest degree* the economic, social, and moral well-being and the safety of the State and of all its people \* \* \*” (Emphasis added)

I agree with the Legislature that the administration of our alcoholic beverage control laws involves in the highest degree the general welfare of the people of California. Therefore, it is my desire that there be developed a force of liquor control officers which will come to be recognized as the most effective in the Country.

This can only be accomplished through careful recruitment of good personnel combined with effective training.

Mr. Munro has advised me that he intends to establish a meaningful and comprehensive training program. He also intends to request the Legislature to authorize increased peace officer powers. This will enable the department to take action against those licensees who abuse the privilege of their licenses by the commission of various crimes upon licensed premises which do not constitute violations of the Alcoholic Beverage Control Act. Presently, the liquor control officers are limited in their authority to violations of the Alcoholic Beverage Control Act.

In addition, I am asking Mr. Munroe to undertake, with the State Personnel Board, a revision of civil service specifications for liquor control officer as well as other related classes in the department. Such adjustments in salary ranges as the new concept of the classes may indicate will naturally follow. The civil service status of persons already in these classes will, of course, be protected.

I strongly recommend approval of these three proposals: an effective training program, increased peace officer powers, and higher pay. I am convinced such forward-looking steps eventually will give us the high-caliber enforcement team we so badly need in this most important job of liquor control.

## II. Food Law

Section 22 of Article XX of the State Constitution includes the following provision:

“Intoxicating liquors, other than beers, shall not be consumed, bought, sold, or otherwise disposed of for consumption on the premises, in any public saloon, public bar or public barroom within the State; provided, however, that subject to the aforesaid restriction, all intoxicating liquors may be kept and may be bought, sold, served, consumed, and otherwise disposed of in any bona fide hotel, restaurant, cafe, cafeteria, railroad dining or club car, passenger ship, or other public eating place, or in any bona fide club after such club has been lawfully operated for not less than one year.”

In 1946, the California Supreme Court interpreted this clause of our Constitution in the case of *Covert v. State Board of Equalization*, 29 Cal. 2d 125. In summary, the court ruled that a bona fide public eating place must meet the following requirements:

1. There must be equipment, supplies and personnel appropriate to a restaurant.
2. There must be a real offer to sell food whenever the premises are open for business.
3. There must be actual and substantial sales of food.

I am advised by numerous sources that the above requirements are too vague, complex, and unreasonable to be enforced uniformly throughout the State.

What kind and type of equipment, what quantity or kind of supplies, and what sort of a staff would be required to constitute compliance with this opinion?

By requiring that a real offer to sell food be made, is it intended that a cook and waiter must be on duty prepared to serve hot meals during all hours that alcoholic beverages are served? If so, I understand that many of our major hotels and cafes are not complying.

Further, what is meant by "substantial sales of food"? Restaurant A may sell \$1,000 worth of food and \$4,000 worth of liquor per month. Thus, its food sales equal only 20 percent of the gross. Restaurant B, on the other hand, may sell \$800 worth of food and \$1,200 worth of liquor. Its food sales are 40 percent of the gross although smaller in dollar value than those of Restaurant A. Which is making "substantial sales" of food?

In order to clarify these and other related problems, I urge that the Legislature give consideration to more clearly defining by statute what constitutes a public eating place in order for an establishment to qualify for a license to sell and serve alcoholic beverages.

It has been suggested that the food requirement should be eliminated entirely. I do not advocate legalizing the open saloon, but I believe that the Legislature should consider presenting the question to the people in the form of a proposed constitutional amendment clarifying and revising the present act. In this way, the voting public could clearly express itself on the subject.

In any event, I am convinced the time has come to evolve a clear and workable policy to guide the department in regulating on-sale premises. I am advised that a literal enforcement of the present law as interpreted by the Supreme Court could result in punitive actions against at least 75 percent of our major hotels, cafes and taverns.

### III. Off-sale Fees

Retail package stores are charged quarterly fees according to volume of sales. Each proprietor must maintain voluminous records and submit sales reports to the department every 90 days. State auditors check these sales at a cost of approximately \$180,000 each year.

Currently, there are 9,341 establishments licensed for general off-sale privileges. The proprietors pay \$121 on July 1st of each year, which authorizes gross sales of distilled spirits in package form not exceeding \$10,000. Sales reports are filed at the end of each subsequent quarter, and additional fees are assessed at the rate of \$11 for each \$1,000 in

excess of \$10,000. This creates a complicated bookkeeping problem, both for the department and the proprietor.

To replace the present cumbersome system, I suggest a flat fee be charged annually for each off-sale general license. In this way, the State would save approximately \$180,000 annually in auditing fees, and each proprietor would be relieved of bothersome and costly record keeping and report making.

I have requested the department to study this problem and suggest a standard fee which would maintain our revenues without bringing an excessive burden on any individual licensee.

#### IV. License Transfers

Recently, there has been considerable publicity regarding the transfer of liquor licenses from person to person for a financial consideration. Apparently this has become a recognized and approved procedure.

Personally, I see no reason why these licenses should be, in effect, negotiable paper. Records of the department indicate the undesirable results of unrestricted transferability, including excessive profiteering, bribery, and peddling.

Some licensees paid \$525 to the State and then transferred their licenses to other persons for as much as \$23,000 each.

State officers allegedly have been bribed to arrange for licenses to be issued for \$525 and then resold for huge profits.

Some persons have gained control of numerous licenses and have engaged in a regular business of peddling and re-peddling these licenses for repeated profits.

I am convinced these practices should be stopped as soon as possible. However, I recognize that most people obtained their licenses in good faith to conduct legitimate businesses. Since many of them paid high prices for these licenses, I feel they should have a reasonable opportunity to recover or amortize the purchase price. I believe, therefore, the department should retain its present authorization to approve a license transfer when a legitimate business is sold or moved to another location. Nothing should be done which would destroy the inherent "good will" value in the sales price of a bona fide establishment.

In order to begin action against the evils of transfer, legislation should be developed to accomplish the following objectives:

1. To eliminate the transfer for profit of old licenses, on a reasonable and gradual basis; and
2. Immediately, to prohibit the transfer for profit of new licenses.

#### V. Temporary On-sale License

Section 22 of Article XX of the State Constitution provides in part:

" \* \* \* the privilege of keeping, buying, selling, serving, and otherwise disposing of intoxicating liquors \* \* \* shall be licensed and regulated under the applicable provisions of the Alcoholic Beverage Control Act."

Various private and public clubs, associations, and miscellaneous groups frequently sponsor meetings, conventions, and parties at which alcoholic beverages are served. Oftentimes, this is done, although the premises has no license authorizing the use of alcoholic beverages. Thus, the sponsoring group may be violating the law, even though it has no intention of doing so.

To remedy this situation, I recommend that the department be authorized to issue temporary on-sale licenses to legitimate applicants for one-day social events. This would legalize what currently may be an illegal though generally accepted custom.

If such a license is not authorized, the department may have the unpleasant duty of taking action against persons who are unintentionally and unknowingly violating the law.

Undoubtedly there will be other problems which may arise from time to time affecting the new department. I shall consider it a privilege to work with you in seeking mutually acceptable and beneficial solutions to those problems.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

**OPINION OF LEGISLATIVE COUNSEL**

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL  
SACRAMENTO, CALIFORNIA, March 14, 1955

*Hon. Arthur H. Breed, Jr.*

*Senate Chamber*

Subdivisions: Senate Bill No. 280—No. 7374

DEAR SENATOR BREED:

*Question*

Senate Bill No. 280 proposes to delete from the Subdivision Map Act (B. & P. C., Secs. 11500 to 11628, inclusive) the provisions permitting a subdivider to elect between filing a record of survey map or submitting a final map for approval by the governing body of the city or county in which the proposed subdivision is situated, and would require that the subdivider submit a final map and have it approved and recorded before he may sell or offer to sell any subdivision or any part thereof.

You have asked whether such a requirement would prevent cities or counties from requiring a subdivider to dedicate streets to the public as a condition precedent to the approval of the final map?

*Opinion*

In our opinion, the bill would not prevent a city or county from imposing such requirements as a condition precedent to the approval of a final map.

*Analysis*

It has been contended that in California the theory permitting the requirement of dedication as a condition to the approval of a final map is based upon the proposition that the subdivider makes a voluntary donation for the privilege of having the map recorded, and that if he does not desire to accede to such requirements, he has the alternative of conveying lots by use of a record of survey map. It has also been contended that if a subdivider is precluded from using a record of survey map, it would be unconstitutional to require dedications as a condition to the approval of a final map.

The leading case upon the power of cities and counties to require dedications of property as a condition precedent to the approval of a final map is *Ayres v. City Council of Los Angeles*, 34 Cal. 2d 31. There a subdivider claimed that to require him, as a condition precedent to the approval of a final map, to dedicate land in his proposed subdivision for the future widening of a street adjoining the subdivision

would be an unconstitutional exercise of the power of eminent domain as a taking of his property without the payment of compensation.

The court, in rejecting this contention, stated:

“\* \* \* A sufficient answer is that the proceeding here involved is not one in eminent domain nor is the city seeking to exercise that power. It is the petitioner who is seeking to acquire the advantages of lot subdivision and upon him rests the duty of compliance with reasonable conditions for design, dedication, improvement and restrictive use of the land so as to conform to the safety and general welfare of the lot owners in the subdivision and of the public. The well-considered observations in *Mansfield & Swett v. Town of West Orange*, 120 N.J.L. 145 (198 A. 225), also involving a subdivision proceeding, are pertinent in this connection. The court there recognized the distinction between the exercise of the sovereign power of eminent domain and the noncompensatory nature of reasonable restrictions in respect to private interests when they must yield to the good of the community. That these general principles apply in subdivision map proceedings is also demonstrated in the cases of *Ridgefield Land Co. v. City of Detroit*, 241 Mich. 468 (217 N.W. 58), and *Newton v. American Sec. Co.*, 201 Ark. 943, 948, (148 S.W. 2d 311), where the distinction was made between the exercise of authority in such proceedings and the exercise of the power of eminent domain. In each of those cases it was held that the requirement for the dedication of land to the widening of existing streets was not a compulsory taking for public use; but that where it is a condition reasonably related to increased traffic and other needs of the proposed subdivision it is voluntary in theory and not contrary to constitutional concepts.” (34 Cal. 2d 31, at page 42.)

Dissenting from this holding, Justice Carter stated:

“In the three cases relied upon by the majority (*Mansfield & Swett v. Town of West Orange*, *supra*; *Ridgefield Land Co. v. City of Detroit*, *supra*; and *Newton v. American Sec. Co.*, *supra*), it would seem that the only penalty provided for in the event that the proposed subdivision was not approved was that the plat could not be recorded. These cases do not involve a fine or imprisonment, or both, as contemplated by the Map Act.

“The construction placed upon the Subdivision Map Act by the majority has the effect of telling the subdivider that he may dedicate land to the city for the privilege of recording and selling—a matter which is not a privilege, but a *right*, in other situations, or let the land go idle, or sell it and go to jail, pay a fine, or both.” (34 Cal. 2d 31, at pages 47, 48.)

The contentions advanced above appear to be based upon an assumption that a subdivider can be compelled to devote a portion of his property for certain public uses only if a final map is presented for approval, and that no such requirements may be imposed if he elects to file a record of survey map. Actually, many requirements of this nature can also be imposed by a city or county as a condition to the approval of a record of survey map. The Subdivision Map Act provides that a record

of survey map filed by the subdivider shall conform, in respect to design,<sup>1</sup> to the tentative map approved by the local governing body (B. & P. C. Sec. 11575). In approving a record of survey map, the local governing body may also require the installation of such improvements<sup>2</sup> as are reasonably necessary for sewage disposal, lot access and local neighborhood traffic and drainage needs (B. & P. C. Sec. 11575). It, therefore, seems clear that no matter what type of map is filed by the subdivider, he can be required to meet reasonable conditions as a condition to approval of the map.

The decision in the *Ayres* case sustaining the right of cities and counties to require dedications is not based upon the proposition that the subdivider has an option to follow either the final map procedure or use a record of survey map in its place, and if the latter type is used, no conditions may be imposed which would compel the subdivider to devote a portion of his property for certain public purposes. In the three cases relied upon by the majority, only one, the *Newton* case, mentioned that the subdivider had an alternative method available by which he might convey his property. The decision in the *Ayers* case is based, rather, solely upon the proposition that a requirement of dedication is a valid exercise of the police power, or as the court succinctly puts it, one who is seeking to acquire the advantages of lot subdivision has the duty of complying with "reasonable conditions for design, dedication, improvement, and restrictive use of the land so as to conform to the safety and general welfare of the lot owners in the subdivision and of the public." (34 Cal. 2d 31, 42.)

It is our opinion, therefore, that the provisions of Senate Bill No. 280 would not prevent a city or county from requiring street dedications as a condition precedent to the approval of a final map.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel  
By DONALD L. GILMOUR, Deputy

<sup>1</sup> "Design" is defined in the act as referring to street alignment, grades and widths, and widths of easements and rights of way for drainage and sanitary sewers and minimum lot area and width (B. & P. C. Sec. 11510).

<sup>2</sup> "Improvement" is defined in the act as referring to only such street work and utilities to be installed, or agreed to be installed by the subdivider on the land to be used for public or private streets, highways, ways, and easements, as are necessary for the general use of the lot owners in the subdivision and local neighborhood traffic and drainage needs as a condition precedent to the approval and acceptance of the final map or filing of the record of survey map thereof (B. & P. C. Sec. 11511).

SEC. 2. Chapter 8.1 is added to Division 4 of said code, to read:

#### CHAPTER 8.1. COUNTY SCHOOL SERVICE FUND SERVICES

##### Article 1. General Provisions

9501. The Legislature hereby declares that it is in the interest of the State and of the people for the office of the county superintendent of schools, through the county school service fund, to provide coordination of the educational program among districts under his jurisdiction and to provide professional and financial assistance to school districts which otherwise, because of size or location, would not be able to furnish a satisfactory program of education for their children. Such assistance is a matter of general concern inasmuch as the education of the children of the State is an obligation and function of the State.

In adopting this act, the Legislature considers that the coordination of the educational program constitutes the greatest continuing need to be met through the county school service fund. To meet this need the necessity is recognized to provide professional services to coordinate courses of study, guidance services, health services, special education, attendance activities, and advisory services in school business administration.

As an additional need, the Legislature recognizes the necessity to provide professional services in districts too small to supply such services for themselves economically and effectively, such as, (1) to prepare courses of study; (2) to supervise instructional practices; (3) to provide direct guidance services, health services, and attendance services normally provided in an educational program; (4) to provide for the purchase, distribution, and use of supplementary instructional materials and equipment; and (5) to provide educational opportunity to normal and special pupils who would otherwise be denied it. It is recognized further that providing for professional service is a transitory function of the county school service fund to be assumed by school districts when, through growth or reorganization, they will be able to perform the services for themselves.

It is the further intent of the Legislature that:

(a) Services involving the coordination of the educational program shall be provided, except as may be specifically authorized, at the district level, reserving to the district the opportunity and responsibility for internal improvement, and that such services will be provided in such a manner that recognition will be given to the responsibilities placed upon school districts by the Legislature to determine and administer their own educational program.

(b) Services to school districts which do not constitute coordination among districts shall be provided in such a manner that impetus will be given to strengthening school districts and to improving district organization to the end that more effective programs of education may be offered, and that the provision of services through the county school service fund shall not act to deter or delay any school districts from furnishing such services for themselves.

(c) Services to school districts shall be cooperatively provided by two or more county superintendents of schools without regard for county boundaries whenever a particular service may be so provided with economy and effectiveness.

(d) The direct operation of an educational program by the county superintendent of schools shall, except as specifically authorized by the Legislature, be limited to those emergency cases where children would otherwise be denied an opportunity for education.

9502. The county school service fund shall be used to pay for those services provided by the county superintendent of schools that are authorized by this chapter, and for such other purposes as are specifically authorized elsewhere in this code.

### Article 2. Coordination

9505. The county superintendent of schools may, with the approval of the county board of education and in accordance with regulations of the Superintendent of Public Instruction which he is hereby authorized to adopt, employ qualified personnel to provide for the coordination of courses of study, guidance services, health services, special education, attendance activities, and advisory services in school business administration activities among the school districts under his jurisdiction.

9506. The services described in Section 9505 shall, except in advisory services in school business administration activities, clerical, accounting, and stenographic services, be performed by persons who hold a valid credential of one or more of the following types issued by the State Board of Education:

The board of supervisors may include in such amount a sum for capital outlay.

*State Capitol, Sacramento, California*

DEAR GOVERNOR: Enclosed is an invitation for the dedication of Dwight D. Eisenhower Barracks to be held at the Veterans' Home of California on April 18, 1955 at 2:30 p.m.

While we realize that the Legislature is in session and it may not be possible for the members of the Senate to leave the State Capitol, we do wish to extend to you and through you to the members of the Senate, an invitation to attend.

This new building will give us 200 additional beds for the chronically ill and will permit us to reduce a long waiting list which we have for this type of care.

The Honorable Harvey V. Higley, Administrator of Veterans Affairs, and his chief medical officer, Dr. William S. Middleton from Washington, D. C., will be here to participate in the dedication and the ceremonies of dedication will be conducted by the Grand President and Grand Officers of the Native Sons of the Golden West.

It would be appreciated if you would have this invitation presented to the State Senate.

With kindest personal regards,  
Sincerely yours,

S. F. DUNMIRE, Colonel-Commandant

#### Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 722:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO 14, March 15, 1955

*To the Honorable Members of the Senate  
Sacramento, California*

GENTLEMEN:

**Senate Bill No. 722**, "An act making an appropriation for the completion of the lower level of the Richmond-San Rafael bridge,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

It is necessary that provision be made for the construction of the additional deck on the Richmond-San Rafael Bridge as early as possible so that the new construction can be integrated with the construction work already authorized and under way.

It is desirable that this measure be enacted early in the session, and I therefore recommend its consideration before final action on the budget.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

The roll was called, and the bill passed by the following vote:

*President of the Senate*

DEAR MR. PRESIDENT: This is the forty-eighth calendar day. Upon the conclusion of business on the forty-seventh calendar day in 1953, we had received from committee 778 bills, given second reading to 588 bills and sent to enrollment 172 bills.

To date this session, we have received from committee 568 bills, given second reading to 410 bills, and sent to enrollment 185 bills. In this respect, we are 13 bills ahead of our position two years ago.

If we do not meet on Saturdays and Sundays, we have 53 days remaining in which to complete the work of the session. Assuming that we will pass as many bills this session as we did two years ago, we will have to dispose of an average of 42 measures per day in order to complete the work on the eighth of June, the 120th day of the session.

Attention must be called to the fact that we had one especially good day last week when we were able to dispose of 68 measures in one day. This satisfactory day's business was in a large measure to be attributed to the fact that there were a series of 47 Assembly Bills dealing with one subject which were disposed of with the maximum of expedition.

Respectfully submitted,

J. A. BEEK, Secretary of the Senate

"SEC. 28. Section 35704 of said code is amended to read:

35704. As long as any of the bonds of the district or any interest thereon remain unpaid, the parking places acquired for the district shall be used as public parking places [and for no other purpose] unless the legislative body makes the determination provided in Section 35706.

SEC. 29. Section 35706 is added to said code, to read:

35706. As an alternative to the provisions of Section 35705, and to the extent authorized in the covenants contained in the ordinance, resolution or indenture providing for the issuance of the bonds, the use of any of the properties as public parking places may be discontinued as to such property or any portion thereof if the legislative body, after public hearing following such notice thereof as the legislative body may prescribe, determines by a four-fifths vote of all its members that the public interest and necessity and the needs of the district no longer require that such property, or such portion thereof, be used as public parking places. Thereafter the property as to which such determination is made may be sold as other city property is sold when no longer needed for a public purpose. The proceeds of such sale shall be used as provided in said covenants.

SEC. 30. Chapter 6, comprising Sections 35750 to 35756, inclusive, is added to Part 4 of Division 18 of said code, to read:

CHAPTER 6. CURATION

35750. This part shall be liberally construed in order to effectuate its purpose. No error, informality, omission or illegality, and no neglect or omission of any officer, in any procedure taken hereunder, which does not directly affect the jurisdiction of the legislative body to order the work or improvement, shall avoid or invalidate such proceeding or any assessment for the cost of any work or acquisition hereunder. The exclusive remedy of any person affected or aggrieved thereby shall be by appeal to the council in accordance with the provisions hereof.

35751. Any objection or protest not made at the time and in the manner provided herein is waived. All decisions and determinations of the council, upon notice and hearing, shall be final and conclusive upon all persons entitled to appeal, as to all errors, informalities, omissions and irregularities which might have been avoided, or which might have been remedied during the progress of the proceedings or which can be remedied, and as to illegalities not amounting to a want of due process of law.

35752. No bonds issued hereunder, and no proceedings for same, shall be held invalid by any court for error, informality, omission, irregularity, illegality or other defect in the same, where the resolution of intention has been actually published as herein provided.

35753. No action, proceeding or defense to correct, set aside, cancel, avoid, annul or otherwise attack any proceedings under this part up to and including the adoption of the ordinance declaring the district formed shall be maintained by any person unless such action, proceeding or defense is commenced or made within 30 days after the adoption of such ordinance. No action, proceeding or defense to correct, set aside, cancel, avoid, annul or otherwise attack any proceedings under this part taken subsequent to the adoption of said ordinance, including but not limited to proceedings taken and determinations made pursuant to Sections 35402.1 and 35402.3, shall be maintained by any person unless such action, proceeding or defense is commenced or made within 30 days after the taking of such proceedings.

35754. The curative clauses of this part are cumulative and each is to be given full effect.

35755. In the event that any court of competent jurisdiction shall determine that any bonds issued hereunder shall be invalid by reason of a want of jurisdiction to issue same, or if the legislative body shall determine that said bonds, or any thereof, are uncollectable, the legislative body shall cause new bonds to be issued upon giving notice thereof by two publications in a local newspaper, the first of which publications shall be at least ten (10) days before the date set therein for hearing thereon. Such bonds shall be for the amount of the unpaid bonds determined to be invalid or uncollectable and for incidental expenses. The legislative body's decision that any original bonds are uncollectable shall be final.

35756. At any time after the adoption of the resolution of intention, the legislative body may take proceedings in the superior court in and for the county in which the city is located for the validation of such proceedings in the manner and with like effect provided in the Irrigation District Law for the validation of irrigation district bonds."

If within such five-day period the commissioner notifies the surplus line broker that such insurance is in violation of this section and orders the broker to effect termination of such insurance within 10 days from such notice, and the broker fails or refuses to effect such termination, such failure or refusal is a violation of this section. Statements filed under this section shall not be subject to public inspection unless the commissioner determines that the public interest or the welfare of the filing broker requires that any statement be made so subject. The commissioner may make and publish reasonable rules and regulations, consistent with this chapter, in respect to transactions governed thereby and the basis or bases for his determinations hereunder.

*(b) The commissioner is empowered and directed to appoint a Surplus Line Committee of not less than three nor more than five members for the purpose of assisting the commissioner in the enforcement and administration of this chapter. ## Article 5.6. Bonds of Improvement Districts

4806. As an alternative method of issuing bonds the district board may, after the approval and adoption of an engineer's report for a portion of the district, if it deems it necessary to incur a bonded indebtedness to obtain funds with which to acquire the property and do the work set forth in the report, by resolution so declare and state: (a) the general objects and purposes for which the proposed debt is to be incurred; (b) the amount of debt to be incurred; (c) that the district board intends to form an improvement district of that portion of the district which in the opinion of said board will be benefited, the exterior boundaries of which portion are set forth on a map on file with said board, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be derived exclusively from an annual tax upon the real property in the improvement district; (e) that the engineer's report, together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement, are on file with the district board and are available for inspection by any person interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution by any person interested, including all persons owning property in the district or in the proposed improvement district, will be heard.

4807. Notice of said hearing shall be given by publishing a copy of the resolution at least once each week for two weeks prior to the time fixed for the hearing in a newspaper having general circulation in the county sanitation district. Such notice shall also be given by posting a copy of said resolution in three public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

4808. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the district board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or within the proposed improvement district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness.

The district board shall have power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters, provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement. If the district board proposes to change the purposes for which the proposed debt is to be incurred, it shall cause appropriate changes to be made in the report before giving notice of such change. The purpose, amount of bonded debt and boundaries shall not be changed by said board except after notice of its intention to do so, given by one insertion in a newspaper having general circulation in said county sanitation district, and by posting in three public places within said proposed improvement district. Said notice shall state the changed purpose and debt proposed and

that the engineer's report as changed by said board, together with a map showing exterior boundaries as proposed to be changed, are on file with the district board and are available for inspection by any person interested, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of said notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, said board shall continue with the hearing. At the hearing any person interested, including any person owning property within the district or the proposed improvement district, may appear and present any matters material to the changes stated in the notice.

At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which said proposed debt is to be incurred, the amount of the proposed debt, that the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the district board, which map shall govern for all details as to the extent of the improvement district, and that said portion of the district set forth on said map shall thereupon constitute and be known as "Improvement District No. --- of --- (name of county sanitation district)," and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within a county sanitation district, all proceedings for the purpose of a bond election shall be limited and shall apply only to the improvement district, and taxes for the payment of said bonds and the interest thereon shall be derived exclusively from an annual tax upon the real property in the improvement district.

4809. When the board has made its determinations as provided in Section 4808 and if the board deems it necessary to incur the bonded indebtedness, the board shall by resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the name of the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said improvement district is on file with the district board, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be derived exclusively from an annual tax upon the real property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not be more than the rate specified in this chapter for bonds of the district, payable at the time specified in this chapter for bonds of the district; (h) the measure to be submitted to the voters; (i) the date of the election; and (j) the election precincts, polling places and election officers.

4809.1. Any action or proceedings, wherein the validity of the formation of the improvement district or of any bonds issued for it or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

4809.3. Bonds issued as bonds of the district for an improvement district therein and the interest thereon shall be paid by revenue derived exclusively from an annual tax upon the real property in the improvement district of such county sanitation district, and all the real property within the improvement district of such county sanitation district shall be and remain liable to be taxed for such payments. The board of supervisors of the county shall annually, at the time and in the manner of levying other county taxes, levy and cause to be collected a tax upon the taxable real property in the improvement district, based upon the last equalized assessment roll of the county sufficient to pay the interest on the bonds for that year and such

**LETTER OF TRANSMITTAL**

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE

SACRAMENTO, March 25, 1955

*Hon. John A. Murdy*

*Member of the State Senate*

*State Capitol, Sacramento, California*

DEAR SENATOR MURDY: In accordance with Senate Resolution No. 48 introduced by you and adopted at the 1955 General Legislative Session, I am transmitting herewith a report on a study of A Program for State Office Buildings for Branch Offices in various cities of the State.

While time did not permit detailed and exact analyses for each location, the report is designed to present a reasonably accurate over-all appraisal of the office building needs in all communities in which a significant volume of state business is being conducted.

Respectfully submitted,

JOHN M. PEIRCE, Director of Finance

**A PROGRAM FOR STATE OFFICE BUILDINGS  
FOR BRANCH OFFICES**

Senate Resolution No. 48 of the 1955 General Legislative Session refers to previous studies which have shown the advantages to be gained from the construction of state office buildings in the major metropolitan areas of this State and directs a study to be made by the Director of Finance to determine whether the erection of state office buildings in other cities can also be justified from the standpoint of economy of investment and improvement of efficiency. The resolution mentions the following cities as examples of communities in which need for suitable state office facilities should be investigated:

Bakersfield	Pasadena	Santa Barbara
Chico	Redding	Santa Rosa
Eureka	San Bernardino	Stockton
Long Beach	San Jose	Vallejo
Modesto	San Luis Obispo	Ventura
Monterey	Santa Ana	

This report includes consideration also of these additional cities:

Alhambra	Hollywood	Roseville
Burbank	Huntington Park	Sacramento
Compton	Los Angeles	San Diego
Culver City	Marysville	San Fernando
East Los Angeles	Merced	San Francisco
El Centro	Oakland	Santa Cruz
Fresno	Red Bluff	Torrance
Glendale	Richmond	Visalia
Hayward		

The resolution asks that a report be made to the current session of the Legislature setting forth a program for the construction of state office buildings in such communities with a recommended priority schedule for any such construction.

#### Previous Reports on Office Buildings

In 1953 the Director of Finance engaged Industrial Survey Associates to make a study of leased versus state-owned office quarters in Los Angeles, San Francisco, Oakland, San Diego, and Fresno. The report on this study, which was filed with the Director of Finance on January 31, 1954, concluded that the State should construct office buildings in these cities and contained much material in support of that conclusion.

The State Building Construction Program as reported to the Joint Legislative Budget Committee (Senate Journal of January 20, 1955, page 608) covers projects to be undertaken during the five fiscal years 1955-56 through 1959-60, and includes the following schedules dealing with state office building projects:

#### 1. *Department of Finance Projects*

The schedule beginning at page 139 includes a program for new office buildings which are needed to accommodate a large number of state agencies now housed in rented quarters in the following localities:

Fresno	Sacramento	San Francisco
Los Angeles	San Diego	San Jose
Oakland		

#### 2. *Department of Motor Vehicles Projects*

The schedule beginning at page 145 includes a program of new office buildings for the Department of Motor Vehicles in

Chico	Hayward	Oakland
East Los Angeles	Hollywood	Red Bluff
Fresno	Merced	Roseville
Glendale	Monterey	San Francisco

#### 3. *Department of California Highway Patrol Projects*

The schedule beginning at page 148 includes an office building for the use of the Department of the California Highway Patrol in the bay area. (At the time the report was compiled, it was uncertain whether the office would be located in Oakland or San Francisco. Later information indicates San Francisco to be the more desirable location.)

#### 4. *Department of Employment Projects*

The schedule beginning at page 150 presents a program for branch offices for use of the Department of Employment in

Alhambra	Huntington Park	Richmond
Burbank	Marysville	San Fernando
Culver City	Merced	Santa Ana
East Los Angeles	Monterey	Torrance
El Centro	Oakland	Vallejo
Glendale	Pasadena	Visalia

**Scope of This Report**

The purpose of this report is to augment the above-mentioned reports by presenting the need for office space in other localities, indicating the cities in which it appears advantageous for the State to construct office buildings, the size and character of the buildings needed, and comparing the amortized cost of state-owned office buildings with the cost of continued renting. The localities studied (including those previously reported in the five-year State Building Construction Program (1955-1960) are placed in categories as follows:

Category 1—Those localities in which the needs of a number of state agencies justify the construction of central state buildings:

Bakersfield	Redding	San Jose
Eureka	Sacramento	Santa Barbara
Fresno	San Bernardino	Santa Rosa
Long Beach	San Diego	Stockton
Los Angeles	San Francisco	Ventura
Oakland		

Category 2—Those localities in which the Department of Employment is the primary state agency requiring space and in some of the localities other state agencies with relatively smaller requirements could profitably be housed in an expanded Department of Employment building:

Alhambra	Huntington Park	Richmond
Burbank	Marysville	San Fernando
Chico	Merced	San Luis Obispo
Compton	Modesto	Santa Ana
Culver City	Monterey	Santa Cruz
East Los Angeles	Oakland (Industrial)	Torrance
El Centro	Pasadena	Vallejo
Glendale	Red Bluff	Visalia
Hayward		

Category 3—Those localities in which buildings are programmed for the separate needs of the Department of Motor Vehicles (except in Roseville, other state agency needs included in Roseville).

Chico	Hollywood	San Francisco
East Los Angeles	Oakland	Hayward
Fresno	Roseville	San Diego
Glendale		

The following tabulation summarizes localities in priority order within categories and shows the space requirements and comparative cost data upon which priorities of localities are based. Attached as an "Exhibit A" is the listing of state agencies considered for housing at each locality together with description of the proposed facility.

# SUMMARY TABULATION OF OFFICE SPACE REQUIREMENT BY LOCALITIES WITH COMPARATIVE COST DATA AS TO RENTAL VERSUS STATE-OWNED FACILITIES

Computed cost of rented buildings				Computed cost of state-owned buildings

**FACTORS PERTINENT TO THE STUDY****General**

The study indicates that savings would result in most instances from constructing state-owned buildings even without placing a dollar value on the important economies that would accrue from centralization of state agencies in properly designed state-owned buildings, and the greater convenience to the public.

Central grouping of state agencies, wherever practical, would be a convenience to the public and should result in a saving to the State. In addition to reducing rental costs, further savings can also be obtained from joint use of facilities by the agencies, combined management and operation of the buildings, and minimizing travel time between agencies where frequent contact is required.

Other savings, somewhat intangible in nature, may also result from central state-owned facilities. Buildings designed specifically for state occupancy would promote effective space utilization and also produce functional arrangement that would facilitate operation of the agencies. The costs incurred by periodic moves caused by lease expiration would be eliminated. The losses in employee efficiency due to substandard quarters would be reduced. The time presently being consumed by employees of the respective agencies on building management and operations would be saved for their normal duties, and, in the over-all, would serve to offset the costs of management of a central state building.

**Consideration of Feasibility of Central State-owned Buildings**

1. Diversity of state agency function and the resulting type of space needs and requirements determine the general nature of the building and the success of housing in one structure. The needs for first floor access, convenience to public, parking, storage of equipment, shops and the nature of agency's operation are prime considerations.
2. The size of building is pertinent as to whether it will warrant custodial staff, central management, operation and control.
3. Community population growth both as to rate and direction must be considered.

**Costs per Square Foot**

Annual rental rates per square foot (including maintenance and operation) for the localities studied average \$2.39 ranging from a low of \$1.24 in Fresno to \$2.79 in Los Angeles. *Since many of the quarters are substandard or were negotiated under prior conditions, future rental rates will undoubtedly increase.* It is estimated that future average rentals will increase to \$2.69 per square foot and will vary between a low of \$1.86 in Torrance to a high of \$3.07 in Los Angeles.

Cost per square foot over a 50-year period in central state buildings including depreciation over the improvements interest at 3 percent for the financing period (assuming 25-year obligations retired serially) and maintenance and services is computed to average \$2.33. The low would be \$1.71 in Merced and the high \$2.67 in Oakland.

**Coordination of Agency Building Programs**

1. Consideration of the Department of Employment program determined in each instance the advisability of:
  - (a) Including quarters for the Department of Employment in a central state building in lieu of constructing one for their sole use;
  - (b) Constructing additional space in the proposed Department of Employment branch offices for rental to other state agencies;
  - (c) Making additions to existing Department of Employment office buildings in order to provide housing for other agencies in the same locality.
2. The Department of Motor Vehicles program has been integrated with the central building program where conditions warranted after giving consideration to location as affecting needs for driver testing, truck inspection and peak loads. Conflict in such things has resulted in exclusion in most instances of the Department of Motor Vehicles in the central program.
3. It has been determined that the needs of the Department of the California Highway Patrol are better served at separate locations, usually on the outskirts of population centers or on the main highway routes.

**METHODS AND LIMITATIONS OF THE STUDY****Source and Availability of Data**

To serve as a basis for the study, data were assembled by reference to office records, lease files, and discussion with agency headquarters representatives. Time did not permit new field surveys.

**Assumptions**

Since time did not allow for a detailed analysis of the actual circumstances and conditions prevailing in the present quarters of the agencies in each of the localities, it was necessary to rely on estimates of space needs based on the following:

- (a) An estimate of the net usable space required by each agency including an amount to correct for crowded conditions where they prevail, and an allowance for anticipated expansion for a five-year period. (Space needs were estimated on standards of utilization rather than present usage.)
- (b) Translation of the above to an approximate net and gross area for each building and includes such additional facilities, as custodial, public space, and meeting rooms in order to arrive at an estimated project cost of each building. Construction costs are estimated at \$18 per square foot with adjustments in a few instances for special circumstances. Assumed cost of sites have been added in order to obtain total project cost estimates.
- (c) Determination of "true" costs of leased premises, has been arrived at by adding to the present total rental rate an estimated amount to compensate for services not furnished by the lessors.

- (d) Comparison of costs of leased premises with those for state-owned buildings, rental rates were adjusted to allow for anticipated rate increases. Allowance has been made also for expansion in area requirements in estimating future rental costs to make them comparable with the net areas reflected in the programs for each of the proposed buildings which likewise make provision for such future expansion.

For example in :

**Bakersfield**

The total estimated area required including nominal expansion and correction would result in a building containing approximately 11,500 square feet of net usable space. The gross area would be 16,400 square feet at a project cost of \$295,000. Assuming that a site adequate for the building and parking would cost \$40,000 the total investment would be \$335,000.

Present rentals for these agencies totals \$23,556 per year. This figure includes varying degrees of services and utilities ranging from none, through partial, to complete. In order that the "true" rental cost be reflected for purposes of comparison, it is necessary to assume that there exists an additional cost of maintenance and services where it is not furnished under the lease terms. If it is estimated that such service costs average \$7,260 per year the actual rental costs would be increased by that amount to \$30,816. This averages \$2.54 per square foot per year.

Assuming that rental rates would increase 10 percent from \$2.54 to \$2.79 per square foot, it is reasonable to anticipate that, for the 11,500 net square feet estimated as required in a state building, the future rental costs would be \$32,085 per year.

If the building would have a useful life of 50 years, its annual depreciation would be \$5,900. Interest on the total investment of \$335,000 at 3 percent for a 25-year financing period and assuming obligations retired serially would be \$2,613 per year. Maintenance and services are estimated to cost \$16,800 annually. The total annual cost would be \$25,313 or \$2.20 per square foot per year of net usable space as compared with the present rate of \$2.54 and a possible future rate of \$2.79. The annual cost of a state building of \$25,313 in lieu of \$32,085 for rental quarters would result in a saving of \$6,772 per year.

**Exhibit A**

**AGENCIES TO BE HOUSED AT EACH OF THE LOCALITIES  
TOGETHER WITH BRIEF BUILDING DESCRIPTION**

**Alhambra**

A one-story building for the Department of Employment program. (Other state agencies are not represented in the area.)

**Bakersfield**

The Department of Veterans Affairs, Natural Resources—Division of Oil and Gas, Industrial Relations, Education—Vocational Rehabilitation, Board of Equalization, Franchise Tax Board, and Public Utilities Commission would justify housing in a state-owned facility separate from the existing state-owned Department of Employment building. (Department of Motor Vehicles in satisfactory rental quarter under long-term lease.)

A one-story building with partial second floor and parking would require a site of approximately two-thirds of an acre. It would not be practical to combine this building with that of the existing Department of Employment building since that structure is a separate entity, its site is restricted and its construction does not allow for a second story.

**Burbank**

A one-story building for the Department of Employment program. (Department of Motor Vehicles will service this location from its proposed replacement Glendale office. Other agencies are not represented in the area.)

**Chico**

The Board of Equalization and the Department of Mental Hygiene could be housed in a state-owned facility as an addition to the existing Department of Employment building. Due to the small area requirement, an extension could be constructed to the existing Department of Employment building. Such addition, of approximately 4,200 gross square feet, would be one story and could be added to the building at its north side with separate entrances. The existing mechanical room could be enlarged to serve the extension. Approximately 80 feet of additional site north of the building would be necessary in order to compensate for the parking area that would be displaced by the addition. (In addition a separate building in the Department of Motor Vehicles program is justified because of necessity to be in a less congested location for driver testing.)

**Compton**

A one-story building for the Department of Employment program. (Of higher priority than previously anticipated in original program.)

**Culver City**

A one-story building for the Department of Employment program. (Department of Motor Vehicles cannot plan program until direction of population growth better determined. Other state agencies are not represented in this area.)

**East Los Angeles**

The Departments of Employment and Mental Hygiene could be housed in a state-owned facility.

The structure would be in the Department of Employment program as the principal space user with 750 additional square feet for the Department of Mental Hygiene. (In addition a separate building in the Department of Motor Vehicles program is justified because of necessity to be in a less congested location for driver testing.)

**El Centro**

The Department of Employment, Department of Motor Vehicles, and the Board of Equalization could be housed in a state-owned facility in the Department of Employment program as the principal space user. A one-story building is indicated with adequate parking for state automobiles and public requirements.

**Eureka**

The Board of Equalization, Departments of Industrial Relations, Fish and Game, and Education—Vocational Rehabilitation could be centralized in one building. It would not be practical to construct an addition to the existing state-owned Department of Employment building due to inadequacy of its site, the terrain and the nature of its structure; however, a state-owned facility is justified even though only 5,046 square feet, provided it is located adjacent to the existing Department of Employment building to share in management and maintenance. (Department of Motor Vehicles already housed in a state-owned building.)

**Fresno**

A multistory building that will provide facilities for Departments of Agriculture, Corrections, Education—Vocational Rehabilitation, Employment, Fish and Game, Industrial Relations, Investments—Division of Real Estate, Mental Hygiene, Natural Resources—Division of Forestry, Professional and Vocational Standards, Public Health, Public Works—Division of Water Resources, Veterans Affairs, Youth Authority, the Public Utilities Commission, State Controller, district courts of appeal, Board of Equalization, State Fire Marshal, and the Franchise Tax Board. The building will be constructed on a state-owned site situated at the Fresno Civic Center. (Originally, Department of Motor Vehicles was included in the central office building program. It has subsequently been determined that they will be better served by a separate building in a less congested location for driver testing.)

**Glendale**

The proposed Department of Employment building could be enlarged to provide office quarters for the Board of Equalization and the Department of Corrections. The building would have a large ground floor and a partial second floor. (In addition a separate (replacement) building in the Department of Motor Vehicles program is justified because of necessity of location on outskirts of city for driver testing and to serve the Burbank area.)

**Hayward**

The Department of Employment, and the Board of Equalization could be housed in a state-owned facility in the Department of Employment program as the principal space user. The site would provide for a building with separate entrances for the different functions, permitting a layout having proper relationship with exterior parking in order to avoid conflict in operations. (In addition a separate building in the Department of Motor Vehicles program is required because of necessity for a less congested location for driver testing.)

**Hollywood**

A one-story building for the Department of Motor Vehicles program. (Department of Employment already housed in a state-owned building and other agencies not represented in the area.)

**Huntington Park**

By increasing the proposed Department of Employment building with a partial second floor, the Department of Corrections could be included in this building. No additional site would be necessary.

**Long Beach**

The Board of Equalization, Department of Alcoholic Beverage Control, Veterans Affairs, Professional and Vocational Standards, Mental Hygiene, Industrial Relations, Education—Vocational Rehabilitation, Corrections—Bureau of Paroles and Franchise Tax Board could be housed in a centrally located building, exclusive of the existing state-owned Department of Employment and Department of Motor Vehicles buildings which do not readily allow themselves for an addition. The building would be 24,000 gross square feet to be located in an area where land values would justify a one-story building with partial second floor and a fenced parking lot for state cars and adequate public parking.

**Los Angeles**

A multi-story building and garage that will increase office space facilities necessary to relieve crowded conditions in the existing state building provide for anticipated expansion, and materially reduce rental quarters. The building will provide housing for most of the state agencies in Los Angeles now in rental quarters except those instances where requirements of location, type of operations, or temporary nature of operation would preclude occupancy in a central state building.

The improvements are to be constructed on a state-owned site located on First Street between Broadway and Hill Streets. (Department of Employment has acquired a site and a building to house their operations, has been financed, and is now being designed.)

**Marysville**

The proposed Department of Employment building could be increased to provide for the Board of Equalization on a partial second floor. It would be necessary to increase the site to provide for additional parking for the Board of Equalization.

**Merced**

The Department of Motor Vehicles and the Board of Equalization could be housed in the proposed Department of Employment building if it is enlarged. It would be necessary to acquire a site of sufficient size in order that the building could be so planned to avoid conflict of operations and to provide for a substantial increase in parking needs. The site should be located at the north edge of the city to best serve the operations of the agencies. (Present considerations indicate Motor Vehicles can be effectively included in central building program.)

**Modesto**

The Departments of Employment and Education—Vocational Rehabilitation and Board of Equalization aggregate needs would be sufficient to justify a state-owned facility in the Department of Employment program as the principal space user. The building would have a large ground floor and a partial second floor. The site should be approximately one-half acre to provide adequately for parking. (This has not been included previously in the program because Department of Employment had favorable lease arrangements for their separate program.)

**Monterey**

The Departments of Industrial Relations, Natural Resources, Fish and Game, Employment, and Motor Vehicles could be housed in a state-owned facility in the Department of Employment program as the principal space user. (Present considerations indicate Motor Vehicles can be effectively included in central building program.)

The building would have approximately 11,500 net square feet on the ground floor and 7,700 on a second floor. The site characteristics should be such that it would be suitable for a building having separate entrances for the different functions, providing proper integration with exterior parking in order to avoid conflict in operations. Approximately an acre site is desirable.

**Oakland**

A multistory building with basement garage and exterior fenced-in parking that will provide central housing for the Departments of Corrections, Education—Vocational Rehabilitation and Industrial Education, Employment (exclusive of Industrial Office), Industrial Relations, Investments—Division of Real Estate, Mental Hygiene, Professional and Vocational Standards, Public Works—Division of Architecture, and Veterans Affairs, the State Controller, Board of Equalization, Franchise Tax Board, Legislative Office and the Water Pollution Control Board. The building will be constructed on a state-owned site located at the Oakland Civic Center. (The industrial operation for the Department of Employment is programmed at a separate location. A separate building replacement is necessary in the Department of Motor Vehicles program.)

**Pasadena**

The Board of Equalization, Departments of Employment and Education—Vocational Rehabilitation could be housed in a state-owned facility in the Department of Employment program as the principal space user. The Department of Employment has acquired a site 97' x 190' in dimension. A partial second story could be added to the proposed building. It would be necessary to acquire an adjoining site in order to provide for additional parking.

**Red Bluff**

The Department of Employment, Department of Motor Vehicles, and the Board of Equalization could be housed in a state-owned facility under the Department of Employment program as the principal space user. The building would be arranged so as to provide separate entrances properly integrated with exterior parking in order to avoid conflict of operations. Approximately one-half acre site would be acquired. (Present considerations indicate Motor Vehicles can be effectively included in central building program.)

**Redding**

The Departments of Industrial Relations, Motor Vehicles, and Veterans Affairs, Board of Equalization, and Public Utilities Commission could be housed in a centrally located state building, provided it is constructed on a site adjacent to the present state-owned Department of Employment building. This is necessary to gain the advantages of

combined management and operation. The building would be two stories and would require a one-quarter-acre site.

#### **Richmond**

The Board of Equalization could be housed in state-owned facilities by an increase in size of the proposed Department of Employment building. The building would be one story with a partial second floor. It would be necessary to acquire a somewhat larger site to provide for the additional parking required by the Board of Equalization.

#### **Roseville**

The Board of Equalization could be housed in a state-owned facility by an increase in the size of the proposed Department of Motor Vehicles Building. The building would be one story with separate entrances so arranged to avoid conflict of operations. (Other state agencies are not represented in the area.)

#### **Sacramento**

Completion of the state office buildings currently in varying stages of construction, and one other already financed, will add, for the immediate future, sufficient additional space to house in state-owned buildings practically all state agencies now headquartered in Sacramento. The total space thus available, including the existing buildings, some of which will require renovation, will be sufficient to correct for present crowded conditions and allow for anticipated expansion during the next three to five years. It will also reduce rental quarters in Sacramento to a minimum. The annex to the Agriculture Building will be completed June 1, 1955, the Employment Building, February 1, 1956, and the Veterans Building approximately the early part of 1957. The Personnel Building, recently completed is now occupied. The above-named buildings total 564,370 net square feet of additional area.

Anticipated future expansion of state agency needs indicates that by 1961 additional net area of 136,000 square feet would be required. It is proposed to meet this requirement at that time with the construction of a new Retirement Building. This building is included on page 140 in the State Building Construction Program under the Department of Finance schedule.

#### **San Bernardino**

A central state building facility could include the Departments of Education—Vocational Rehabilitation, Professional and Vocational Standards, Mental Hygiene, Industrial Relations, Public Health, Veterans Affairs, Alcoholic Beverage Control, Board of Equalization, Franchise Tax Board, and Public Utilities Commission (exclusive of the district court of appeals now in the existing Department of Motor Vehicles Building and exclusive of the existing Department of Employment Building situated on a limited site). A two-story structure containing approximately 7,125 net square feet on each floor, and a one-half acre site would be required.

#### **San Diego**

A multistory building will be required for the Departments of Agriculture, Corrections, Education—Vocational Rehabilitation, Employment, Fish and Game, Highway Patrol—District Office, Industrial

Relations, Insurance, Investments—Division of Real Estate, Mental Hygiene, Public Health, Veterans Affairs, and the Compensation Insurance Fund, District Court of Appeal, Board of Equalization, Franchise Tax Board, Legislative Offices, Public Utilities Commission, Water Pollution Control Board, Youth Authority. (A separate building necessary in the Department of Motor Vehicles program.) The site, not yet selected, for this building should be approximately two acres or one square block. The building would be so arranged as to have several entrances in order to accommodate the differing functions and to avoid conflict in operation.

#### **San Fernando**

A one-story building to house the Department of Employment program. (Other state agencies not represented in the area.)

#### **San Francisco**

A multistory addition to the existing state building that will increase office space facilities necessary to relieve crowded conditions in the building, provide for anticipated expansion, and materially reduce rented quarters. The building will provide housing for most of the state agencies now in rented quarters except those instances where requirement of location, type of operations, or temporary nature would preclude occupancy in a state building. Due to the limits of the state-owned site and the height limit, sufficient area could not be developed with this addition to provide for all state agencies. For this reason it is proposed to continue use of rented quarters in the Ferry Building and an additional building owned by the Harbor Commission presently housing the Departments of Natural Resources—Division of Mines—Division of Oil and Gas, Department of Finance—Purchasing Division, Agriculture, Corrections—Bureau of Paroles. (A separate building necessary in Department of Motor Vehicles program.)

The addition will be six stories and will be integrated with the existing building in a manner that will allow readily for the expansion of the present occupants on each of the floors and avoid extensive alterations to present quarters. A separate main entrance will be provided at the north on the Golden Gate Avenue façade.

#### **San Jose**

A multistory building could house the Departments of Veterans Affairs, Mental Hygiene, Alcoholic Beverage Control, Education—Vocational Rehabilitation, Corrections, Employment, Industrial Relations, Public Health, Professional and Vocational Standards, Board of Equalization, Franchise Tax Board, and Public Utilities Commission.

Due to the diverse nature of the functions of the various agencies, the building will require a large ground floor arranged in a manner so that separate entrances and coordination with the exterior parking is possible in order to avoid conflict of operations. The site should be of adequate size for this purpose and also to provide for public parking and storage of state cars. A site of approximately two acres or one square block would be required.

**San Luis Obispo**

The Board of Equalization, Department of Employment, Department of Motor Vehicles, and Water Pollution Control Board could be housed in a state-owned facility under the Department of Employment program as the principal space user. The Department of Motor Vehicles and the Department of Employment would each require a ground floor location, with the remainder of the agencies housed on a partial second floor. Parking facilities should be adequate to avoid conflict of operation of the Department of Motor Vehicles functions with the public parking.

**Santa Ana**

The Departments of Employment, Industrial Relations, Education—Vocational Rehabilitation, Mental Hygiene, and Board of Equalization would require sufficient area to justify a state-owned facility under Department of Employment program as the principal space user. The building would have a ground floor containing 10,000 net square feet and a second floor of approximately 6,000 net square feet. The site should be approximately two-thirds of an acre to provide adequate parking.

**Santa Barbara**

The Department of Veterans Affairs, Mental Hygiene, Motor Vehicles, Industrial Relations, Corrections, Public Health, Education—Vocational Rehabilitation, Office of Civil Defense, the Franchise Tax Board, Board of Equalization, and Public Utilities Commission could be cared for in a state-owned facility. The state-owned site, with some adjustment to create a rectangular site, would be adequate for a state building. Such building would be two stories plus basement garage with fenced-in parking area. Additional parking area would be provided by a state-owned plot across the street. (Department of Employment already housed in a state-owned building.)

**Santa Cruz**

The Departments of Employment, Motor Vehicles, Mental Hygiene, and the Board of Equalization could be housed in a state-owned facility under the Department of Employment program as the principal space user. (Present considerations indicate Motor Vehicles can be effectively included in central building program.) The building would be arranged so as to provide separate entrances properly integrated with exterior parking in order to avoid conflict of operations. Approximately one-half acre site would be required.

**Santa Rosa**

The Departments of Motor Vehicles, Mental Hygiene, Public Health, Alcoholic Beverage Control, Veterans Affairs, Education—Vocational Rehabilitation, Natural Resources—Division of Beaches and Parks, Corrections, the Board of Equalization, Franchise Tax Board, Water Pollution Control Board, and Public Utilities Commission could be housed in a site of adequate size. Location would be a prime consideration in order to satisfy the diverse requirements of these agencies. The building would be two stories with entrances arranged so as to avoid conflict in operations of the agencies, particularly as they would

be affected by the exterior functions of the Department of Motor Vehicles. The site of the existing state-owned Department of Employment building is not large enough to accommodate an addition of the required size, and its structure makes additional stories impractical.

#### **Stockton**

The Departments of Industrial Relations, Natural Resources—Division of Beaches and Parks, Education—Vocational Rehabilitation, Mental Hygiene, Professional and Vocational Standards, Alcoholic Beverage Control, Public Health, the Franchise Tax Board, Board of Equalization, and Public Utilities Commission could be housed in a state-owned facility. (Department of Employment already is housed in a state-owned facility.)

The nature of the proposed occupancy will require a two-story building. Due to the diverse nature of the functions of the various agencies, the building will require a large ground floor arranged in a manner so that separate entrances and coordination with the exterior parking is possible in order to avoid conflict of operations. The State presently owns a site, but it should be enlarged for this purpose by the acquisition of one-half acre. Fenced-in parking will be required for state cars.

#### **Torrance**

A one-story building on a state-owned site for the Department of Employment program. (The Department of Motor Vehicles is the only other state agency in this community. Its requirements could not be met at the site for the building.)

#### **Vallejo**

The Department of Employment program consisting of a building containing 7,800 net square feet on a ground floor could be expanded to a second story adding 2,300 net square feet or sufficient area to provide for the Board of Equalization. (Department of Motor Vehicles already housed in state-owned facilities.)

#### **Ventura**

The Department of Employment, the Board of Equalization, and State Controller could be housed in a state-owned facility.

A two-story building with approximately 9,600 net square feet on the ground floor and a partial second floor containing approximately 3,100 square feet would be required. The ground floor of the building should be arranged in a manner so that separate entrances and coordination with exterior parking is possible in order to avoid conflict of operations. The site should be of adequate size for this purpose and also to provide for public parking and storage of state cars. Approximately two-thirds of an acre would be required. (The size of building is subject to reduction depending upon establishment of a Department of Employment office in Oxnard.)

#### **Visalia**

The building in the Department of Employment program could be enlarged to provide office quarters for the Board of Equalization and the Department of Education—Vocational Rehabilitation. The building would have partial second floor and the site should be adequate to provide for the additional parking necessary for these agencies.
